FORTY-ONE YEARS OF GOLDEN RULE SERVICE

To Our Friends and Customers—Greeting:

Our 1934 catalog is presented to over 100,000 satisfied customers who have found that dealing with a reliable house pays. We thank them for their patronage and invite continuation of their business.

Postoffice—GENEVA, OHIO

Telephone—GENEVA, OHIO, No. 713

Telegraph—GENEVA, OHIO

Location Office, Seed House and Storage Plant—New South Ridge Pavement, 7 miles west of Ashtabula and 3 miles east of Geneva.

INFORMATION—Please Read

No. 1. True to Name. All stock will be labeled strictly true to name. We exercise the greatest care to have all orders filled right, but we all make mistakes. Upon proper proof where stock is not true to name it is mutually understood between us and the purchaser, that we will replace the stock or refund the purchase price, but will not be held liable for more than this amount.

No. 2. Inspection. All our trees and plants are carefully inspected by the state and an inspection certificate accompanies each and every shipment.

No. 3. Shipment. We ship via express, mail, freight. Stock marked mail is postpaid, otherwise is packed free and purchaser pays transportation charges. We start shipping in spring any time after February 1st, and keep same up until June 1st. Please state when you wish shipment made. Fall shipment October 1st.

No. 4. Payment. Our terms are cash with order. Money should be sent by check, postal money order, draft, express money order or registered mail.

No. 5. Special Notice When Ordering. Please state how you wish same shipped, write name, initial, postoffice, state, railroad station, r. f. d. number and r. f. d. box number very plainly so that no mistakes will happen in delivery, also use our order blank.

No. 6. Guarantee. All goods are guaranteed to reach you in good condition, mistakes if made, will be promptly rectified. Accept shipment, examine and count on receipt and notify us at once if there be any errors, and the carrier and us if any damaged stock. This must be done on the arrival of the stock. We guarantee our trees to arrive and be satisfactory but we do not take planter's risk, at the price at which we sell, although they are as good as any that can be bought.

No. 7. Our Reference. Geneva Savings Bank, Geneva, Ohio; Postmaster at Geneva, Ohio; or any paper in which our advertisements appear.

No. 8. Purchaser Pays Transportation Unless Marked Mail Postpaid. All stock packed free on board cars.

CASH ON DELIVERY

Applies to Trees and Plants Only

To those who wish to book orders in advance and not wishing to send money with order, we will ship c. o. d. by express or mail. When by mail a postoffice charge of 12c will be added to c. o. d. Seeds are cash with order.

The Sun Shines Again!

AFTER several years of very, very tough sledding with the well known wolf growling at the front door, the bill collector hammering at the back, and the all too familiar mortgage threatening to engulf house, barn, tractor and all, the sun, after a few timid peeps, has now begun to shine confidently, and cheery days are ahead for courageous farmers. Hard work, intelligently applied, again pays dividends.

Prices are rising, and farm products are no exception. Credit is becoming more liberal and progressive farmers can now get capital to make needed repairs and improvements. Banks are safe and are guaranteed to remain so. Your deposits will not be tied up when you need them most.

Now is the time to lay plans. Now is the time to plant, not recklessly, but not penuriously, with eyes on the future. Particularly is this true of fruit of all kinds for, with increased earnings, people will again demand the better things in life, and certainly good food is one of those.

But beware! Like all other farm improvements, planting is a long-time investment. Risks must be avoided. Second-rate planting stock pays no dividends. To even keep it alive is a herculean task, while to make it bear abundantly is impossible. Your time is too valuable to be spent in wet-nursing a bunch of weakling trees and bushes, nor can the old bankroll, though convalescent, stand any unnecessary expense.

What you want is sturdy, thrifty, true-to-name stock, and that is a perfect description of the stock Allen's Nurseries and Seed House have for sale. You must have it at low prices and those are the sort of prices we sell at. You want a courteous, dependable source of supply and on both counts we refer you to the bank testimonial and the authentic, unsolicited letters from customers scattered throughout this catalog, just a few at random from the many we receive in a year.

We are not a new firm. Forty-one years of close contact with growing things have made us experts in handling all the various phases of planting, growing, digging and shipping. But we are progressive. The most approved methods are the ones you will find at Allen's. Our land is well fertilized and drained and our stock is disease-free. Every precaution is taken to ensure your satisfaction with whatever you may buy from us.

Small orders receive the same prompt and careful attention as larger ones. We are business men enough to know that large orders grow from small ones and we govern ourselves accordingly. So, whether you order one tree or a carload, your order receives careful attention.

Mistakes may occur to anyone and, while we are as careful as possible, they may creep in. But we stand back of our goods. Our reputation, which we jealously guard, is your guarantee of satisfaction. Our interest in our customers and in our products never ceases. No sale is complete 'till the customer is satisfied.

Let us help you get a good hand from the New Deal!

ALLEN'S NURSERIES & SEED HOUSE
 are operating under the terms of the Agricultural Act. Although we expect to sign the proposed Nurserymen's Code when it is approved, we have been unable to join the NRA until this code is signed.

 1933

TO WHOM IT MAY CONCERN:-

Allen's Nurseries and Seed House has been a customer of this bank for some time and has been engaged in the growing and selling of Nursery stock and Seeds for a great many years in this locality.

We have found them prompt and reliable in every way and their dealings with us have been most satisfactory.

It is a pleasure to recommend Allen's Nurseries and Seed House to anyone in need of the goods they offer for sale. We also consider them an excellent credit risk for such as they are likely to ask.

Their goods will always be found as represented and I am sure any business dealings with men of such experience and character as the Allens will be both satisfactory and pleasant.

Yours very truly,
A. A. Searle
 Secretary & Treasurer

Strong Northern Grown Apple Trees

Apple is the King of all Fruits. It always sells well on the market. Who doesn't like to sit down on a winter night and eat a few of those luscious apples? Doctors always advise the use of Apples for health, both for adults and the children. We have selected our varieties from a large list and believe we have the best suited to all sections that can be gotten together in the room we have to give to this fruit. Our Apple Trees are grown by us here in the North and will bear quicker than Western or Southern grown Apple Trees. Plant our Lake Shore Grown Apple Trees.

By mail, postpaid: 1 year, 3 to 4 ft., each, 20c; per 10, \$1.75; per 100, \$15.00.

By express or freight: First class, 2 year, 5 to 7 ft. tall, each, 45c; per 10, \$3.50; per 100, \$30.00. Medium, 2 year, 4 to 5 ft. tall, each, 35c; per 10, \$3.00; per 100, \$20.00.

Maiden Blush. Medium size, flat and smooth, pale yellow with deep red cheek, tender, pleasant acid flavor, good bearer, fine for home orchard. October.

Bambo. Medium yellow, streaked red, keeps until Christmas time, fine eating apple for home use.

Winter Apples

Baldwin. Well known old sort and one of the best there is. Large, bright red, tree large grower and very productive, sells well on the market, extra good keeper.

Ben Davis. Large, handsome, striped, good keeper, tree vigorous grower.

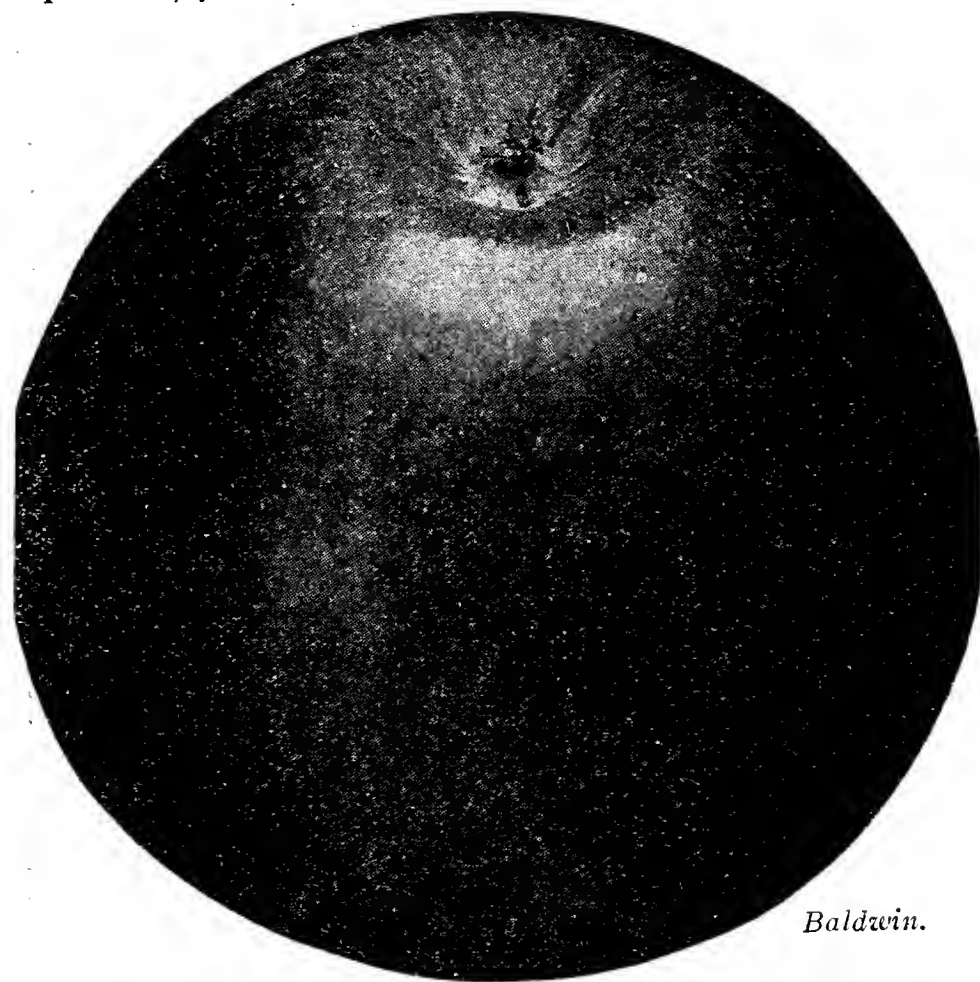

Cortland. A new Apple, originated by Geneva, New York, Experiment Station; a deep red Apple of the very best type, young bearer and good keeper. An improvement over McIntosh Red.

Red Delicious. A remarkable variety rapidly taking first place both for home and commercial orchards. Fruit extra large; color nearly bright red; flesh white and fine grained, rich, melting and juicy, of the very highest quality; tree young bearer, sometimes at age of 3 years from planting; good keeper in most sections; annual bearer.

Fameuse (Snow). Good home sort, hardy, medium size, crimson, white flesh.

Gallia Beauty (Red Rome Beauty). A seedling from the Ohio River Valley, a well tried and wonderful apple; will prove successful anywhere in Central States.

Gano. Form conical, good size, dark red, very attractive, young bearer and good keeper.

Baldwin.

Summer Apples

Early Harvest. Medium to large, pale yellow, fine flavor, tree upright grower, a good bearer, excellent variety for home use. August.

Golden Sweet. Large, pale yellow, very sweet and good. Strong grower and good bearer. August.

Liveland Raspberry. Fruit good size, waxy white striped with crimson, bears early in life, makes good filler in orchard.

Red Astrachan. Well known old sort, large and roundish, crimson color, juicy, rich acid flavor, vigorous grower, deep foliage. August.

Sweet Bough. One of the very best Sweet Apples. Yellow in color, large, tender and heavy bearer. August.

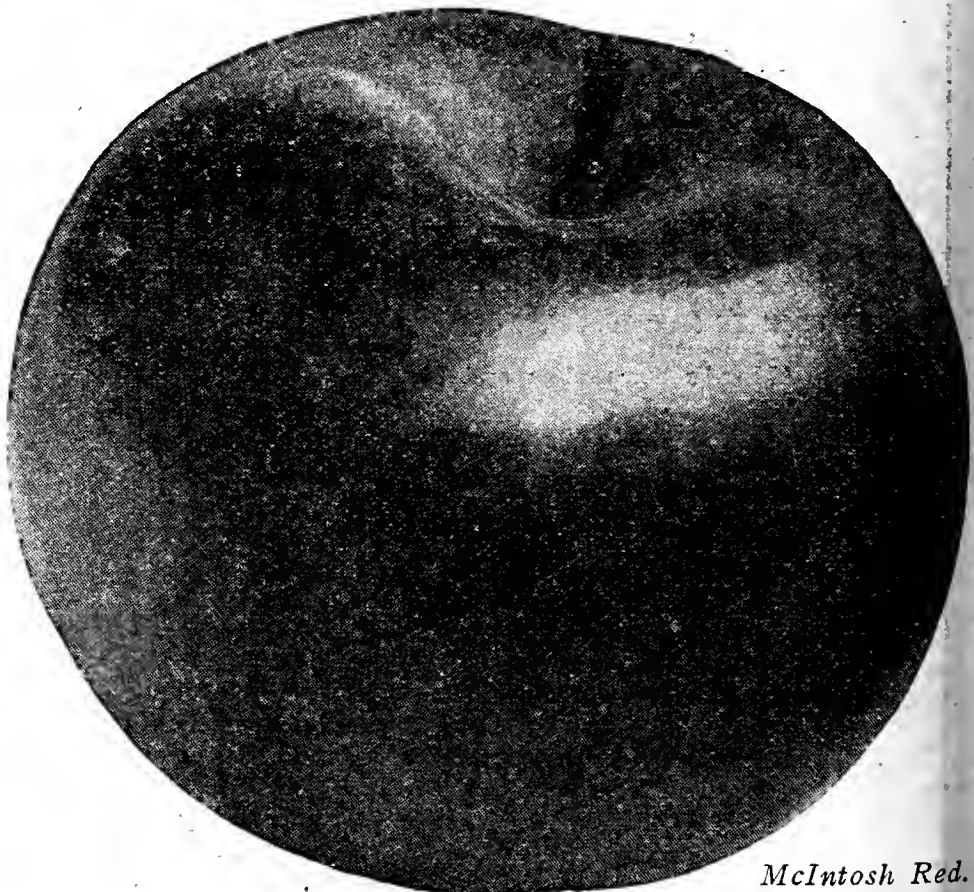

Yellow Transparent. Earliest and best, white, tender and juicy, sprightly sub-acid, grows rapidly, bears young, and is very profitable. August.

Autumn Apples

Autumn Strawberry. Streaked, tender, juicy, sub-acid, vigorous and productive. September.

Duchess of Oldenburg. The best of all fall sorts for planting, bears at an early age, good size, yellow streaked with red, juicy, sub-acid and productive, good for both commercial and home planting. September.

Fall Pippin. Large yellow, juicy, tree vigorous grower, good home sort. November.

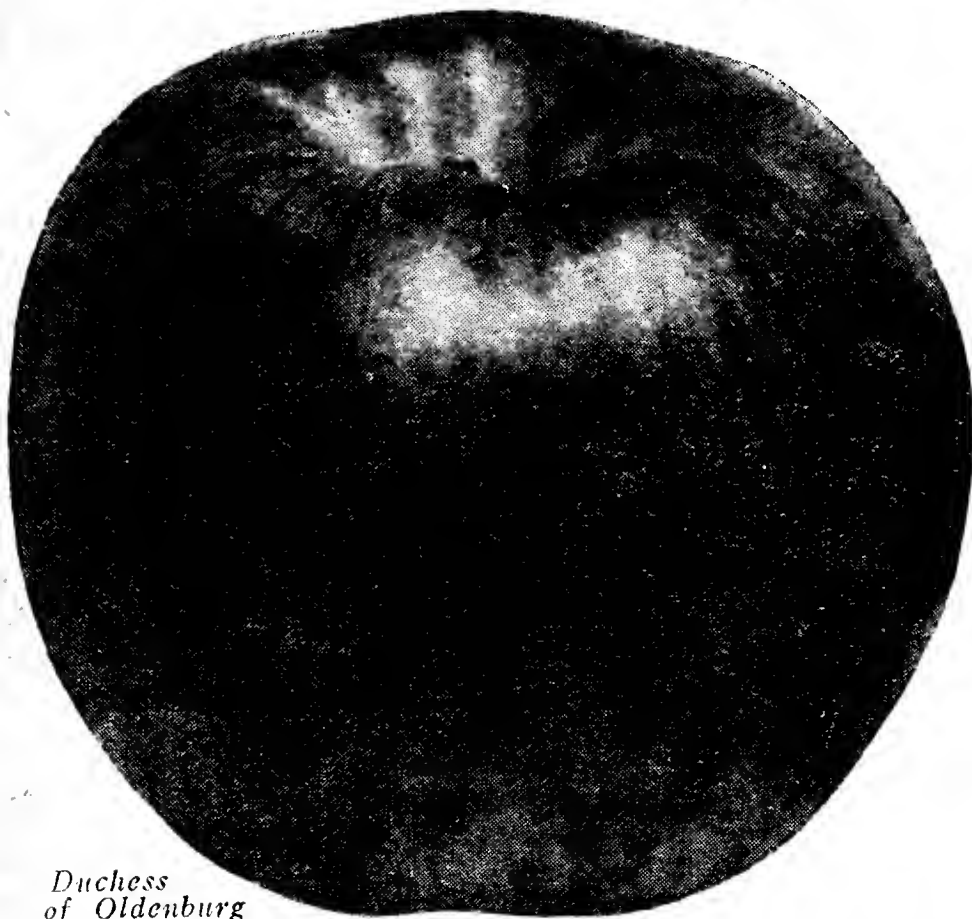

McIntosh Red.

Apple Trees, 3 Ft. to 4 Ft., by Mail, 20c.

APPLES—Continued

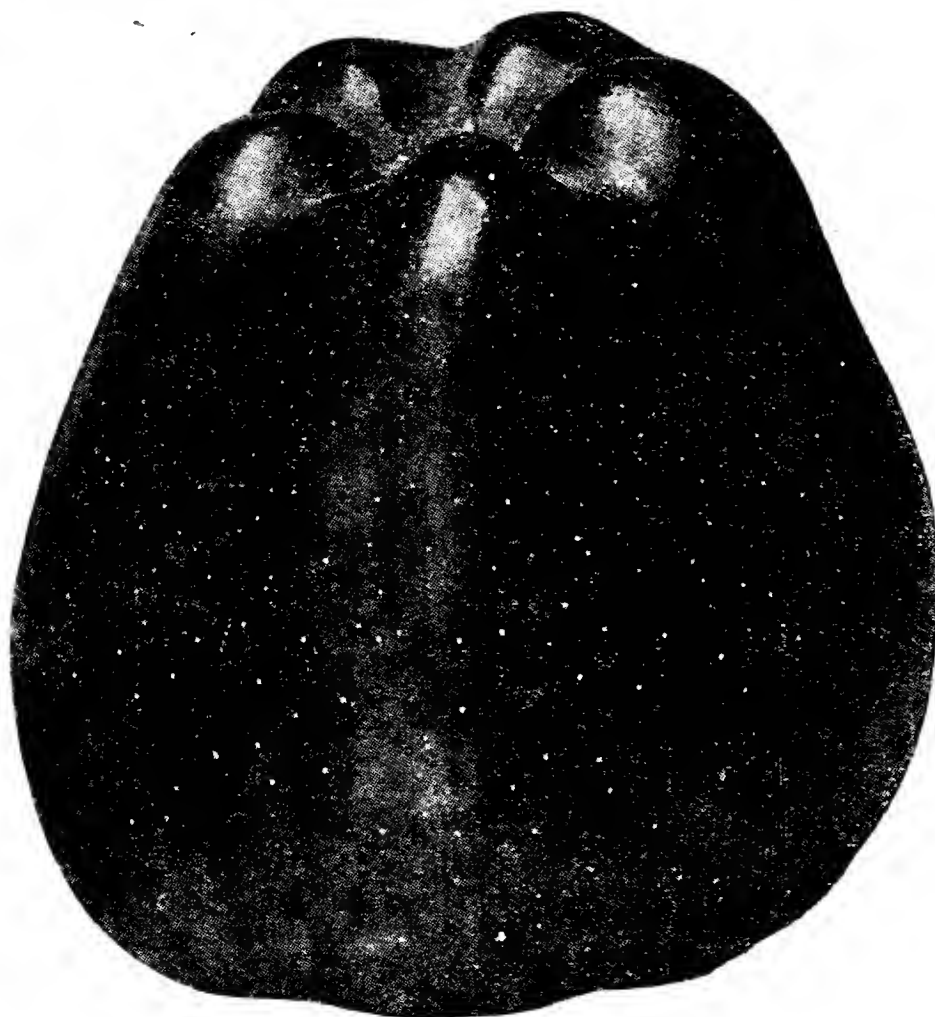

WINTER APPLES—Continued.

- Golden Russet.** Medium size, dull russet with red showing on one side, crisp and juicy, flavor good; good late keeping.
- Grimes Golden.** An extra fine quality apple. Golden in color, good keeper, tree vigorous and productive.
- Hubbardston (Nonesuch).** Large, red, striped, tender and juicy, good home variety.
- Jonathan.** Fruit medium size, red, very tender, good flavor, tree young bearer, a good market sort. We recommend it for commercial planting; good keeper.
- King (Tompkins County).** Large and handsome, striped red and yellow, vigorous and productive, excellent apple; does not keep so well as some.
- McIntosh Red.** Medium size, nearly covered with dark red, flesh white, tender, juicy and crisp, tree very hardy, a good bearer, starts bearing very young. One of the best for planting.
- Northern Spy.** Large, roundish, slightly conical, striped with sunny side red, flesh white and tender, with a mild, sub-acid, rich and delicious flavor. Tree good grower, one of the best eating and marketing sorts.
- Northwestern Greening.** Large, yellow, good bearer, thrifty, keeps well, one of the best yellow sorts.

Duchess of Oldenburg

- Red Spy.** Red Spy is a typical Spy except in color. The color is a solid bright red without either stripes or splashes. The new variety has great beauty in the fruits, and in the tree, hardiness, healthfulness, productiveness, and reliability in bearing.
- R. I. Greening.** Large, greenish yellow, tender, juicy, and rich, with an acid flavor; tree large grower, heavy yielder, abundant bearer; excellent keeper.
- Rome Beauty.** Large, yellow shaded with bright red, juicy, sub-acid, good keeper and a fine market sort. Bears young.
- Spitzenburg.** Medium sized, deep red, flesh yellow, crisp, sub-acid, high flavored; bears and grows well in most sections.
- Stayman's Winesap.** One of the best apples for bearing and selling. We strongly recommend this variety; good size, deep red, handsome, juicy and crisp. Keeps well, bears young, an extra good apple both for eating and cider making.
- Tolman Sweet.** Good for dessert and culinary work, tree hardy and productive, fruit pale yellow, sometimes blushed; flesh white, and rich in flavor.
- Wagener.** Good size, deep red, firm, sub-acid, excellent keeper and bearer; bears very young, tree upright grower. One of the best varieties for orchard planting.

Red Delicious.
Red all over.

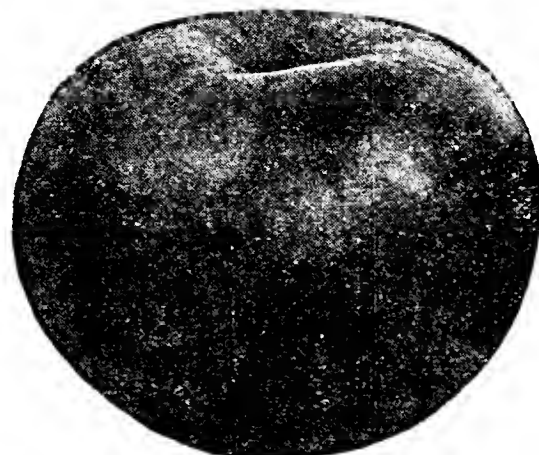

- Wealthy.** Early winter variety keeping until Christmas; deep red, flesh white, very juicy; good market sort, fine for home use; quick and heavy bearer, quality of the very best for eating. You can't beat them for November and December.
- Winter Banana.** Large, yellow, shaded and marbled with crimson, quality good; bears young, good keeper; excellent for all uses.
- York Imperial.** Medium to large, yellow shaded with red, firm, sub-acid, an excellent keeper and shipper.

Crab Apples

Same price as Apple Trees.

Hyslop. Large, deep crimson, one of the most beautiful, very popular; in our estimation the best for all sections.

Whitney. One of the largest, glossy green splashed with red, firm, juicy, and pleasant.

Hyslop Crab.

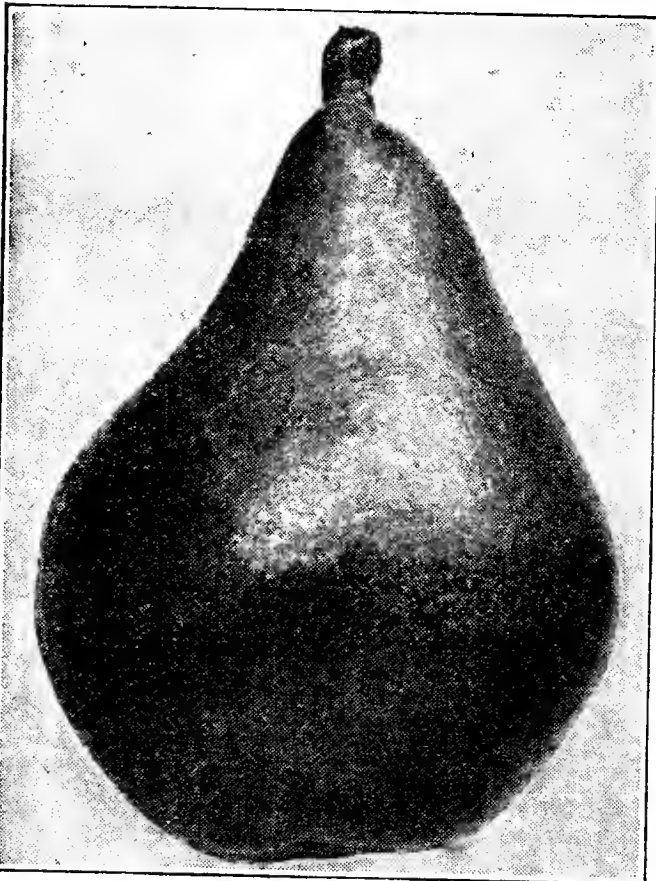

Northern Spy.

Pear Trees, Standard

Pear trees do well on almost any soil, but thrive best on heavy clay or loam. They should be planted 18 or 20 feet apart. We have selected here a list of the varieties that have proven most satisfactory.

By mail, postpaid: Thrifty, 3- to 4-ft. Pear trees, each, 20c; per 10, \$1.75; per 100, \$15.00.

By express or freight: First class, 2 yr., 5 to 7 ft. tall, each, 40c; per 10, \$3.00; per 100, \$26.00. First class, 2 yr., 4 to 5 ft. tall, each, 35c; per 10, \$2.50; per 100, \$22.50.

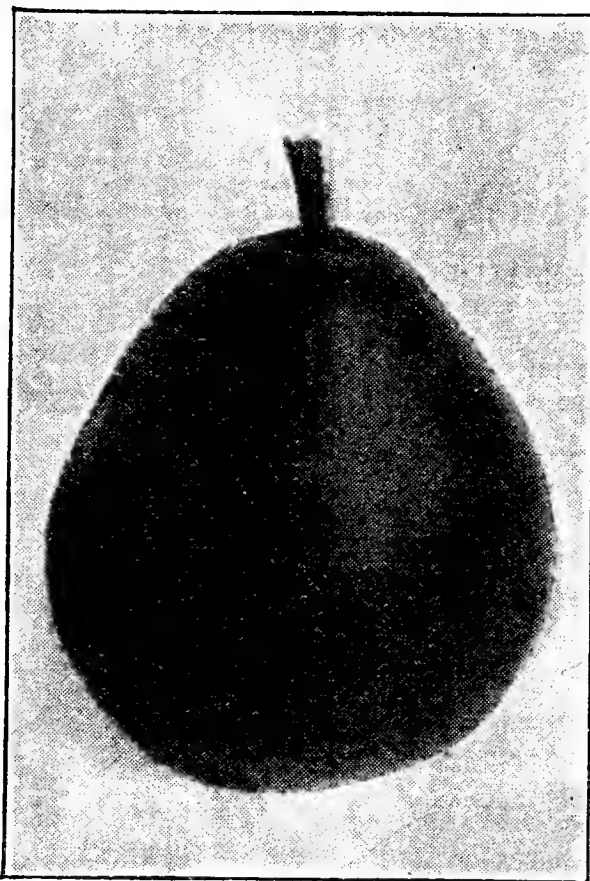

Bosc.

Anjou. A large greenish pear shaded with crimson. The flesh is highly flavored, sprightly, vinous, melting and juicy; one of the best fall pears in existence. Ripens in November.

Bartlett. Large, yellow, waxy pear, rich and juicy, tree hardy, regular and heavy bearer, probably best pear for all users. September.

Bartlett.

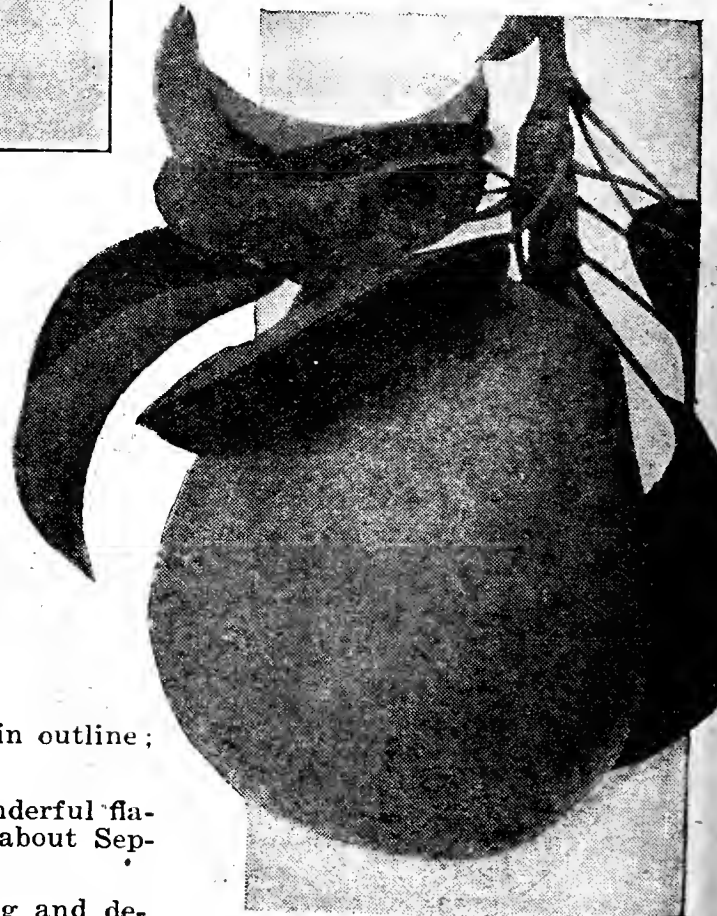

Duchess.

Bosc. Finest quality late fall and winter variety. Extra large, long and tapering; russet; good shipper, brings highest market price. A vigorous grower. November and December.

Cayuga. A promising seedling of Seckel. The tree characteristics of this new sort seem to be about all that could be desired. The pears average as large as Bartlett, but are similar to Seckel in shape and to Clairgeau in color. Flesh firm, fine in texture, with the rich delectable flavor of Seckel.

Clapp's Favorite. A splendid pear, resembling Bartlett, and ripening ten days earlier, the tree is hardy and vigorous, fruit juicy, fine grained and delightful. One of the best pears on the market. August.

Anjou.

Duchess (of Angouleme). One of the very largest of good pears, greenish in color, juicy and a good canning pear, one of the best for autumn.

Flemish Beauty. A large, beautiful, melting, sweet pear; tree very hardy, vigorous and productive, succeeds well in all climates. September.

Gorham. Pear growers want a variety to follow Bartlett which lacks some of the conspicuous faults of the several sorts that are now grown for that season. Gorham ripens its fruit 2 weeks earlier than Bartlett and it keeps a month longer. The fruit resembles that of Bartlett in size, color, and shape. The flavor is sweet and vinous, with a very marked and pleasing aroma. Trees vigorous and productive.

Kieffer. Very large. Tree a fine grower, makes a beautiful tree for planting along farm drives, fruit while hard when picked from tree if placed in cellar until Thanksgiving becomes very good to eat. Sells well for market sort.

Koonce. Originated in Illinois. One of the earliest pears, free from blight, does not rot at core like many early pears, very productive.

Lawrence. Medium to large, golden yellow, with melting aromatic flesh; can not be beat for early winter pear. The tree is hardy, vigorous and productive, comes under russet class.

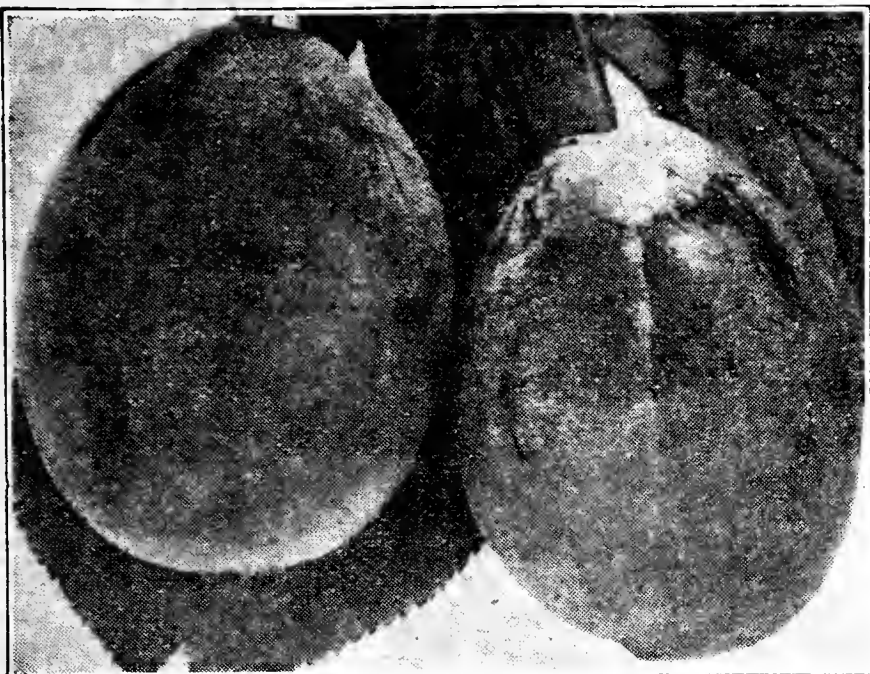

Phelps. Phelps is a cross between Winter Nelis and Russett Bartlett. The fruit is of the type of Bartlett, but ripens much later. Flavor better than Bartlett, but the appearance of the fruit is duller. Flesh tender and juicy. Ripens around Thanksgiving and keeps until Christmas.

Pulteney. A sister tree to Phelps. Fruit of Bartlett type, a little more regular in outline; skin smoother. Comes during the season between Bartlett and Phelps.

Seckel. Small, skin rich yellowish brown, juicy, melting in the mouth, is a wonderful flavored pear; used a great deal for pickling; sells well on the market. Ripens about September 15th.

Sheldon. A large, round, russet and red pear of very rich fine quality, melting and delicious. Tree vigorous; bears well. October.

We Keep Prices on Fruit Trees as Low as Possible.

German Prune.

Plum Trees

By mail, postpaid: Thrifty, 3- to 4-ft. Plum trees, each, 20c; per 10, \$1.80; per 100, \$16.00. By express or freight: First class, 2 yr., 5 to 7 ft. tall, each, 40c; per 10, \$3.50; per 100, \$30.00. First class, 2 yr., 4 to 5 ft. tall, each, 35c; per 10, \$2.75; per 100, \$22.00.

Abundance. Another Japanese Plum, bright red, flesh juicy, tender and very sweet; heavy bearer and brings top notch on the market. Early August.

Bradshaw. Fruit large, dark violet; flesh yellowish green, juicy and pleasant tasting; tree vigorous, erect and very productive. August.

Burbank. Of Japanese origin, fruit large and fine, amber, turning to a rich bright red; flesh juicy, tender, sweet; very productive, ripens early in August.

German Prune. Large, dark purple, sweet, good, one of the most popular for canning because of its sweetness and lack of acid. We strongly recommend this prune, both for home and market.

Gueii. Extensively grown for market; tree hardy and vigorous, an early and abundant bearer; fruit large, roundish, skin dark purple; flesh pale yellow, firm, juicy and sweet, freestone. Ripens last of August.

Lombard. Medium, violet-red, juicy, good, hardy and exceedingly productive; we call it the favorite canning plum, sells high on the market. Ripens August.

Monarch. Tree robust, dense foliage and abundant bearer. Fruit very large, roundish, oval, dark purplish blue, perfect freestone. Follows Grand Duke in ripening. October.

Moore's Arctic. Small, purplish black, juicy, sweet, immense bearer; one of the hardiest in bud and bloom. September.

Reine Claude (Green Gage). Large, greenish yellow spotted with red, firm, juicy, and sugary, of fine quality; very productive and one of the best sorts for market.

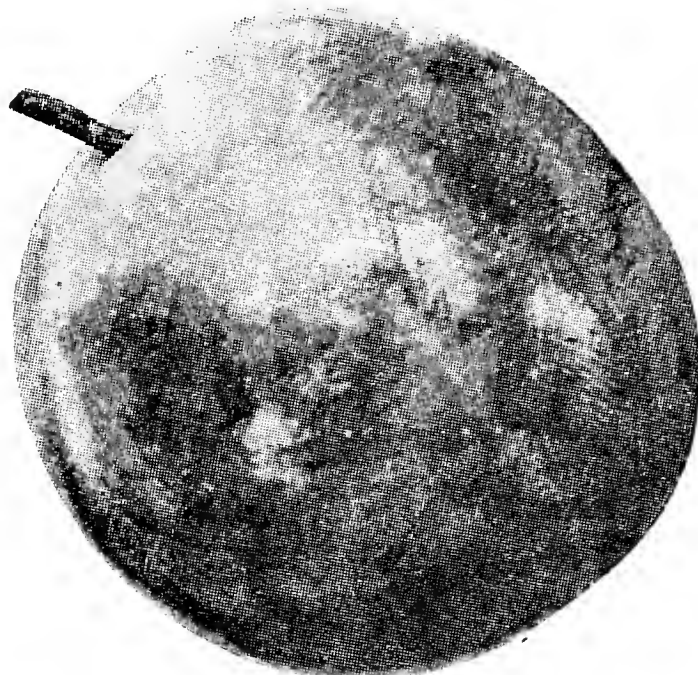

Shipper's Pride. Fruit of large size, it being no uncommon occurrence to have specimens 2 inches around, is nearly round, handsome dark purple, yellow flesh. A good market and canning sort.

Shropshire Damson. Largest of the Damson class, is much used for preserving; tree vigorous and productive, brings good prices on market.

Wickson. Largest of all so-called Japan Plums, color bright red, pit very small, flesh thick, sweet, tender; good keeper, and very productive.

Yellow Egg. Fruit of the largest, egg-shaped, beautiful yellow color, flesh yellow and very fine for canning and eating; very productive. August.

York State Prune (Italian Prune). Very large size, dark reddish blue, delicious, one of the largest.

Burbank.

Abundance.

Nut Trees

We have cut out our small size nut trees and are offering the larger size postpaid to your door as we think them more satisfactory.

	Each
American Chestnut. 3 to 4 ft.	\$0.50
Spanish Chestnut. 3 to 4 ft. tall.50
Japan Walnut. 2 to 3 ft.40
Black Walnut. 3 to 4 ft. tall40
English Walnut. 2 to 3 ft.40
Pecans. 3 to 4 ft., Stuart grafted.50
Eutternut. 3 to 4 ft.50

Quince Trees

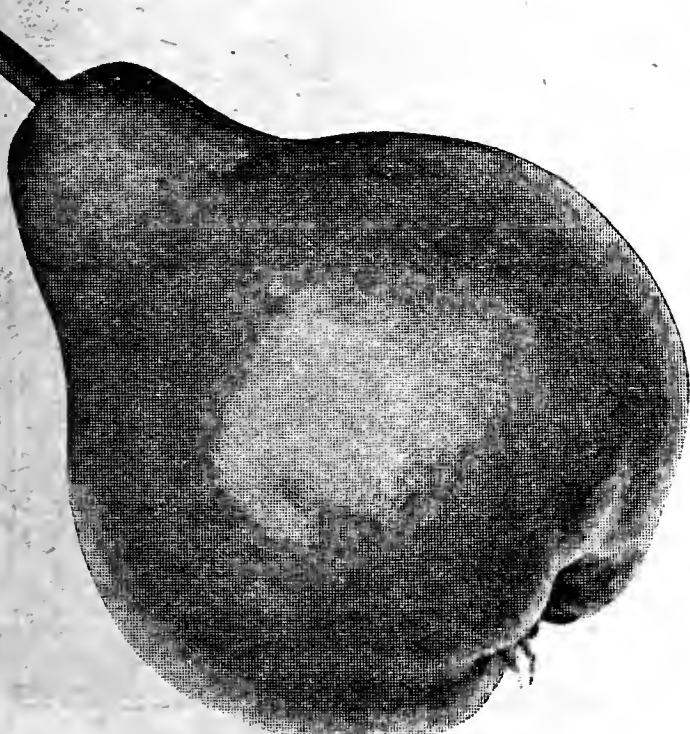

The Quince crop is quite regular and weather and pests do not bother it very much. Trees should be planted 12 feet apart. Quinces will stand quite damp ground.

By mail, postpaid: 1 yr., 3-ft. trees, each, 25c.

By express or freight: First class, 2 yr., 4 to 6 ft. tall, each, 50c; per 10, \$4.00. First class, 2 yr., 3 to 4 ft. tall, each, 40c; per 10, \$3.50.

Orange. The best known of all quinces, called apple-shaped quince, is a heavy yielder, good cooker, bright golden yellow, excellent flavor.

Champion. Pear-shaped quince, ripens late, bears early in life, good yielder; cooks up very good, one of the very best sorts for general purposes; sells well on the market.

Champion Quince.

Note—25 Trees at the 100 Rate.

Hardy Sweet Cherry Trees

We bud our Sweet Cherry on imported French Mazzard stock, making them hardy, long lived and a much better cherry in every way. Sweet Cherries are getting to be a great seller along the paved highways where they bring large prices. Should be planted 18 feet apart on dry soil.

By mail, postpaid: 1-yr. whips, 3 to 4 ft. tall, each, 25c; per 10, \$2.00; per 100, \$17.50.

By express or freight: First class, 2 yr., 5 to 7 ft. tall, each, 40c; per 10, \$3.50; per 100, \$30.00. First class, 2 yr., 4 to 5 ft. tall, each, 35c; per 10, \$2.50; per 100, \$22.50.

Bing. Fruit large and black, very delicious, flesh very firm, one of the most profitable. July.

Black Heart (Oxheart). One of those old-fashioned black large sweet cherries you had when a boy, heart-shaped, tender, juicy and sweet. The kind you stole when a boy. Ripens in early July.

Black Tartarian. Very large, purplish black, juicy and rich, excellent flavor, very productive. June.

Gov. Wood. One of the very best cherries; light red, juicy, rich and delicious, tree healthy and productive. June.

Lambert. Jet black when fully ripe, flesh firm, solid, rich and juicy; tree strong grower and productive.

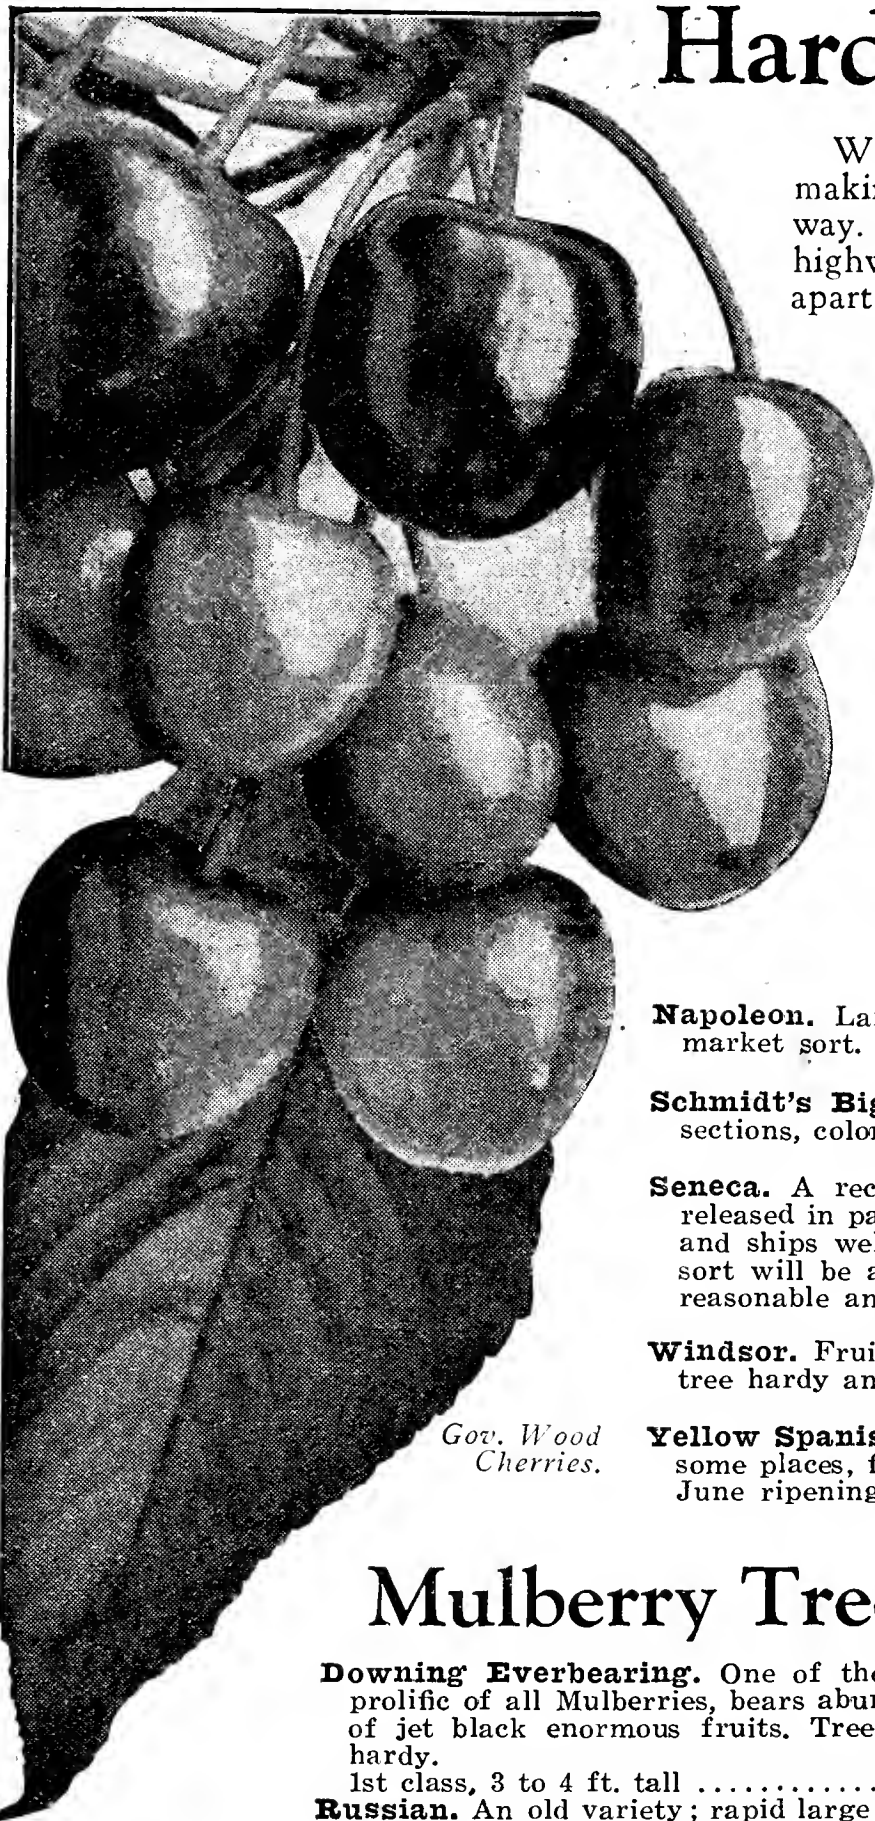

Napoleon. Large, pale yellow showing red, firm, sweet and productive; a good market sort.

Schmidt's Bigarreau. One of the better late sorts especially for the Northern sections, color dark red, very large and sweet, very firm and ships well. July.

Seneca. A recent product of New York Fruit Testing Association, having been released in past few years; shows up the best black early cherry which keeps well and ships well and is a week earlier than Black Tartarian. We believe this new sort will be a leader in the next few years. We are lucky to be able to offer a reasonable amount of these trees.

Windsor. Fruit large, liver colored, distinct, flesh firm and of very high quality; tree hardy and prolific, a valuable late variety. Ripens in July.

Yellow Spanish. Large, pale yellow with red cheek, known as Yellow Oxheart in some places, firm, juicy, and excellent. One of the very best light colored cherries. June ripening.

Gov. Wood Cherries.

Mulberry Trees

Downing Everbearing. One of the most prolific of all Mulberries, bears abundance of jet black enormous fruits. Trees very hardy.

Each 1st class, 3 to 4 ft. tall\$0.35

Russian. An old variety; rapid large grower, fruit of fair size and very productive.

Each First class, 4 to 6 ft. tall\$0.30

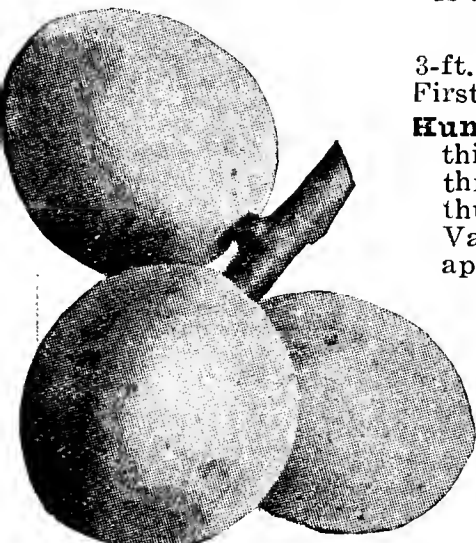

3 ft. tall, by mail postpaid20

Apricot Trees

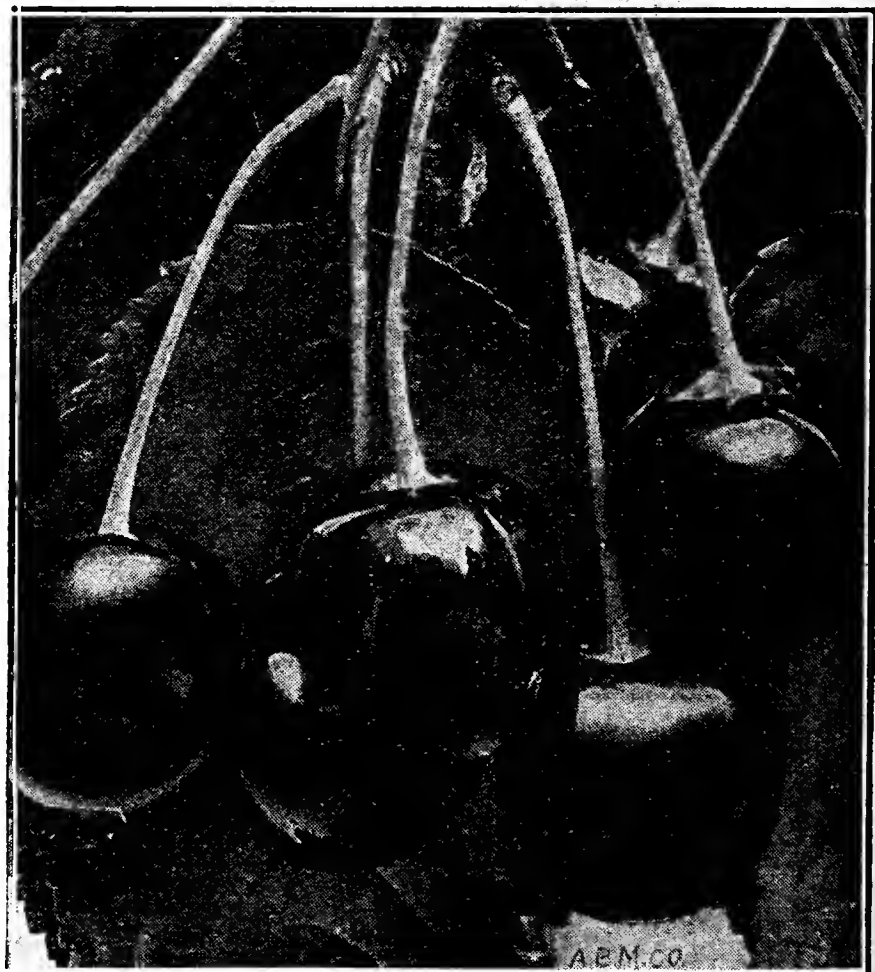

Each 3-ft. size, by mail postpaid\$0.25
First class, 4 to 6 ft.40

Hungaria's Best. Original tree of this has not failed in bearing throughout a long term of years, thus insuring us of its hardiness. Valuable to us of the North, who appreciate growing our own apricots. Tree grows to immense size, the fruit large and of good quality, beautifully colored a deep yellow, with yellow flesh, very fine flavor. Plant trees 25 to 30 feet apart.

Superb. This variety excels in productiveness and bears where others fail. We think it the best sort for the North where it does well; large well colored fruit.

Superb Apricots.

Black Tartarian Cherries.

Sweet Cherry, 3 Ft. to 4 Ft., by Mail, 25c Each.

Sour Cherry Trees

We bud these on French Mahaleb stock. They don't bush up like the old sorts and make a hedge row. Should be planted on well drained soil, 16 feet apart. We have a fine lot of 1-year and 2-year stock and they certainly please.

By mail, postpaid: 1 yr., 3 to 4 ft., each, 20c; per 10, \$1.80; per 100, \$13.00. By express or freight: First class, 2 yr., 5 to 6 ft. tall, each, 30c; per 10, \$2.50; per 100, \$20.00. First class, 2 yr., 4 to 5 ft. tall, each, 25c; per 10, \$1.75; per 100, \$16.00.

Dyehouse. A sure bearer, an early variety. ripens a week before Richmond; a good cherry, and very productive.

Early Richmond. Medium size, dark red, melting, juicy, acid flavor; one of the most popular and productive.

English Morello. Late sour cherry; tree not large, growers liable to dwarf; large, blackish in color, and a good all-around cherry.

May Duke. This ripens a little earlier than the preceding variety and while not quite so vigorous in tree, the fruit is slightly superior. It is an old variety, and has been tested and found worthy of a place in all orchards.

Large Montmorency. The best and largest sour cherry grown for market and canning, 10 days later than the Early Richmond; is dark red, very firm, one of the best flavored sour cherries, is a regular bearer of enormous crops, brings good prices and ships well; in fact is the best market cherry.

Large Montmorency.

Nectarine Trees

	Each
3 ft., by mail postpaid	\$.20
By express or freight—	
4 to 5 ft.40
3 to 4 ft.35

Boston. Bright yellow, red cheek; flesh yellow.
Red Roman. Greenish yellow, red cheek; flesh golden.

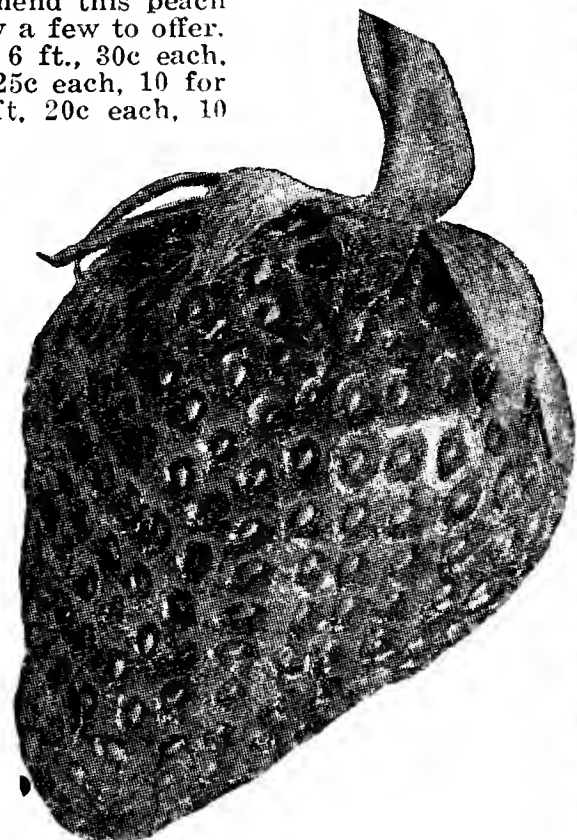

Newer and Better!

Golden Jubilee Peach

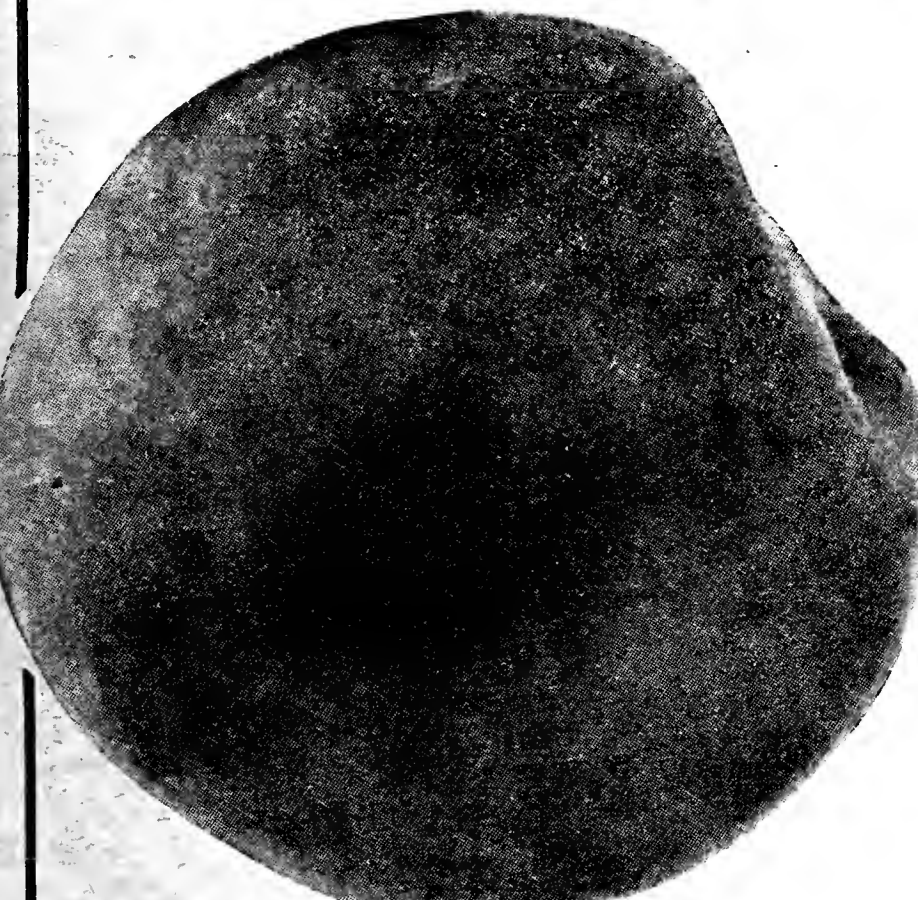

High quality, Elberta type, brilliantly colored. Ripens before Carman and at least twenty days previous to Elberta. We believe your Experiment station will recommend this peach as a comer. We have only a few to offer. Express or Freight, 4 to 6 ft., 30c each, 10 for \$3.00; 3 to 4 ft., 25c each, 10 for \$2.00. Mail postpaid, 3 ft. 20c each, 10 for \$1.50.

Fairfax Strawberry

A new variety of U. S. Government origin. One of the most productive strawberries in existence. Berries of Premier type, large, keep and ship well. These were received direct from the man who first put it out. Postpaid, 100 for \$1.00; 225 for \$2.00.

Fairfax.

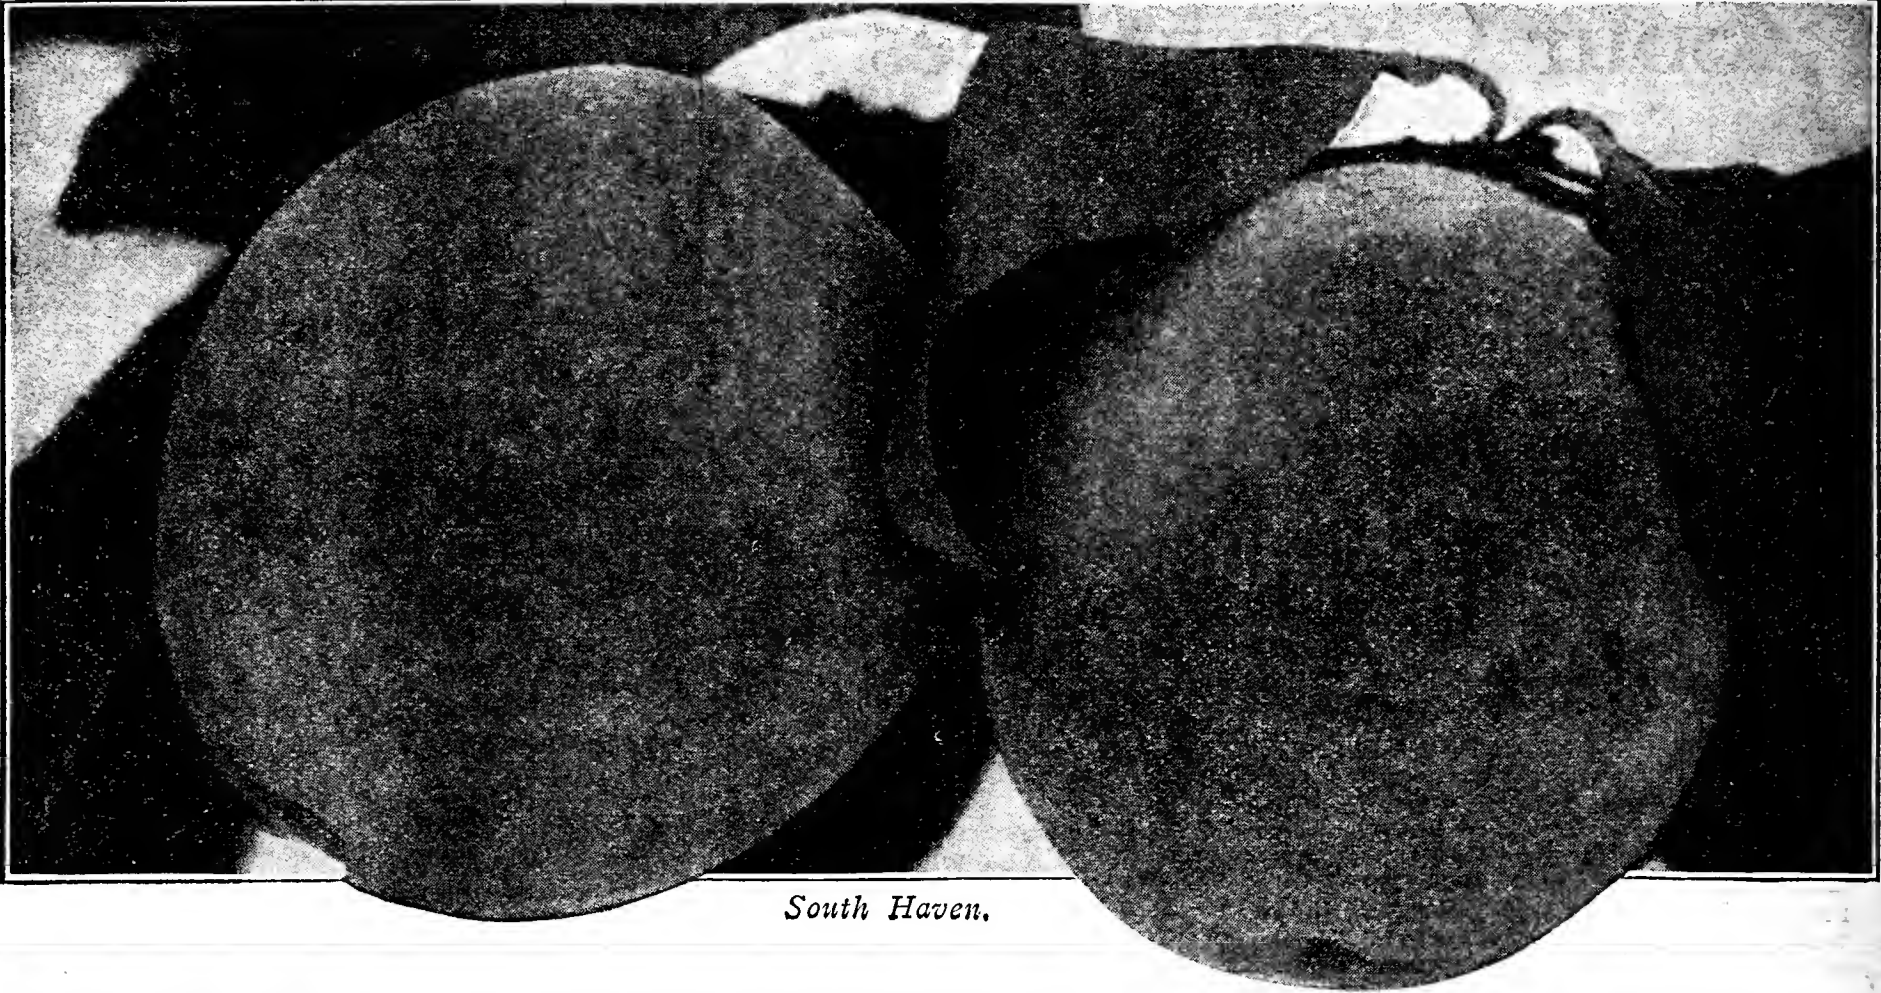

Golden Jubilee.

Dorsett Strawberry

A new production of the U. S. Department of Agriculture. Best quality berry ever produced, larger and firmer than Chesapeake or Premier. Light red in color. Makes a very heavy row. We think this worth a trial. Postpaid, 100 for \$1.00; 200 for \$1.75.

Sour Cherry Trees, 3 Ft. to 4 Ft., by Mail, 20c Each.

South Haven.

Superb Pedigreed Peach Trees

We are large growers of Peach Trees and sell annually about 100,000 to our customers besides selling some of the biggest nurseries in the East their supply. Lake Erie grown Peach Trees have been recognized by the nursery trade throughout the United States as being the best for planting for years. We bud on southern natural pits and buds are taken from known bearing orchards. We can sell you better stock than most anyone on these. All peaches are freestone unless stated otherwise.

Express or freight collect: 18 to 24 in. tall, 6c each; 10 for 50c; 100 for \$4.00; 1000 for \$35.00. 3 ft. orchard grade, 10c each; 10 for 85c; 100 for \$6.00; 1000 for \$55.00. 3 to 4 ft. medium grade, 15c each; 10 for \$1.10; 100 for \$10.00; 1000 for \$80.00. 4 to 5 ft. XX grade, 25c each; 10 for \$2.25; 100 for \$20.00; 1000 for \$175.00.

Postpaid to your door prices: 18 to 24 in. tall, 7c each; 10 for 60c; 100 for \$4.50. 3 ft. orchard grade, 10c each; 10 for 90c; 100 for \$7.00.

We strongly suggest that you use the **Medium** or **Orchard** grades as being best for general planting. The 18 to 24 in. whips are well rooted and straight but of course of that size quoted.

Admiral Dewey. One of the best early freestones, a very good market sort. Ripens in July.

Banner. Large, yellow with red cheek, a very handsome peach which sells well in any market; quality of the very best either for canning or table use.

Beer's Smock. A large yellow fleshed peach, an improved Smock Free which it resembles; ripens a few days later and is a better bearer; one of the best late canning peaches on the market. September.

Belle of Georgia. Very large, white with red cheek, flesh white and firm, excellent flavor; tree vigorous grower; a good white sort. Early September.

Carman. White with red cheek, flesh white, size large, fine flavor; good seller on the market. July.

Champion. White with red cheek, very large, early and productive, sweet, rich, juicy, very hardy; one of the best white sorts. August.

Early Crawford. A magnificent large yellow peach of extra quality. Early in September.

Late Crawford. Very large, yellow, one of the very best. Ripens October.

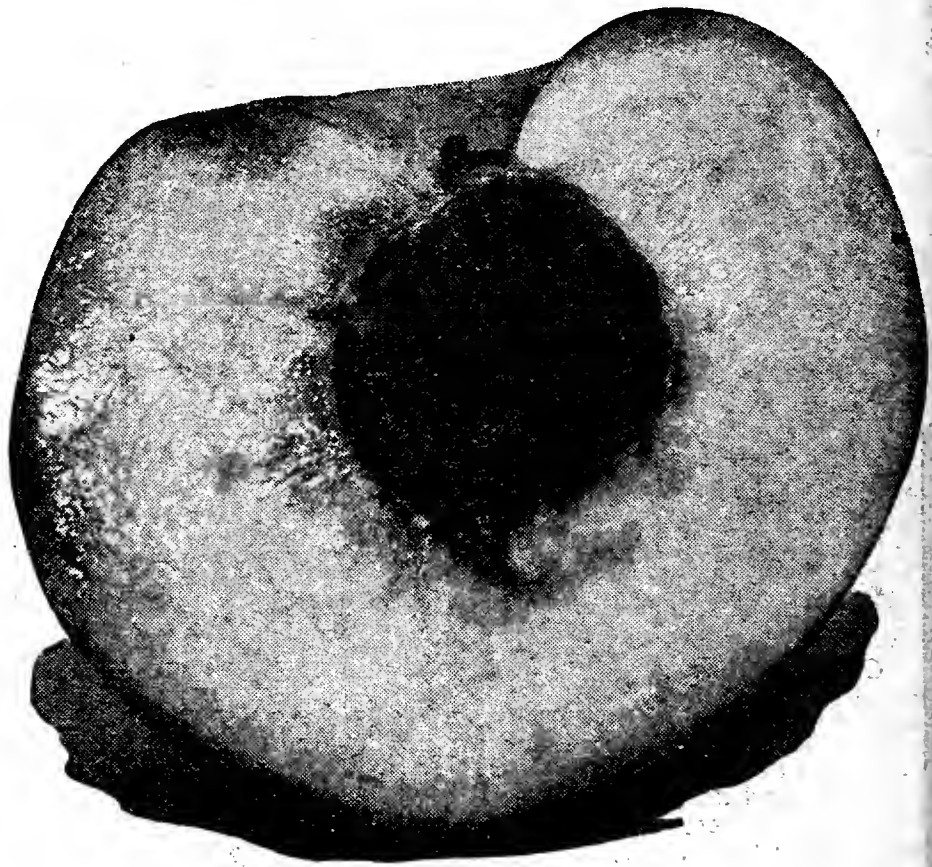

Crosby. Medium size, round, yellow, a heavy bearer, bears nearly every year; bright yellow and good quality.

Elberta. The most popular peach grown for all sections; large, yellow with red cheek, flesh yellow, firm and juicy; exceedingly prolific, sure bearer and very hardy. One of the best for orchard planting.

Early Elberta. Ripens about a week earlier than Elberta; otherwise the same or a trifle better quality.

Fitzgerald. Fruit large, brilliant yellow covered with red, flesh dark yellow, very hardy and productive. One of the very best market sorts.

Greensboro. Early, white with deep red cheek, flesh white and melting, excellent quality, sells well as there is no other ripening at this time. July.

Salberta.

3-Ft. Peach Trees, \$6.00 per 100; 3 to 4 Ft. at \$10.00 per 100.

PEACHES—Continued.

J. H. Hale. Enormous size, ripens 5 days earlier than Elberta. A beautiful round golden yellow peach, has wonderful flavor, keeps well and is an all-around wonderful market sort for planting.

Heath Cling. White clingstone, very large, used for pickling and canning with stone in, good flavor. Ripens in October.

Kalamazoo. A leading market sort, large, yellow, productive, very profitable. Early in September.

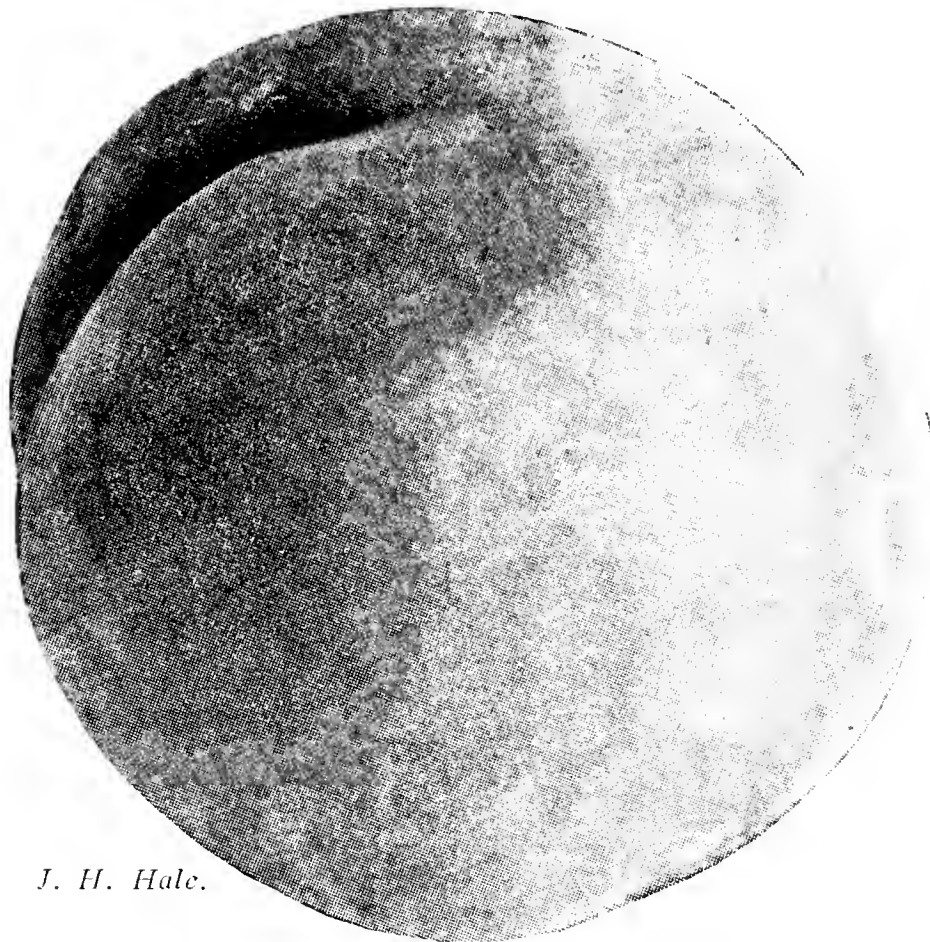

Lemon Free. Lemon shape and color, light yellow inside; extra good for canning, one of the best bearers in existence, very hardy in all climates. A good sort for commercial plantings.

New Prolific. A very prolific, high grade yellow freestone peach; ripens a week after Elberta and is by many people thought to be the best canning peach there is. We strongly recommend this as one of the home and commercial sorts. September.

Niagara. Originated in New York State. Sure bearer and hardy; yellow freestone, very good quality.

Rochester. Called the best early yellow freestone. Ripens about August 10th. Large, very free stone; tree strong grower; sells remarkably on the market; tree comes into bearing young and is prolific. We call it one of the best sorts for orchard planting.

Salberta. A highly successful cross between Salwey and Elberta, conserving the size and quality of the Elberta and the lateness of the Salwey, making it a truly wonderful peach; it has been used in Northern Ohio successfully and pleases all who have tried it. September, late.

J. H. Hale.

Special Offer Bearing Size Fruit

Eight Trees, 7 ft. stock, for **\$1.65**

- 1 Clapp's Favorite Pear
- 1 Flemish Beauty Pear
- 1 Black Tartarian Sweet Cherry
- 1 Montmorency Sour Cherry
- 1 Winter Greening Apple
- 1 Elberta Peach
- 1 Rochester Peach
- 1 Abundance Plum

F. O. B. cars. Customer pays transportation charges.

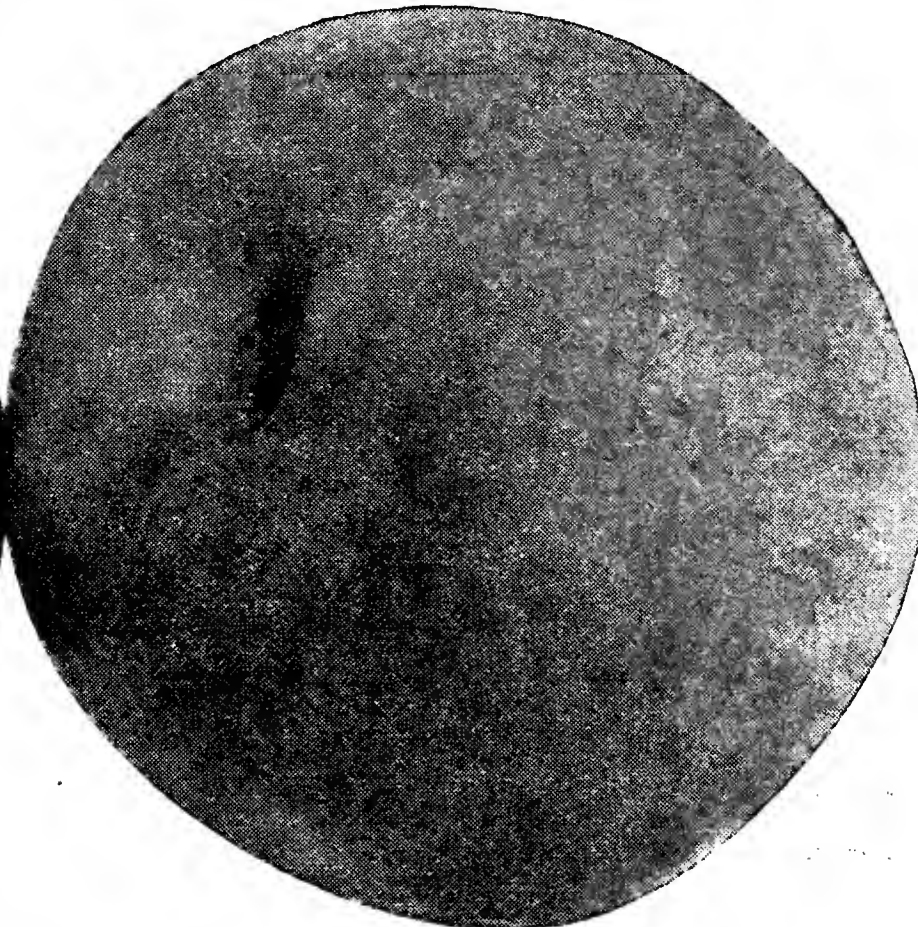

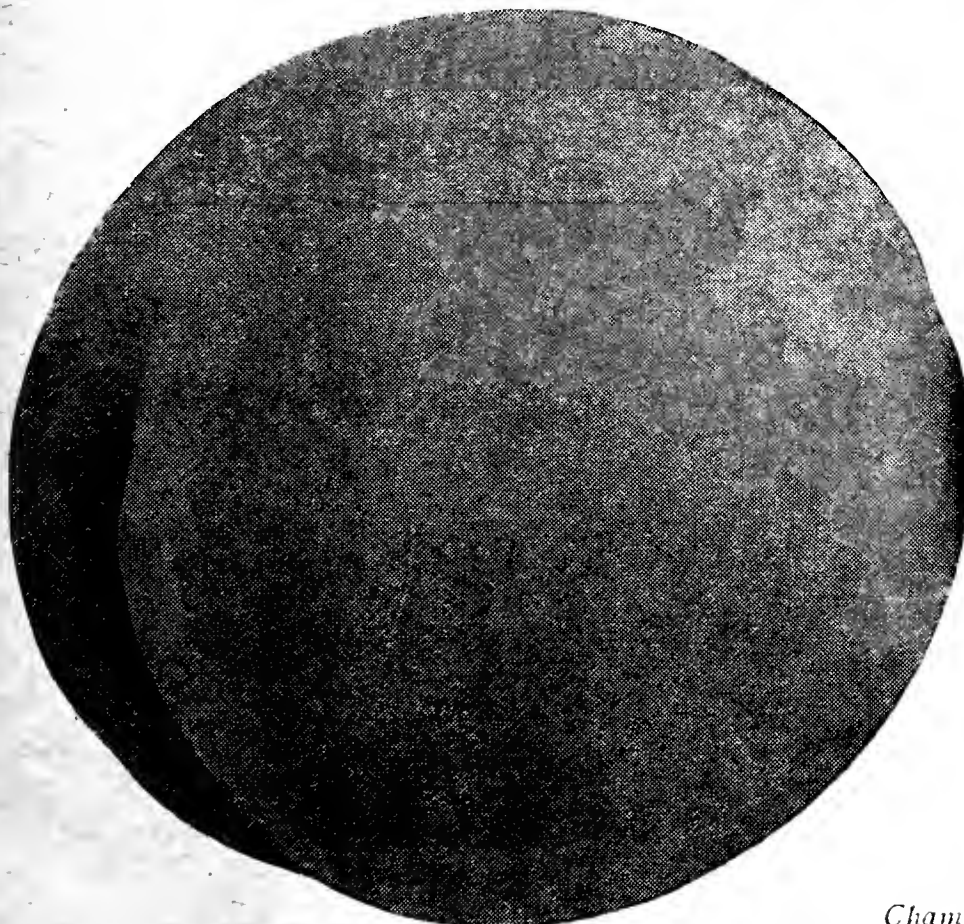

Salwey. Best late peach sold on market, yellow, large and prolific; tree hardy and vigorous grower; flesh juicy, rich, sweet. Ripens October 1st.

Shippers' Late Red (Big Red). A new peach with several distinctive claims. Of good round shape, bulkier than Elberta, so beautifully surfaced with red it attracts the eye. The flesh is yellow, sweet, juicy and of pleasing flavor; freestone. Bears young, annually and abundantly; the tree is very hardy. Its greatest commercial advantage—aside from supreme quality—lies in its ability to stick on the tree so much longer than most sorts, thus many times saving the entire crop where lack of time, continued rains or glutted markets create wastage.

South Haven (Early Ohio). These two are identical. This peach is a success, injecting into the market a valuable sort. Comes in a barren period preceding the Elberta, better than average in size, globular, dependable bearer, hardy and prolific. Meat is deep yellow, juicy and delicious, outside attractive deep yellow with red cheek. This is one of the best sorts for market.

Wilma (Late Elberta). A seedling of the Elberta, about 10 days later, in shape a trifle rounder, colors up better, has fully better flavor, and has the advantage of coming when Elberta is gone.

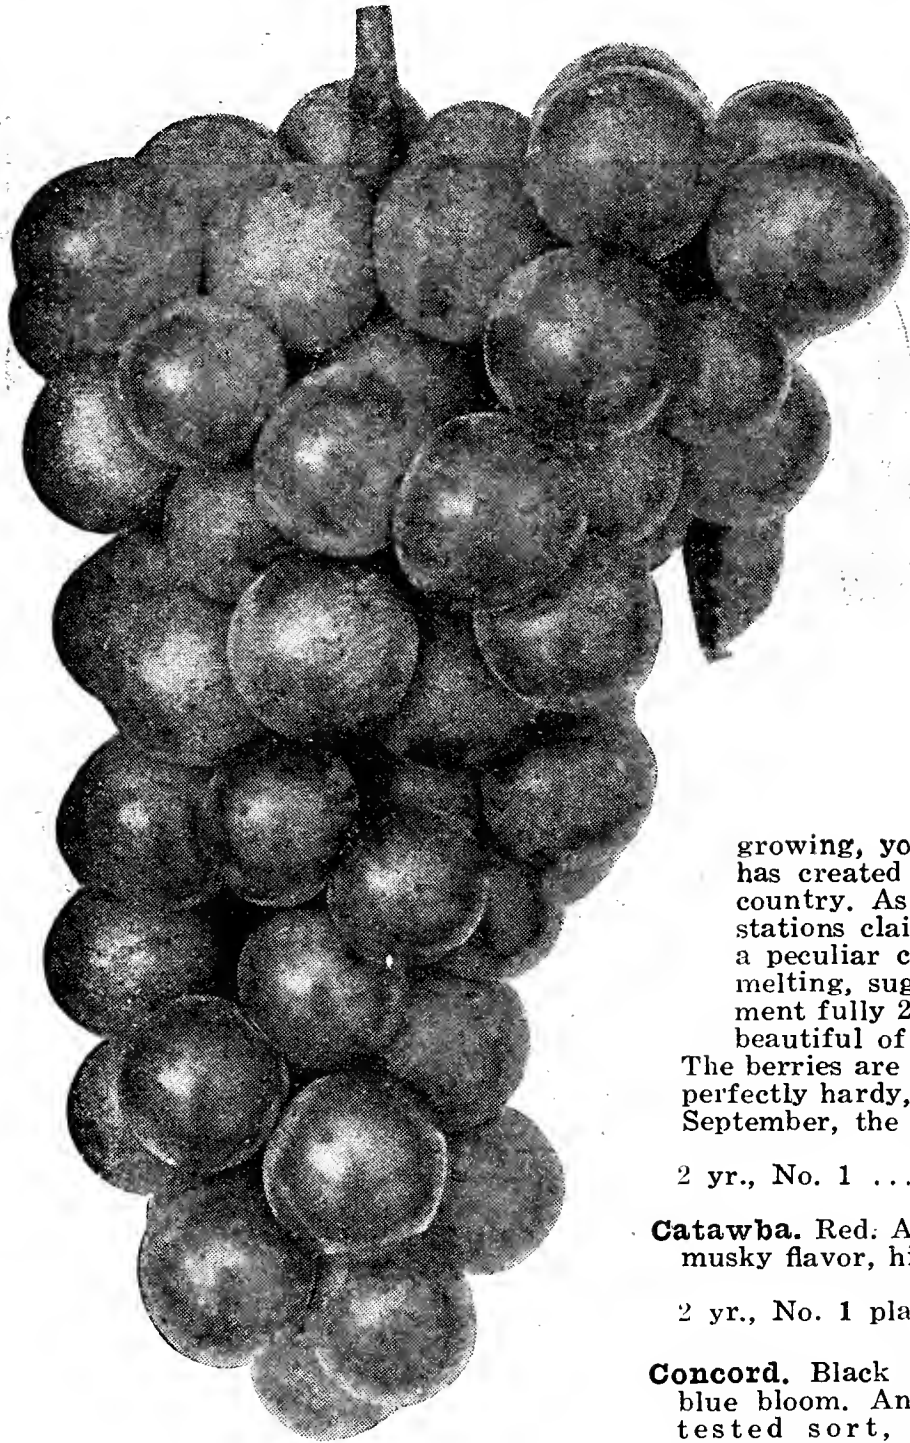

Yellow St. John. This is one of the earliest yellow freestones; sure bearer, nearly as large as Early Crawford which it resembles.

Champion.

Allen's Peach Trees Bear Earlier.

Grape Vines

Portland.

100 times more of this grape grown than any other. It is the leading wine and market grape.

	Each	Per 10	Per 100	Per 1000
2 yr., No. 1	\$0.10	\$1.00	\$4.50	\$35.00

Delaware. Red. Bunch small, compact, the finest flavored grape grown. Ripens same time as Concord. A mighty fine grape.

	Each	Per 10	Per 100
2 yr., No. 1	\$0.10	\$1.00	\$8.00

Fredonia. New York Experiment Station production. At last has been found a real early Black Grape, one which has no rival. juicy, tender, good cluster, equal in every way to the Concord, but fully 2 weeks earlier. This is a tried variety and it will make real money for the planter, both as a shipper and a home market sort.

	Each
2 yr., No. 1	\$0.20

Moore's Diamond. White. The best early white grape grown; juicy and few seeds, extra fine flavor, hardy and good grower, will please you very well.

	Each	Per 10	Per 100
2-yr. plants	\$0.10	\$1.00	\$6.00

Moore's Early. Black with blue bloom, very large berries, compact clusters; perfectly hardy, the very best early black grape for market or house use.

	Each	Per 10	Per 100
2 yr., No. 1	\$0.10	\$1.00	\$6.00

Niagara. White. Occupies the same position among the white as Concord holds in the black, the leading white market grape. Bunch and berries large, yellowish white, a heavy yielder.

	Each	Per 10	Per 100
2 yr., No. 1	\$0.10	\$1.00	\$6.00

Portland. New York Experiment Station production. Earliest white grape in existence. Color white, resembles Niagara in shape of berry. Ripens 2 weeks earlier, in fact brings the white grape market ahead 2 weeks. This is a real find for the local market seller to get some real prices for his fruit. It is sweet, hardy, and a real No. 1 grape.

	Each
2 yr., No. 1 vines	\$0.20

We have large blocks on our farm of 1-year and 2-year Grapes to offer this spring. Due to dry season in June and July prices have been advanced. There is still big money in this fruit and we strongly advise the fruit grower to keep planting.

Prices by 10, 100 and 1000 not mailed postpaid, but f. o. b. cars. Prices each, postpaid.

Agawam. Bunch large, shouldered; berry large, reddish brown, tender, vinous and of excellent flavor. Very vigorous and productive. Vine hardy and one of the best of its class.

	Each	Per 10	Per 100
2 yr., No. 1	\$0.10	\$1.00	\$8.00

Brighton. Bunch large, shouldered; berries medium to large, round, dark red, tender, very little pulp, sweet, juicy, slightly aromatic and very good. Ripens early.

	Each	Per 10	Per 100
2 yr., No. 1	\$0.10	\$1.00	\$8.00

Caco. The Sensational New Red Grape. This is the new, quick growing, young bearing, early ripening, deliciously sweet, big red grape that has created sensations in nearly all of the large grape growing centers of the country. As a variety for home use leading horticulturists and experimental stations claim it has no equal, and we will vouch for this statement. Caco has a peculiar characteristic not found in any other variety, in that it is so rich, melting, sugary and excellent in flavor that it can be eaten with rare enjoyment fully 2 weeks in advance of being fully ripe. In appearance it is the most beautiful of all hardy grapes, possessing a rich wine-red and amber coloring. The berries are usually large; bunch large and compact. The vines are very strong, perfectly hardy, vigorous growers, healthy and prolific. Ripening as it does early in September, the big crop of fruit is fully matured before danger of frost.

	Each
2 yr., No. 1	\$0.25

Catawba. Red. An old established variety, berries large, bunch compact, sweet, rich musky flavor, highly esteemed for making juices. One of the last to ripen.

	Each	Per 10	Per 100
2 yr., No. 1 plants	\$0.10	\$1.00	\$8.00

Caco.

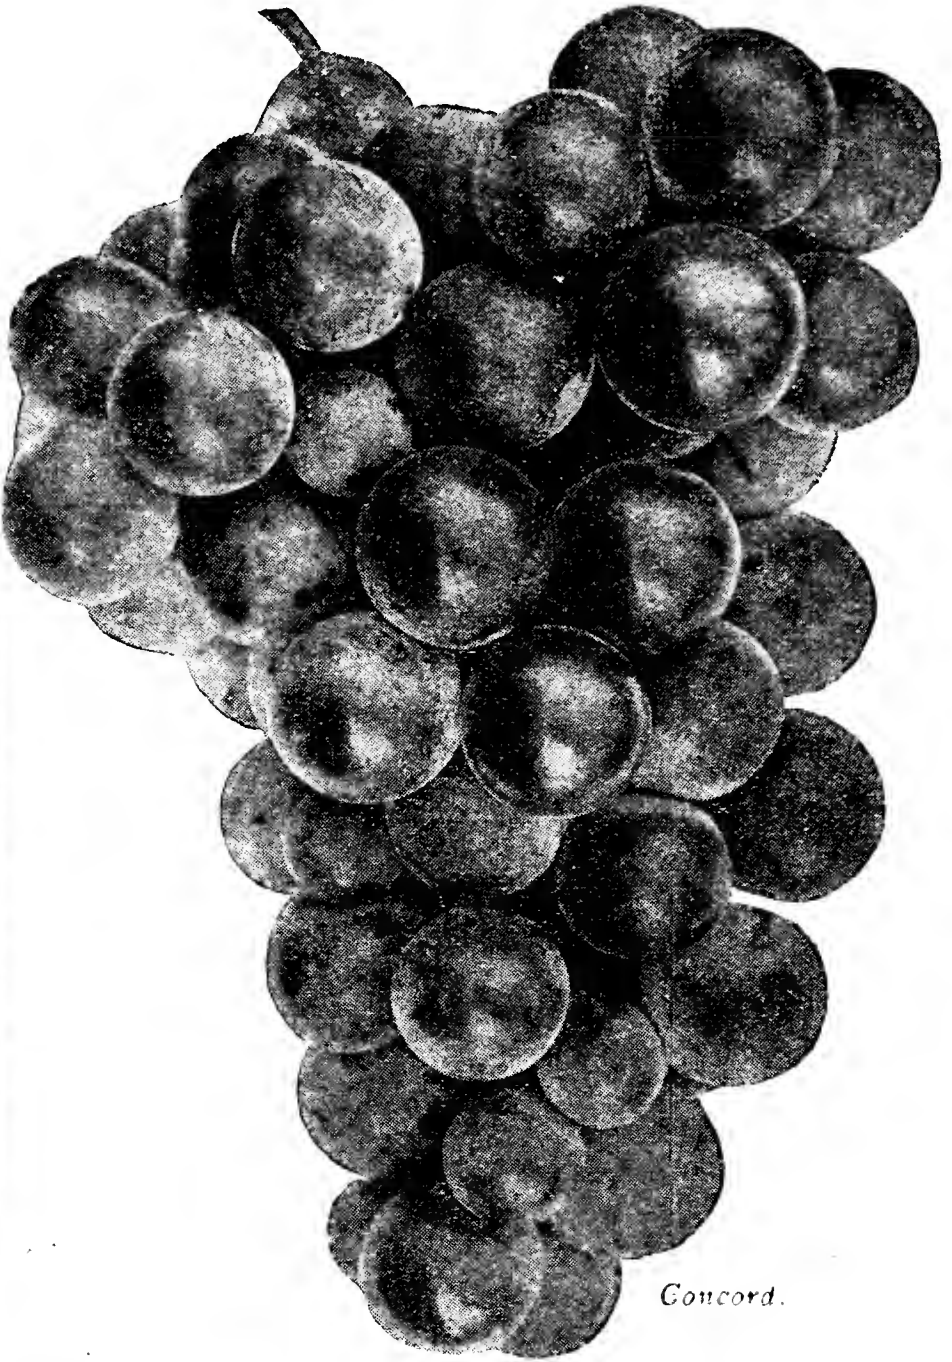

GRAPES (Continued).

Sheridan. New York Experiment Station production. An improved Concord. Wherever Sheridan has been grown it has proven to be a heavier bearer, more solid bunch, sweeter grape, longer season without shelling. Vine vigorous; skin thick; very sweet, excellent; in fact the best shipper. Heavy, compact clusters, berries round. In fact, this is just as we have said, an improved Concord grape of real merit.

2 yr., No. 1 vines, postpaid **Each \$0.20**

Worden. Black with blue bloom. A very fine grape, hardy and healthy foliage. Ripens a week before Concord.

2 yr., No. 1 **Each \$0.10 Per 10 \$1.00 Per 100 \$6.00**

Concord.

Currants

1 yr., No. 1 plants, any variety, mailed postpaid, each, 10c.

Cherry. Berries sometimes more than one-half inch in diameter, bright red; bunches short. Vigorous and productive when grown on good soil. One of the very best.

2-yr. plants **Each \$0.08 Per 10 \$0.75 Per 100 \$7.00**

Fay's Prolific. The leading market sort; clusters long and large, berries bright red, exceedingly prolific; an extra good variety to plant.

2-yr. plants, by express or freight **Each \$0.08 Per 10 \$0.75 Per 100 \$7.00**

Perfection. Cross between White Grape and Fay's Prolific. Beautiful bright red fruit, long perfect stems, berry large, easy to pick and a superior bearer, less acid, and best current under cultivation.

2-year plants, by express or freight **Each \$0.15 Per 10 \$1.25 Per 100 \$10.00**

President Wilder. Berries large and very dark red, mild sub-acid, clusters large, hangs on bushes for great length of time. A very desirable variety which does well in all sections. One of the heaviest yielders.

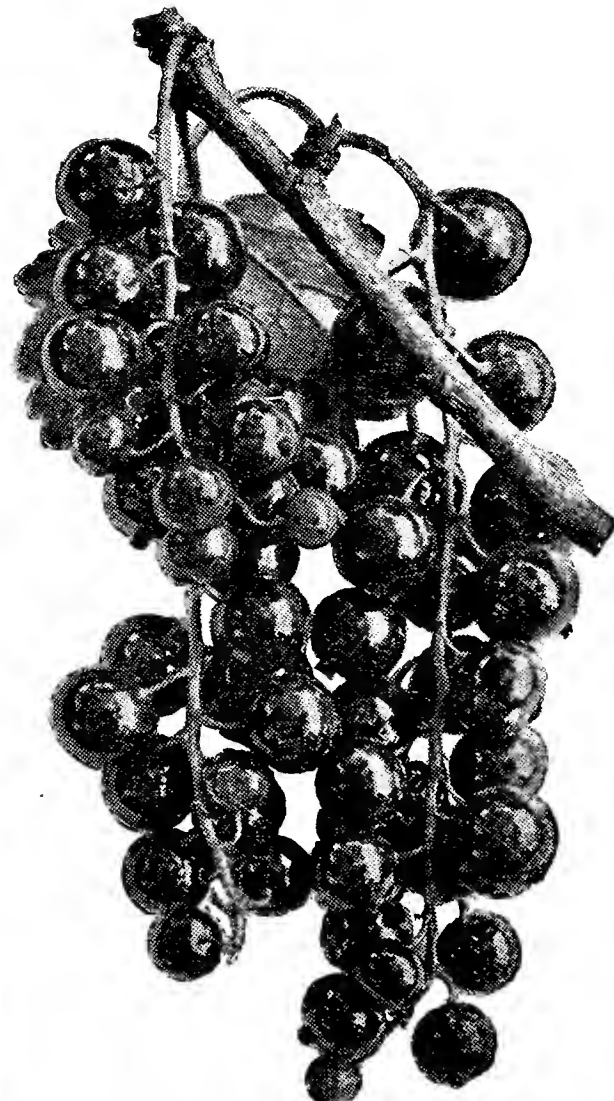

2-year plants, by express or freight. **Each, 8c; per 10, 70c; per 100, \$7.00.**

White Grape. The very best white currant on the market, heavy bearer, of large clusters, berries good size, fruit mild in flavor. One of the best for dessert.

2-year plants. **Each, 10c; per 10, 80c; per 100, \$7.50.**

White Grape Currants.

Perfection Currants.

Farrandsville, Clinton County, Pa., April 19, 1933.

Gentlemen: The package of nursery stock arrived on Monday morning in very good condition—nicely packed and nice looking stock. Thank you for the present.

Yours truly,
CHAS. A. BENNER.

Strawberries

Fresh Dug as Order is Received.

Our Strawberries are grown on rich, gravelly soil this season by a man who is a strawberry specialist, consequently we have a wonderful bed of about 175,000 Strawberries to offer to the trade. To every row of female plants one row of males should be planted to fertilize the blossoms, males can be planted alone. Our northern grown plants are worth double the plants you see offered.

Strawberry prices unless noted: By express, per 100, 65c; per 250, \$1.50; per 1000, \$5.00. By mail, postpaid: Per 25, 25c; per 100, 75c; per 250, \$1.60. (Special prices on large lots of 5000 or more).

Beaver. Originated in Wisconsin. Very hardy, large berries, extra good canner. Can leave on vines for several days as they are extra firm. In fact, for home use and market it cannot be beaten. You will do well to include this variety in your list when ordering.

Bellmar. U. S. Department of Agriculture's latest creation. Male. The earliest and best berry in existence. An improved Premier. This berry will set the world afire. Get in on the ground floor. Our plants came direct from government. This is the best of 55,000 varieties which the United States experimented with. It is very early, good row maker, sturdy plants. Big berry, resembles

Premier in shape and color. Is very good shipper; in fact the government has really produced a real worth while variety.

Big Joe (Per.). The plants of this variety are exceedingly vigorous and make fine fruiting rows. The foliage is healthy and attractive. The berries are produced in great abundance. One of the most productive varieties in cultivation. The berries are very large, regular in shape, glossy, attractive and very firm, making it a good variety for market. It has been tested by large growers in Oswego county who speak highly of it as a valuable variety for market. It commands the highest prices among the buyers who ship to the large city markets.

Blakemore (Extra Early Per.). New variety—just out from U. S. Dept. of Agriculture. Blakemore is a brand new variety, originated by the U. S. Department of Agriculture as a result of a cross between the Premier and Missionary. It resembles the Premier very much, being a little earlier, berries as large, sometimes larger, about the same shape, better color which holds well long after picking and canning, and a more pleasing flavor. We quote from the U. S. Circular No. 93 which tells all about this worthy variety: "It's easy picking and capping qualities, its bright red color, tough skin and firm flesh, solid center, acidity, high pectin

content and excellent flavor make it a desirable variety for preserving." Our original Blakemore plants were sent us direct from the U. S. Department of Agriculture. We have but a few plants to offer this season to our customers. Order early.

Dr. Burrill. Male. A marvel of productiveness, quality, color, size, and a good shipper. Fruit firm and even in shape, dark glossy red in color.

Glen Mary. Female. Berries very large and dark red. One of the heaviest yielders on the market, a berry which becomes more popular every year. Season medium.

Parsons' Beauty. Male. A good grower, and an immense yielder of dark red berries of good form; firm shipper; bright red in color.

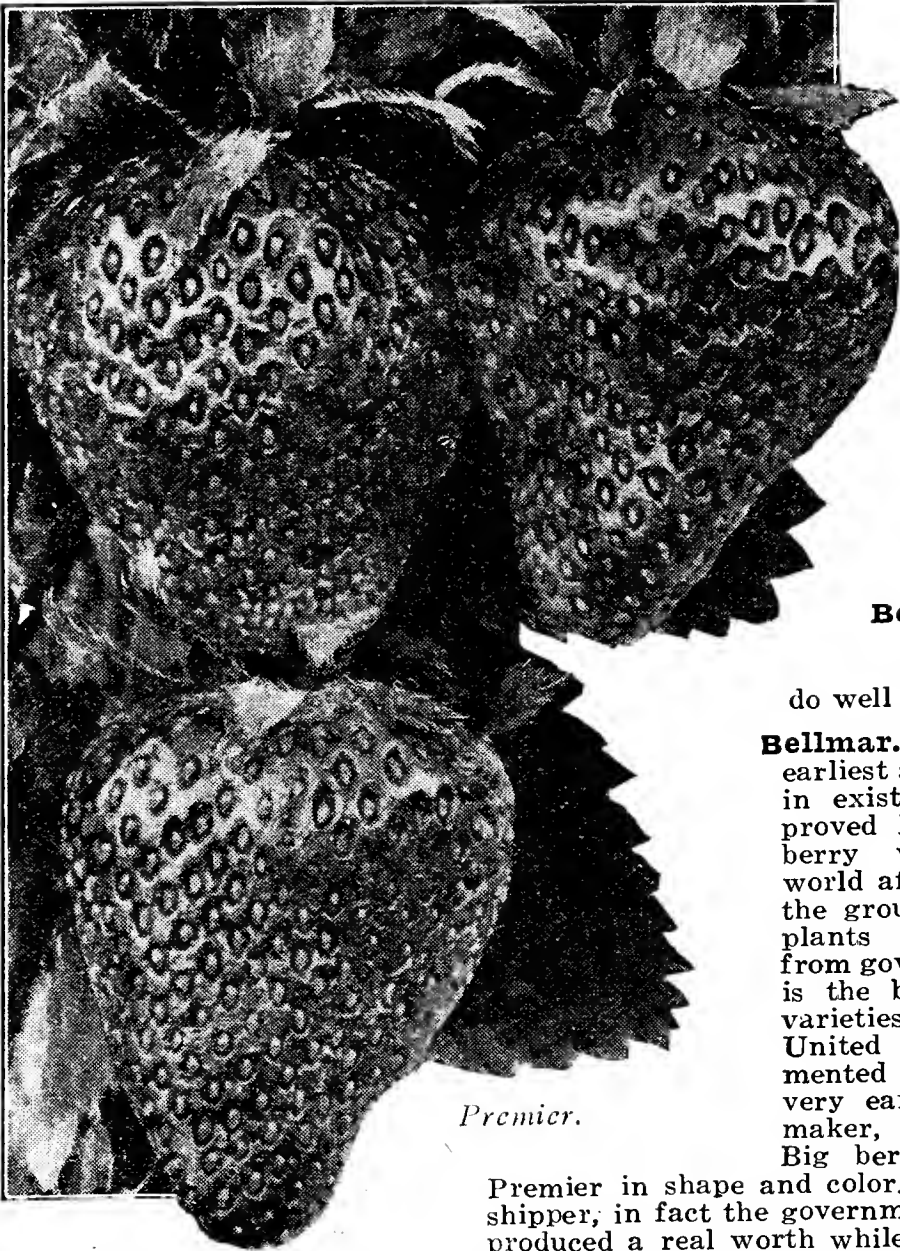

Premier. Male. In this section the largest, best bearing early berry on the market; fruit highly colored, firm, a splendid shipper; makes a good thrifty row of plants. One of the very best for market.

Red Gold. Male. The sugar-flavored berry known far and near as one of the real new successes of the berry creations, makes good heavy row. Midseason, heavy early yielder of large sparkling red fruit, an exceptional canning variety. This variety is one of the worth while new sorts and we sure recommend it, having tried it on our own grounds before offering.

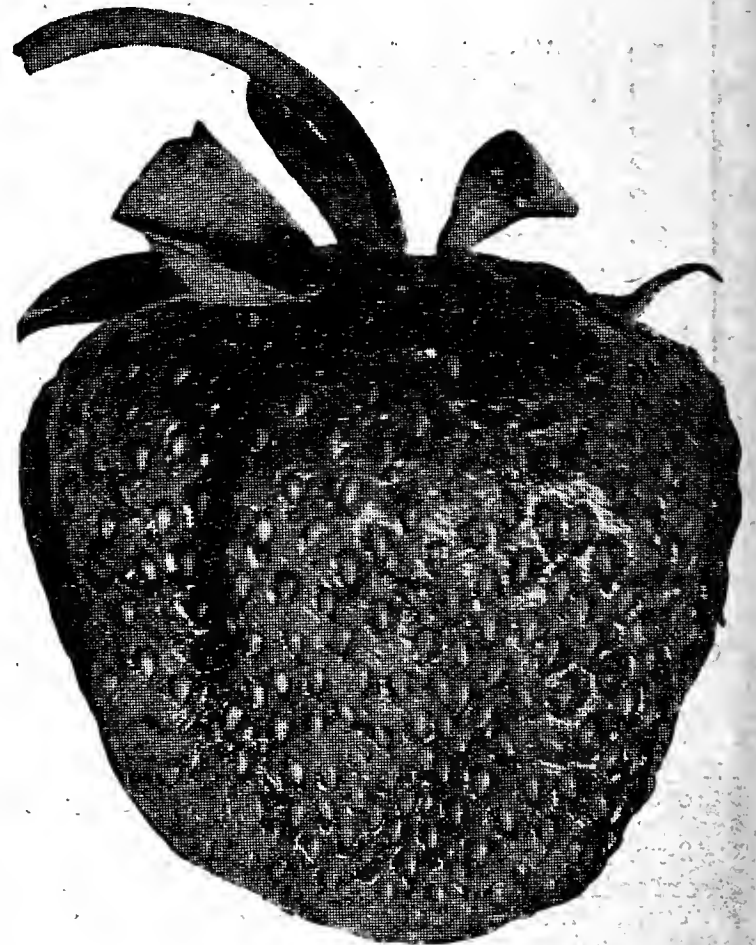

Sample. Female. Fruit very large and uniform, succeeds wherever planted; plants strong and healthy, very hardy. One of the best market sorts on sale.

Senator Dunlap. A well tested wonderfully productive variety, and one of the safe sorts to plant. Plant makes thrifty row, and is an enormous bearer, starts bearing early, and lasts well; good size and color, good shipper. Male.

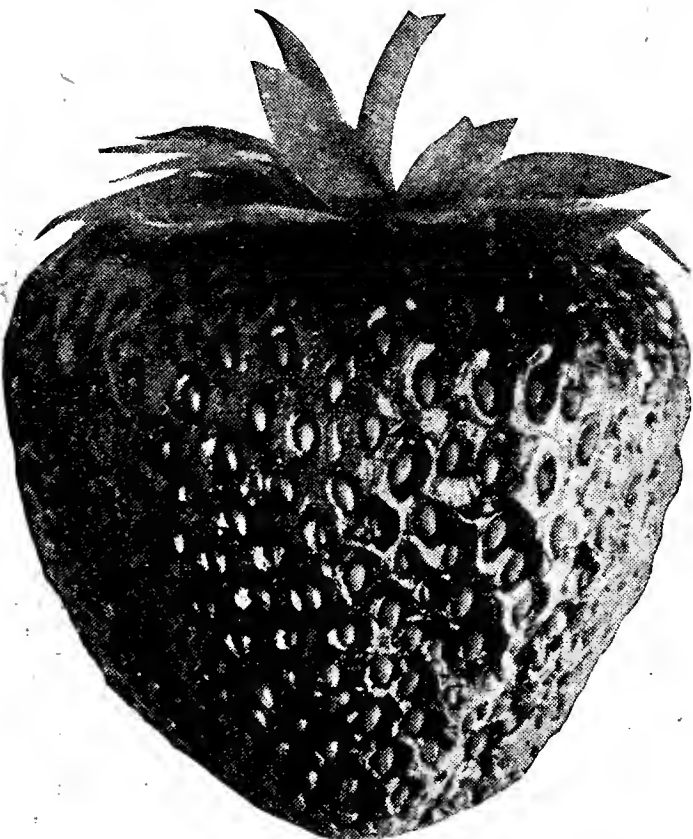

Wm. Belt. A large productive berry for home or market use, berries extra large, good row maker and heavy yielder. Quality of berries above the average. Male.

Premier.

Dr. Burrill.

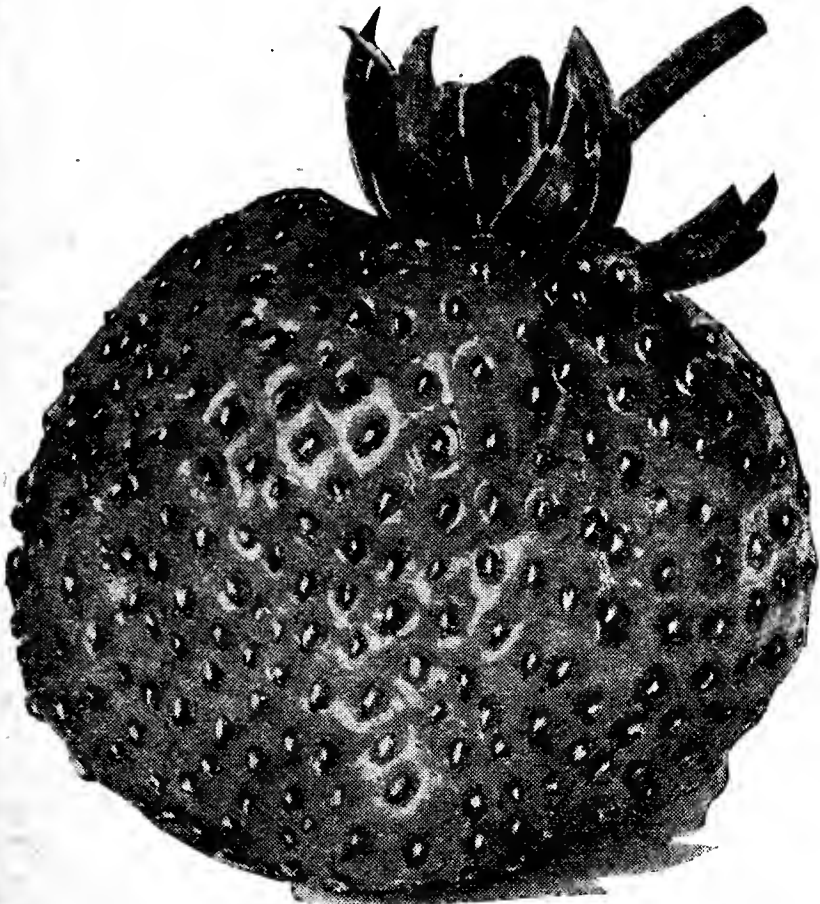

Blakemore.

Strawberries, 25 for 25c.

STRAWBERRIES—Continued

Mastodon

The Great Everbearing Strawberry

Mastodon Strawberry.

Since the introduction of the everbearing class, many varieties have been tried, improved and supplanted. According to many reports gathered from all berry-growing sections of the country, Mastodon is the last word and outranks all predecessors. It is of immense size, an almost incredible cropper, of choice quality, and the strongest grower yet developed. More productive than most June bearers, its fall pickings are sufficient from but a few plants, and very profitable.

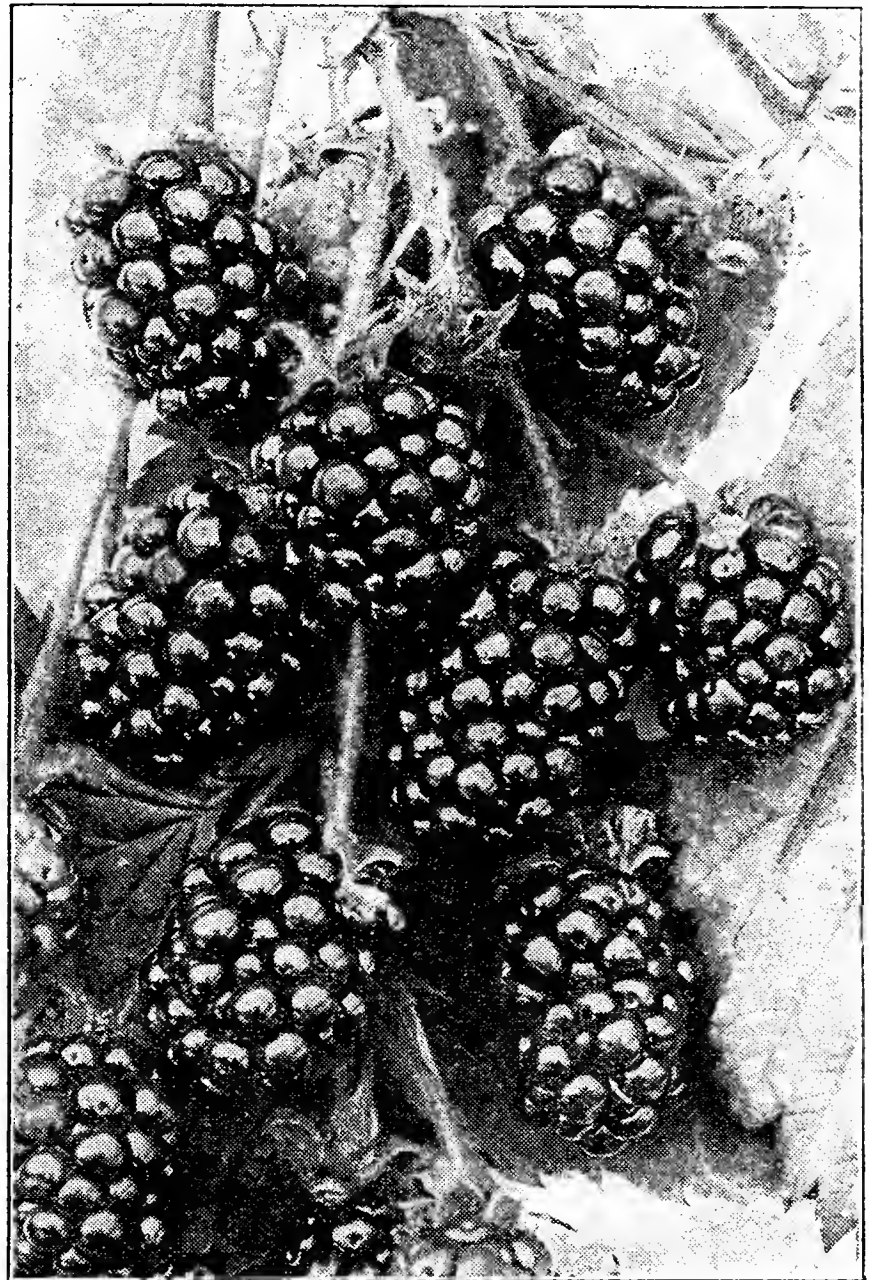

By mail, postpaid: Per 25, 50c; per 100, \$2.00.
By express: Per 100, \$1.50; per 1000, \$10.00.

Blackberries

By mail, postpaid: No. 1 plants, each, 4c.
By express: No. 1 plants, per 100, \$3.00; per 1000, \$20.00.

Alfred (New Coreless Blackberry). Originated in Michigan; a week earlier than Eldorado, bears the second season after planting, perfectly hardy regardless of how cold weather. They are very sweet without any hard core. Undoubtedly they are the largest blackberry as well as the best ever grown. We feel we are giving our patrons a wonderful chance at prices at which we are offering this famous new blackberry.

Eldorado. One of the largest blackberries in existence, perfectly hardy in all sections, will stand 20 degrees below zero, very sweet and juicy. A very heavy producer, in our mind the best blackberry product.

New Alfred Blackberry.

Lucretia Dewberry.

Dewberries

Lucretia. A trailing form of the blackberry, with large luscious fruit, will produce more quarts to acre than blackberries, can be trellised or let to cover the ground. Fruit ripens earlier than blackberry.

	Each	Per 100
Mail postpaid	\$0.30	
By express		\$2.00

Redmond, Utah, April 17, 1933.

Dear Sir: About a week ago I received my order of trees. They arrived fine and dandy, and I do want to compliment you on the order; in all my dealings your trees are the best and largest I have ever bought. Thank you so much.

Yours truly, MRS. PETER PETERSON, JR.

Ohio Grown Plants are Worth More.

Raspberries

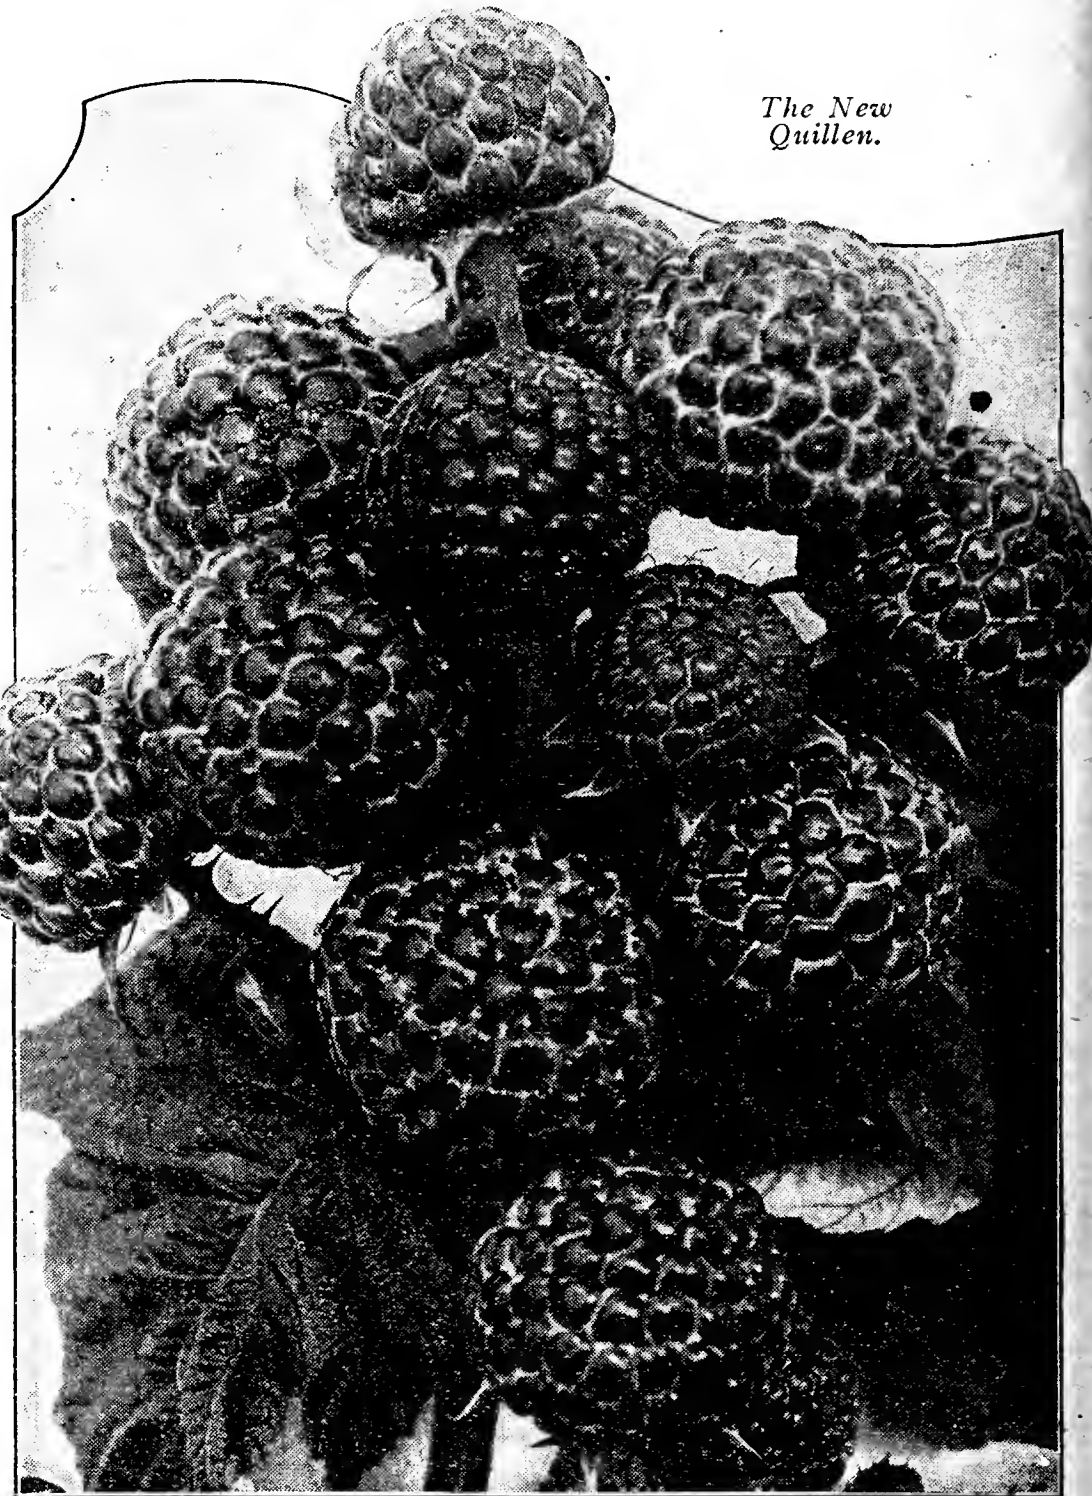

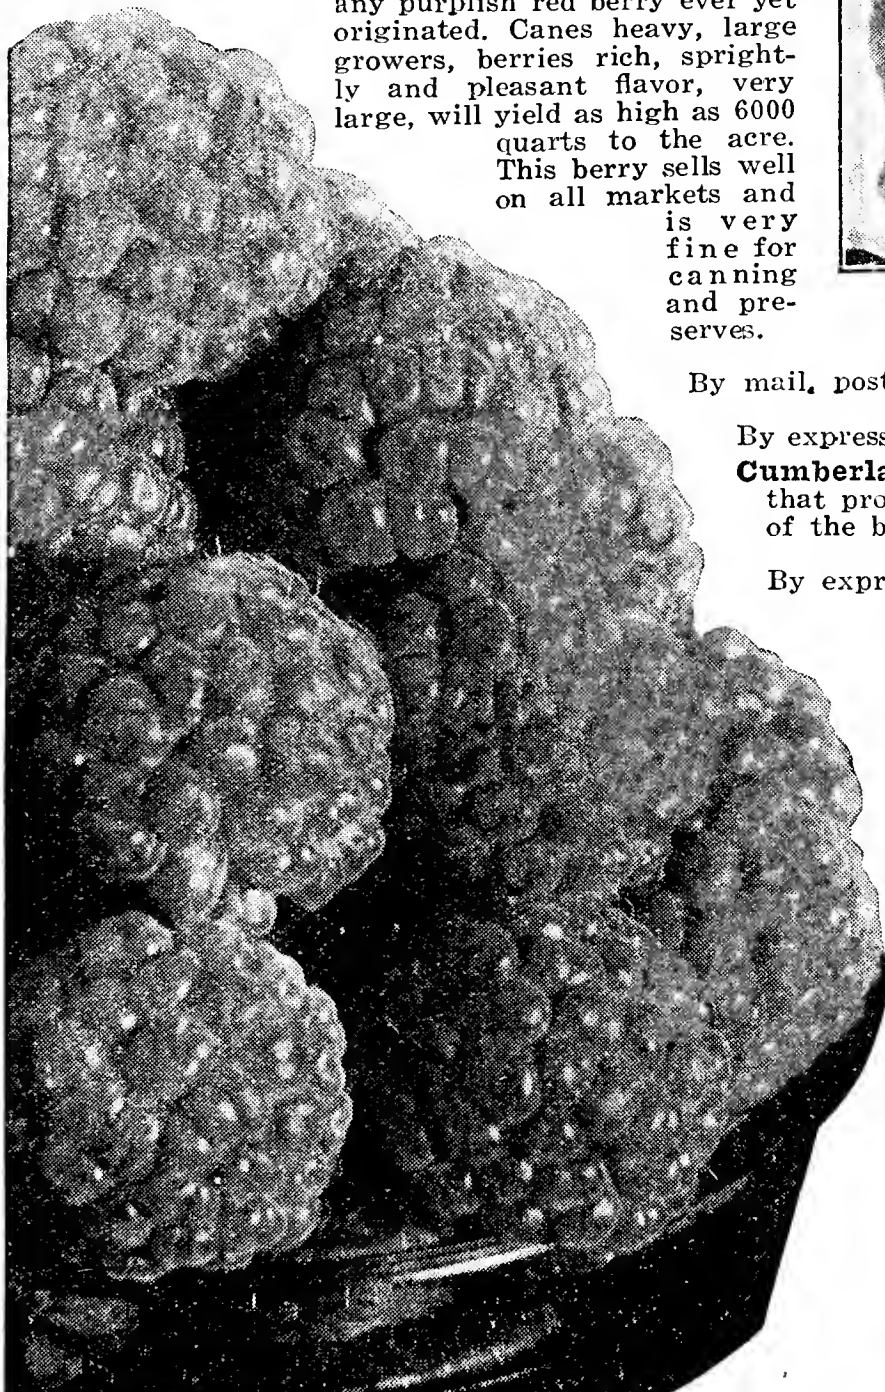

Fresh dug, not cellared.

Will do well on any soil that will produce a good corn crop. Land should be thoroughly prepared and well enriched; ground bone is one of the best fertilizers. Keep well cultivated and free from weeds and suckers. As soon as they have done bearing, cut out the old wood to give more vigor to the young canes. All kinds of Raspberries are benefited by mulching both in summer and winter. Plant in rows 5 feet apart, 3 feet apart in the row.

Chief (Minn. No. 223). Is a seedling of Latham and has turned out to be by far the finest early Red for general planting. The fruit is not quite as large as Latham but is bright red, very firm and a tremendously heavy yielder, producing 20 per cent more than Latham in the Minnesota test plots. The Chief is practically immune from mosaic and mildew and is even hardier and of better flavor than Latham. Ohio berry growers have long looked for a good early Red Raspberry. They have tried King, Miller, Early June, etc., and although fairly good in many respects they have not been very profitable. It now looks as though the new Chief is going to meet most of the requirements and become the greatest moneymaker of them all, ripening 10 days before Latham, firmer, same good color, fine flavor and a heavy yielder.

	Per 25
Postpaid	\$1.25
	Per 100 Per 1000
Express	\$3.00 \$20.00

Columbian. Purplish red. A decided improvement on any purplish red berry ever yet originated. Canes heavy, large growers, berries rich, sprightly and pleasant flavor, very large, will yield as high as 6000 quarts to the acre. This berry sells well on all markets and is very fine for canning and preserves.

The New Quillen.

By mail, postpaid	Per 25	\$1.00
	Per 100 Per 1000	
By express or freight	\$2.00	\$15.00

Cumberland. Black. The largest of all blackcaps, a healthy, vigorous grower that produces an extra well flavored berry of tremendous size. This is one of the best ever originated.

By express	Per 100 Per 1000	
	\$2.00	\$13.50

Cuthbert (Queen of the Market). A remarkably strong, hardy variety; standing the northern winters and southern summers equal to any. Very large, conical berries, measuring 3 inches around, so firm they can be shipped hundreds of miles by rail in good condition; flavor is sweet, rich and luscious.

Price	Per 100 Per 1000	
	\$2.00	\$15.00

Golden Queen. A beautiful yellow variety. Fruit large, quality first class, very productive; makes a wonderful showing when mixed with red and black fruit for table use. Flavor is above the average.

By mail, postpaid	Each Per 100	
By express or freight	\$0.05	\$2.50

Latham. The new mosaic-free, hardy Red Raspberries. This remarkable and very desirable new variety makes its commercial advent at an opportune time, when critical inspection and official control work hardship for any stock not perfectly free from mosaic or other Raspberry affliction. This type is certified absolutely mosaic-free, and acceptable anywhere. Latham is perfectly hardy, withstanding Manitoba winters without protection. Its production is superlative, out-yielding even Cuthbert. The berries are large and round, with profitable shipping firmness. The color is a richly brilliant red, an eye-catcher on market stands, a delightful table feature, and a perfect canned exhibit.

Chief.	Each Per 10 Per 100 Per 1000			
By mail	\$0.15	\$1.00

RASPBERRIES—Continued.

Lloyd George. The largest Red Raspberry grown in this country, was introduced from England by the New York Experiment Station. It is early, high quality, very prolific and is to be recommended for home garden plantings as its commercial value has not been established.

Postpaid Per 25 Per 100
\$1.25 \$4.00

New Logan. Black Raspberry. An early sort; one of the very best. Recommended for main cropper by all those who have tried it. Good shipper. Large, sweet, firm berry.

Price Per 100 Per 1000
\$2.00 \$15.00

Plum Farmer. Black. Strong, vigorous grower, a large productive Raspberry. It has been used for a main crop for years in all sections and has proved worthy as the main crop sort. You will make no mistake with this one.

Express or freight Per 100 Per 1000
\$2.00 \$14.00

Quillen The New Late Black Raspberry

One of the few Black Raspberry plants that has never been known to have any diseases. Now this year you can get them direct from Allen. A heavy fruiting strain, that is so highly recommended by the Agricultural Station. Quillen is a variety that ripens about one week later than Cumberland. Canes tough and strong, produces big, jet black, sweet berries. Grow Quillen along with Cumberland and prolong your picking season. Prices: \$2.00 per 100; \$16.00 per 1000.

St. Regis Everbearing. This remarkable berry produces a crop all through the fall. It ripens with the earliest and produces until frost. This is worthy of a place on your list.

By mail, postpaid Per 12 Per 25
\$0.50 \$1.00
 By express or freight Per 100 Per 1000
\$2.50 \$20.00

Viking. From the Vineland Station, Ontario, Canada. Is a midseason variety of the Cuthbert type, hardier, a thriftier grower, more prolific. Fruit is larger, brighter color and of the same high quality. Viking can be recommended as a much better Red Raspberry in every respect than Cuthbert and well worthy of a trial. It is possibly best adapted to the northern states.

Postpaid Per 25
\$1.00
 Express Per 100 Per 1000

18 to 24 in., postpaid35

Hydrangea Arborescens.

Lonicera.

Kolkwitzia amabilis (Beauty Bush). A charming new shrub which increases our debt to China. Discovered among the high peaks of Hupeh's mountains. Its progeny in America is proving likewise hardy in New England's severe climate. The attractively leaved bush attains about 6 feet, the center upright, the outer branches gracefully arching. Has a general resemblance to both Weigela and Honeysuckle, the beautiful trumpet-shaped flowers appearing in great profusion during June, in pairs which cluster closely into cymes of about twenty-five. Flowers are bell-shaped and somewhat lipped, pale pink with orange veins in the throat, the buds being much darker.

2 to 3 ft. Each \$0.30 Per 10 \$2.50

Lilac. See Syringa.

Lonicera (Bush Honeysuckle). Noted for its handsome flowers and fruits. Should be included in every planting of ornamentals. In 2 colors, pink or white.

By mail, postpaid, 2 to 3 ft. Each \$0.25

Malus (Bechtel's Flowering Crab). Makes a medium sized tree; perfectly hardy, succeeds well in most soils. When in bloom appears to be covered with deli-

cate pink, perfectly double small roses of delicious fragrance. Each \$0.75
3 to 4 ft.

Malus (Parkman's Flowering Crab). A fine red-flowering Crab, hardy anywhere in the United States. A plant that will surely please you.

3-ft. shrubs Each \$0.75

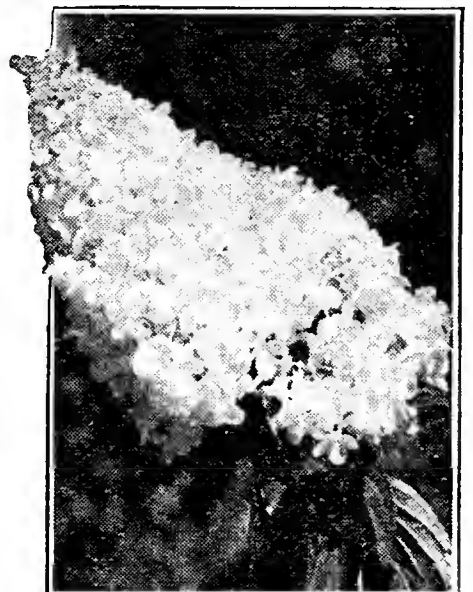

Peach, Flowering. See Amygdalus.

Philadelphus coronarius aurea (Golden Leaved Syringa). A handsome variety with golden yellow foliage; keeps its color the entire season; is splendid for grouping with other varieties for pleasing effects.

18 to 24 inch Each \$0.30 Per 10 \$2.50

Philadelphus grandiflorus (Mock Orange). A beautiful shrub, arching and graceful, very nearly covered with flowers of the largest size. They are waxlike in color.

By mail, postpaid, 2 to 3 ft. Each \$0.30
By express20 Per 10 \$1.75

Hydrangea P. G.

Forsythia.

HARDY ORNAMENTAL SHRUBS Continued.

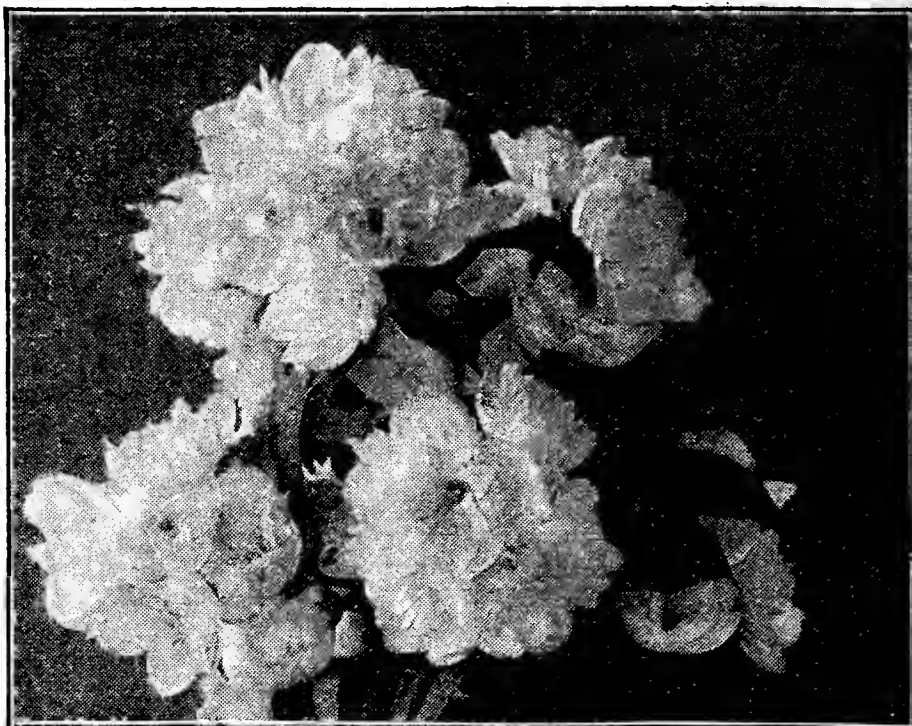

Philadelphus, Virginal. A magnificent new variety. Moderately tall, with good foliage and compact habit. The flowers (fully double, semi-double and single) are the largest, handsomest, and most sweetly fragrant of any known variety, with longest early and intermittent blooming season. Best of the modern Mock Oranges.
Each
2 to 3 ft.\$0.25

Prunus cistena (The Purple Leaf Sandcherry). A new hybrid Prunus out of the cold Northwest. Not only is it one of the hardiest large shrubs, but its refined beauty elevates the standard of all purple or red-leaved trees. Cistena is more compact and dwarfer than the Purple Leaf Plums, with much more red in its glossier leaves, persistent all season. The early spring flowers are deep pink and quite enjoyable.
Each
3 to 4 feet\$0.40

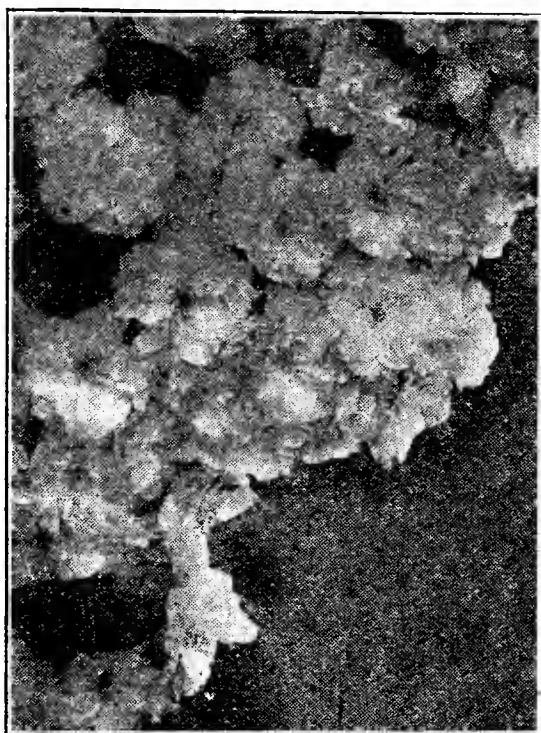

Prunus japonica (Flowering Almond). Pink double flowered Almond (P. jap. flore pleno rosea). A vigorous beautiful tree, covered in May with rose-colored blossoms like small roses; hardy.
Each
2-ft. plants\$0.50

Prunus (Japan Flowering Cherry, Kwanzan). The best variety of Pink Flowering Cherry. A wonderful ornamental tree for individual plants.
Each
3 to 4 ft.\$1.00

Prunus (Japan Flowering Cherry, Mt. Fuji). Famous flowering cherries of Japan. Beautiful specimens, blooming in profuse panicles.
Each
3 to 4 ft.\$1.00

Philadelphus, Virginal.

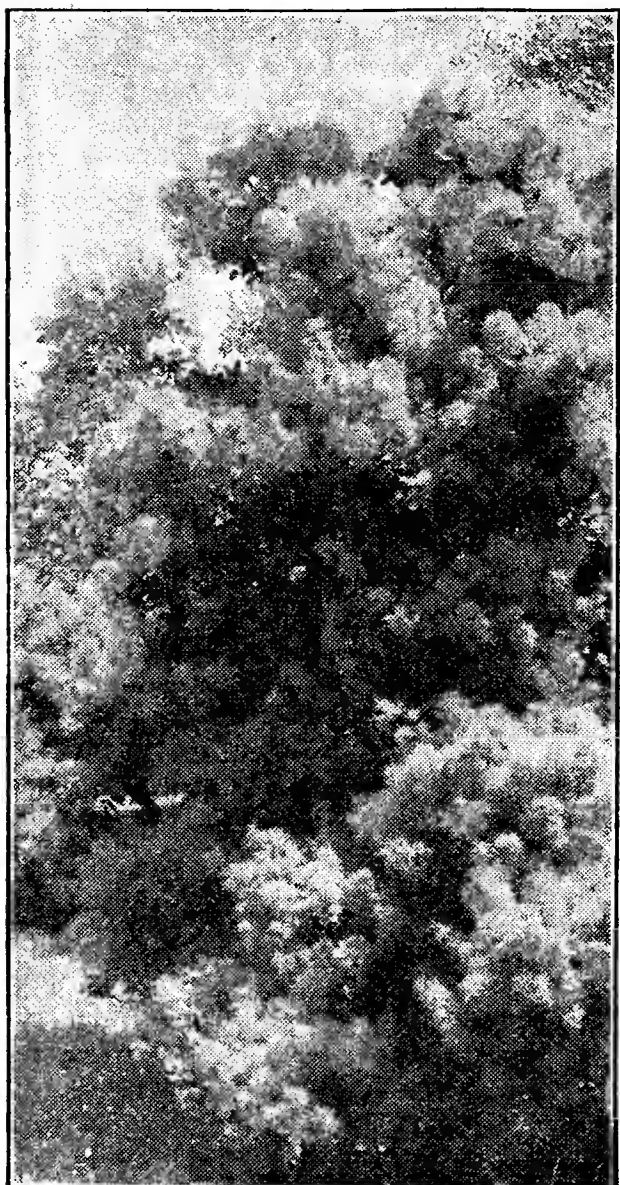

Prunus Japonica.

Rhodotypos kerrioides. White. May and June. Very ornamental shrub with bright green, pleated leaves and large white flowers one-half to one inch across. These are produced in the ends of the branchlets and are followed by conspicuous shining black fruits that adhere practically all winter. A desirable shrub.
Each
18 to 24 in., by mail\$0.30
2 to 3 ft., by express25

Rhus cotinus (Purple Fringe; Smoke Tree). One of the handsomest shrubs; its loose, graceful, flowing panicles of purple flowers are quite fragrant and borne in fringing clusters above very dark green leaves of thick feathery texture. A very handsome tree shrub.
Each
By mail, postpaid, 18 to 24 in. tall. \$0.50

Sambucus canadensis aurea (Golden Elder). Thrifty shrubs that will do well in any locality, should be planted where they receive sunlight, otherwise leaves may not be golden in color. The foliage is beautiful, green and gold mixed. Grows tall but can be kept pinched back.
Each Per 10
2- to 3 ft. plants\$0.25 \$2.00

St. Joseph, Mich.,
Dear Sirs: Will you please send us your catalog or price list of your nursery stock.
John Williams of Three Oaks tells me that he has never bought any nursery stock from you that did not come true-to-name. That is a splendid record.
H. J. LURKINS.
County Agricultural Agent.

Viburnum Opulus Sterile.

Hardy Ornamental Hedge Plants

Berberis Thunbergi Atropurpurea (New Red-Leaved Barberry). A highly important introduction among shrubs, giving us for the first time a practical, easily grown shrub of medium height, with good distinctly red foliage. This must prove a boon to all types of landscaping, where studied contrasts are to be worked out with the shrub foliage depended on for colors. Atropurpurea is an exact reproduction of Thunbergi in every way—habit, leaf-formation and fruiting; but, whereas the original is a deep green from spring until fall, this variety starts off in its first foliage a warm bronzy red; the heat of summer intensifying its richness. The abundant scarlet berries persist throughout winter along the dense network of spiny twigs. A sunny exposure is necessary to bring out and retain its full red color.

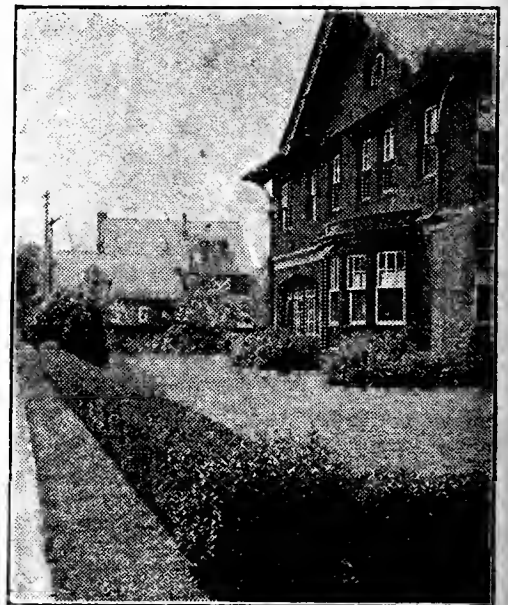

1 yr., 12-18 in., postpaid **Each** \$0.30 **Per 10** \$2.50
2 yr., 18-24 in., postpaid35 3.00

Berberis Thunbergi (Japanese Barberry). This plant is one of the finest ornamental hedging and banking plants in use especially for low informal hedging and along sidewalks, nothing can rival it. This plant is no relation to the Barberry that the government is trying to get rid of.

Beautify Your Home With Allen's Vines.

Trees for Shade and Beauty

Ash, American White. A handsome, hardy, broad headed, quick growing shade tree, sometimes reaching 120 feet in height. Very valuable in landscape work, for park and street planting.

6 to 8 ft. Each \$1.00

Ash, European Mountain (*Sorbus aucuparia*). An ornamental deciduous tree with beautiful foliage, which turns orange-red in the fall. The fruits are showy and often remain all winter, if not eaten by the birds. Not particular as to soil.

5 to 6 ft. Each \$1.00

Cut-Leaved Weeping Birch. One of the most elegant of all weeping or pendulous trees. It is of tall, slender, yet vigorous growth, graceful drooping habit, silvery white bark and delicately cut foliage.

8 to 10 ft. branched Each \$1.25

Catalpa Bungei (*Umbrella Catalpa*). Grafted on stems from 5 to 8 ft. high, makes umbrella shape without trimming. Leaves, large, usually set in pairs each side of a walk.

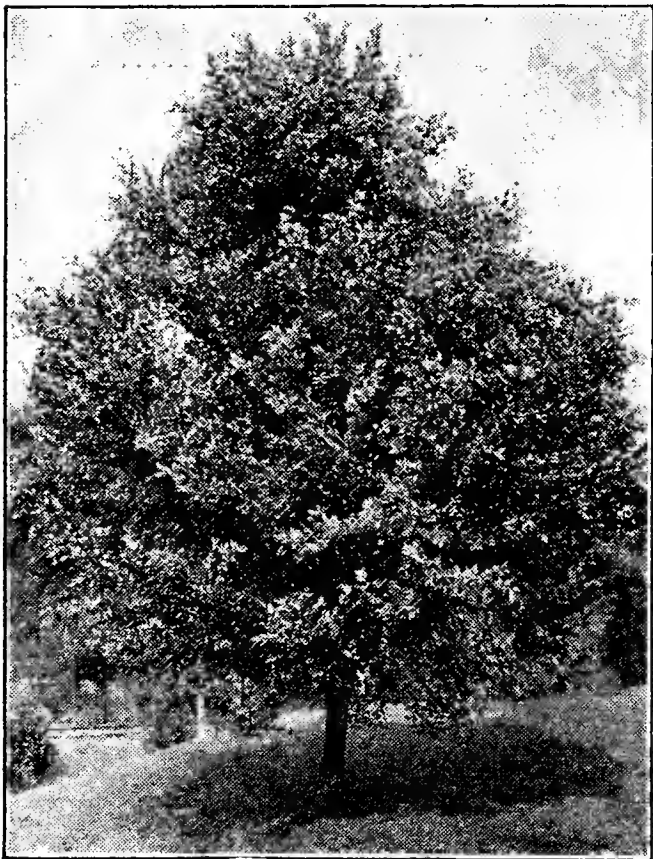

1-yr. head, 5 to 6 ft. tall Each \$0.50
2-yr. head, 6 to 7 ft. tall75

Catalpa speciosa. This is a tall growing shade tree, has white blossoms, large green leaves, makes good fence posts when cut, is a quick grower.

5- to 6-ft. trees Each \$0.50

Elm, American. The old majestic drooping tree that you have always seen in the country pastures. One of the finest of all shade trees we offer.

8- to 10-ft. trees Each \$1.00

Chinese Elm.

yellow in autumn. A valuable shade tree.
6 to 8 ft. Each \$1.50

Magnolia Soulangeana. One of the hardiest and finest. Its blossoms are from 3 to 5 inches across, cup-shaped, white and rosy violet, opening before its leaves which are massive and glossy.

2 to 3 ft., balled and burlapped Each \$2.50

Maple, Ash Leaf (*Box Elder*). A rapid growing variety, with light green leaves. Very hardy.

8 to 10 ft. Each \$0.75

Maple, Japan (*Red-Leaved*). Rounded, dwarf trees seldom maturing to over 10 ft., densely furnished to the ground with indented leaves of unrivaled brilliance and charm. Their early and midsummer aspect is vivid blood-red, which dulls to a bronzy purple-red towards fall. These are splendid foreground subjects in mixed groups, or for solitary color blotches in the open lawn. Supply limited.

2 to 3 ft., balled and burlapped Each \$3.00

Elm, Chinese (*Ulmus pumila*). A new introduction from China. This variety is a very rapid grower. Known to have reached a height of 20 feet 6 years after planting an 8- to 10-ft. tree. Resembles the popular Norway Maple in shape. Good foliage, more dense than other Elms. Exceptionally adapted for street and shade planting where quick results are desired. Grows 75 ft. high.

6 to 8 ft. Each \$1.00

Judas Tree (*Cercis canadensis*). (*Redbud*). A small growing tree of irregular form, with heart-shaped leaves. It is covered with delicate pink blossoms early in spring before the leaves appear, a charming association among the tender greens and bronzes of young foliage.

4 to 5 ft. Each \$1.00

Linden, American (*Basswood*). A beautiful, rapid-growing tree with large, broad leaves and fragrant flowers. The bloom furnishes the best of bee pasture. The Linden should be extensively used as a lawn tree; it is also very valuable for park and street planting. It thrives in moist, rich soil, but does well in any good soil.

6 to 8 ft. Each \$1.25

Magnolia acuminata (*Cucumber Tree*). A fine pyramidal tree with upright branches. Leaves oblong, bright green, turning

Evergreens

These trees are carefully dug with a ball of earth and sacked so they will not dry out, hence they are offered packed free f. o. b. cars, as they are too heavy to mail.

Douglas Fir. The fir is a symbol of strength and grandeur. The firs are one of nature's triumphs. Tree conical form, leaves dark green, a fine evergreen to plant.

2 to 3 ft. plants Each \$1.00

Juniper, Irish. Erect, slender, and formal in habit, foliage sage green, very compact, making a splendid column finally reaching 12 to 15 feet. Much used in cemeteries, selected specimens.

2 to 3 ft. plants Each \$1.00

Juniperus Pfitzeriana. Very dark green, spiral branches long and whip like, spreading and keeping quite close to ground.

18 to 24 in. Each \$1.25

Juniperus virginiana glauca (Blue Cedar). Unlike so many varieties it is not at all formal, but without losing general compactness, its irregularity of spread is uniquely attractive; the broadly conical form and beautiful glaucous blue foliage making it one of the choicest of all Junipers. Each

2 to 2½ ft. \$1.75

Pine, Austrian. Broad based, heavily needled, dark and rich green, hardy and vigorous growth. Must be used only where it can have tall growth as it is a tall growing sort.

2 to 3 ft. tall \$1.00

Pine, Mugho. Is dwarf, leaves short, stiff and formal, the best for boxes and bed planting, or for any purpose where Dwarfs are needed.

12 to 18 in., heavy plants Each \$1.00

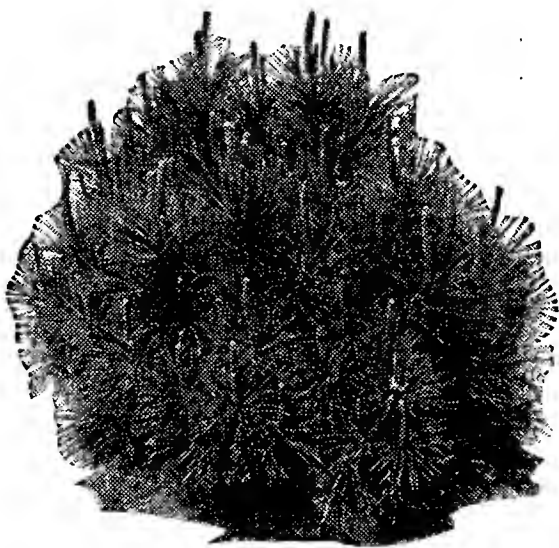

Retinispora plumosa aurea. A handsome acorn-shaped tree of medium growth, with beautiful yellowish foliage. One of the very best for planting.

2 to 3 ft. Each \$1.00

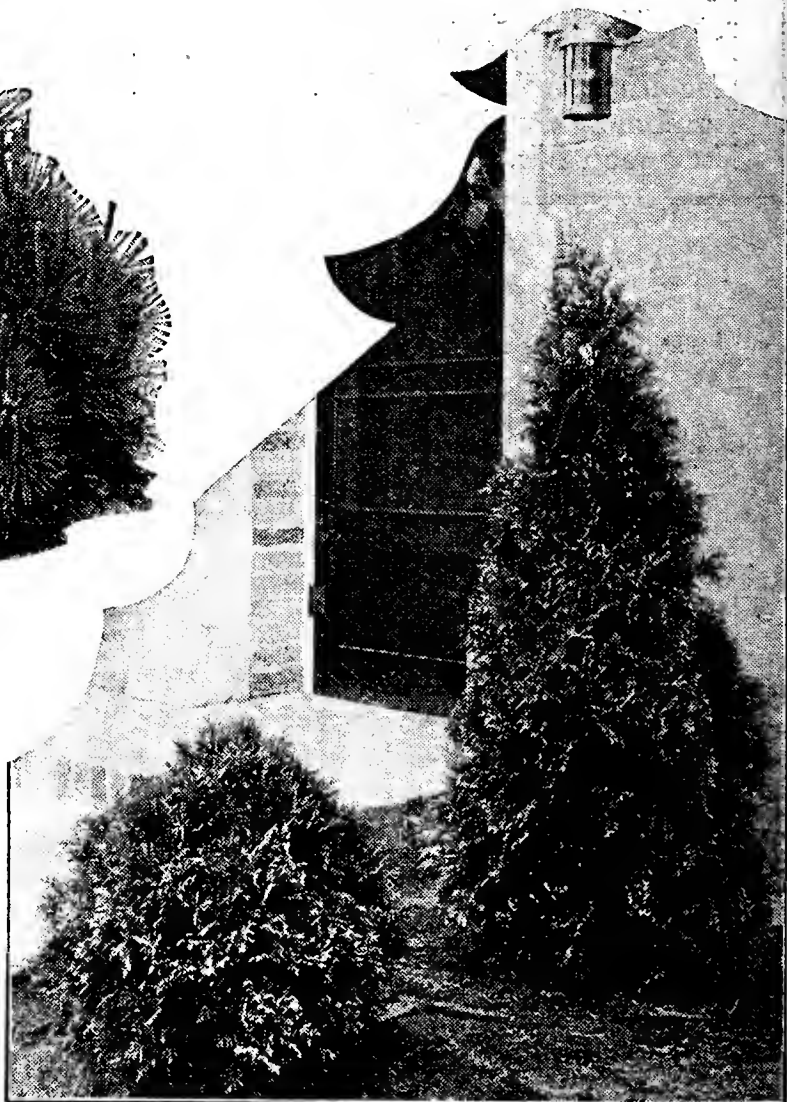

Spruce, Black Hills. Hardest of all the spruces. Foliage varies from greenish to bluish tint. Tree dense, thick grower. Trees noted for their bright color. They are round in shape and grow this way to maturity. We think this the best evergreen for yard planting that we offer, as far as beauty goes. Specimens selected.

18 to 24 in. tall Each \$1.00

Spruce, Colorado Blue. Grown from seed. Some of these are light green, bluish shade. These we sell 24-inch plants at \$2.00 each. The selected Blue type which are bluish, sell 24-inch plants at \$2.50 each. Either are very beautiful specimens.

All Balled and Burlapped; Too Heavy for Mailing.

Azalea

Calendulacea (Flame Azalea). One of the most attractive flowering shrubs, growing up to 6 or 8 feet. A very profuse bloomer; the flowers being a light orange or bright red, appearing before the leaves and remaining several weeks. The autumn foliage closely repeats the colors of the flowers. Each 2 to 3 ft.\$1.00

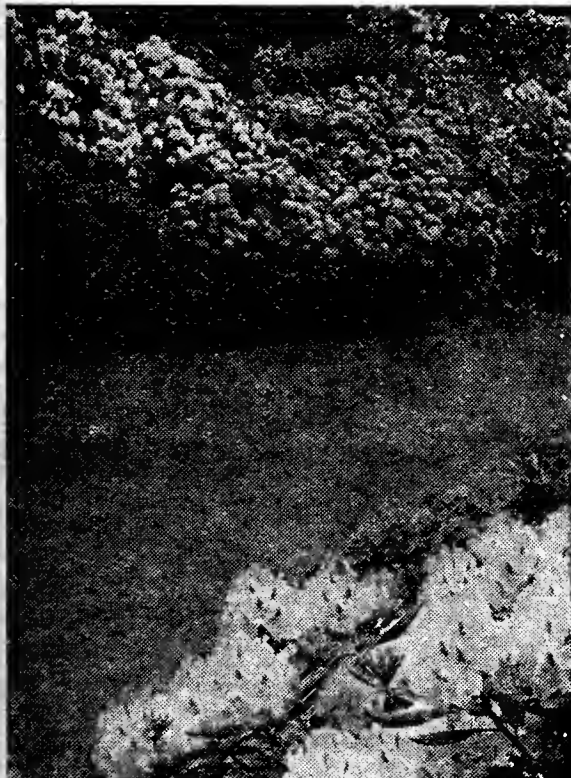

Mollis. Dwarf growing, bushy, well branched, the foliage especially attractive. The flowers are a variable orange-tan, yellow and red. Plant thrives in both sunny and semi-shaded locations; is very hardy and very good for foundation planting. Each 18 to 24 inches\$1.00

Mahonia

Aquifolia (Holly-Leaved Ashberry). A beautiful evergreen shrub, with smooth shining holly leaves; bright yellow flower clusters in May, and blue berries. The leaf color varies capriciously through the year, assuming shades of green, with flecks of red and bronze. Each 18 to 24 in.\$1.00

Kalmia

Latifolia (Mountain Laurel or Calico Bush). Second only to the Rhododendrons among the broad-leaved evergreens. Its quaintly formed, rosy white buds and flowers cluster in great trusses during July, and contrast finely with the shining, dark leaves. Even small plants are gay with them. Especially impressive in masses, but make a brave show as separate specimens. Each 2 to 3 feet\$2.00

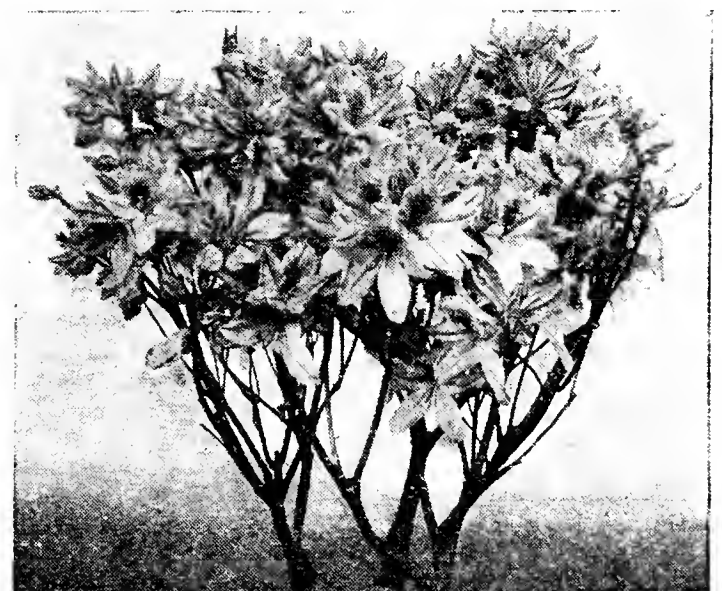

Rhododendron Catawbiense.

Rhododendron

Its leathery leaves provide wonderfully rich backgrounds of dark green amid the floral distractions of summer, and inject a lively reminiscence of the season past, in winter landscapes. Although most effective and cared-for when planted in masses, smaller groups and units are invaluable for shaded nooks about the house or lawn. They will grow in any good soil, but are finest in a sun-and-wind sheltered situation, where the soil is deep, well drained and mulched with leaves. In hot, dry weather soak the ground—say about once a week. A protection of leaves and brush during the winter will be beneficial.

Catawbiense. Very hardy, with attractive foliage of round shining green leaves, glaucous beneath, in terminal clusters. The flowers are borne abundantly in large trusses, in shades of lavender and purple, appearing early in June. Each 2 to 3 ft.\$2.00

Maximum. Foliage very large and smooth, its July flowers in shades of rosy blush and white. Very attractive for natural effects along shaded walks and drives, and best for massing. Each 2 to 3 ft.\$2.00

Azalea Mollis.

Broadleaf Evergreens are Distinctive in Winter.

Field-Grown Roses

Hardy, 2 Year, No. 1 Plants

Tea and Hybrid Tea Roses

Field-grown, hardy, 2-yr., No. 1 plants, 40c each; 3 for \$1.00, postpaid.

Betty Uprichard. A charming type with rolling edges. A blend of deep carmine with coppery orange, the interior being mostly a delicate salmon-pink.

Dame Edith Helen. A magnificent, fragrant, full-bodied new rose of many substantial petals which curl back prettily, holding steadily to one vivid pink color, and that the rare Rose du Barri shade.

Etoile de France. Velvety garnet-red cup, with center of vivid cerise. Flowers very large and full, with marked imbrications.

Gruss an Teplitz. Intense depth and richness of color. Velvety crimson-red.

Kaiserin Augusta Victoria. Full double flowers; delicate creamy white; deliciously fragrant.

Los Angeles. One or the grandest all-around roses of American origin ever put on the market. Flowers large and continuous, in color a flame-pink, toned with coral and shaded with translucent gold at the base of the petals.

Souvenir de Claudius Pernet.

with shades of opal and copper.

Sensation. Bud is large, long-pointed; the expanded flower very double, averaging 5 inches across; very lasting. The finish suggests rich velvet, in color a scarlet-crimson deepened over all by glossy maroon. The foliage is dark, and the scented bloom profuse.

Souv. de Claudius Pernet. This fine variety maintains its reputation as the most reliable and strongest yellow rose ever introduced. Its color is a decided and unstained sunflower yellow, even deeper toned at center. Unlike most yellows, hot weather and exposure have little effect upon its pigments; the matured flower gleaming as richly as when first unfolding. Its flower form is large and full, buds long and pointed. Vigorous, erect and branching, with brilliant foliage and long, substantial stems.

Sunburst. Flowers full, of fine elongated form; yellow, orange in the center.

Talisman. The most gorgeous assemblage of colors in one flower ever presented by a rose. That it has pleased the experts is proven by the great number of gold medal awards given it since the shows of '28. The bud is long and shapely, developing into medium sized compactly double flowers; a free bloomer, with glossy foliage and strong plant growth. Here are the strong colors exhibited, mostly in well defined angular blocks; gold, apricot-yellow, blood-orange, deep pink and old rose.

Willowmere. (Per.). A robust garden rose of bushy habit, with beautiful buds, very large flowers and lustrous green foliage. Color rich shrimp-pink, shaded yellow at center, toning to cream-pink toward base of petals.

Etoile de France.

Mme. Butterfly. A symphony of cream, pink, apricot and gold. The buds are a rich Indian red, yellow at base; a delightful element in the constant mass of bloom.

Mme. Edouard Herriot. (Per.). A glorious commingling of terra cotta, bronze, geranium-red and dull copper; fine, long, pointed buds of coral-red and yellow. Strong, upright growth.

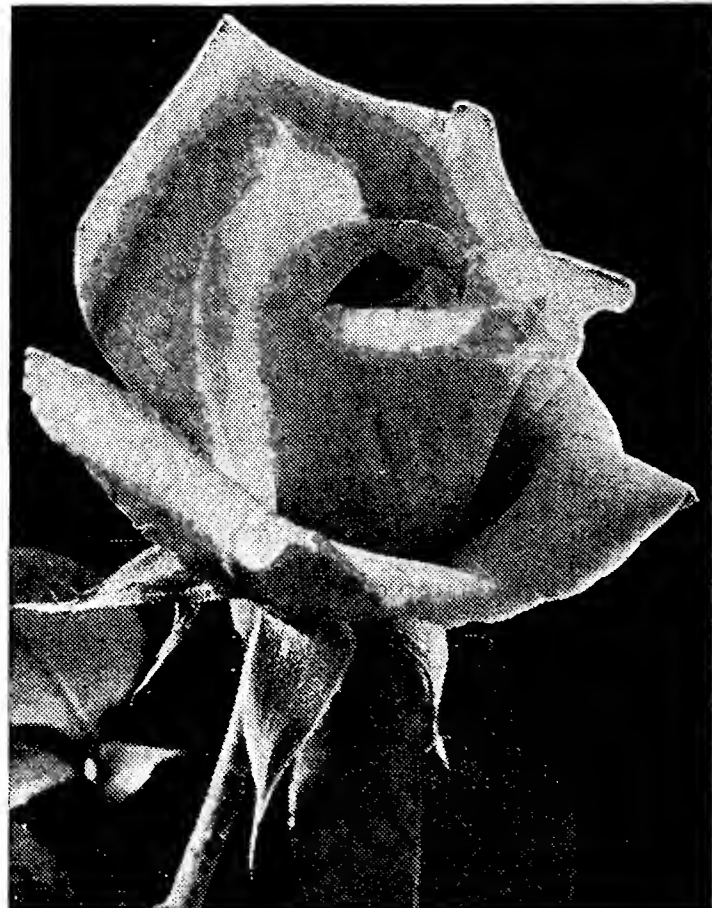

Mme. Jules Bouche. Pure white slightly blushed at center. A fine bedding type.

Mrs. Aaron Ward. Buds are deeply cupped. Color, deep golden orange, shading to creamy yellow. This popular variety has long been the standard yellow, small-budded "corsage rose" for our American women.

Mrs. Erskine Pembroke Thom (Howard & Smith, 1926). An unfading yellow with dark healthy foliage. Slender yellow buds opening to well-shaped canary-yellow blooms, deepening in the center. A satisfactory rose for bedding on account of its fine foliage, heavy growth and wealth of bloom.

President Herbert Hoover. The brilliant new Hybrid Tea Rose that has become popular over night. Picture the amazingly rich contrast of its maroon, orange and gold colorings, as they merge together in their glorious way. Long pointed buds, tall strong stems and its heavy blooming qualities make it an ideal Rose for the florist's trade, and so far it has not been grown in near large enough quantities to supply the demand. Also, it is a fine Rose in the garden.

Radiance. Extra hardy, vigorous and prolific; one of the best all-around garden roses. Its color is a beautiful blending of carmine-rose

Willowmere.

Hillsboro, April 1, 1933.

Gentlemen: I received the trees in fine condition, well pleased with large size and healthy condition. Thanks for extra.

Yours respectfully,

A. V. FILTRO.

Send Your Orders Early.

FIELD GROWN ROSES—Continued

Hybrid Perpetual Roses

By mail, postpaid: 2-yr., No. 1, field-grown plants, 40c each; 3 for \$1.00.

Alfred Colomb. A very perfect blossom, strawberry-red. A very fragrant flower, globular in shape. The plants are vigorous and bloom long and heavily in the early summer.

Anna de Diesbach. Beautiful carmine color. Flowers are very large and moderately fragrant. A vigorous plant.

Baron de Bonstetten. A dark crimson flower, blooming very large and full. Very fragrant. One of the most desirable of its class.

Capt. Hayward. Large full flowers, which are high built, with characteristic rolling edges to the petals, the color is strong and attractive, a rich carmine-velvet-crimson.

Clio. A large globular rose, sweetly fragrant; satiny flesh color, with pink center, which when two-thirds open is perfectly cup-shaped. The beauty is enhanced by its deep green foliage. One of the best pinkish white roses sold.

Duke of Edinburgh. Brilliant crimson-scarlet shaded with maroon.

Eugene Furst. A beautiful velvety crimson, with distinct maroon shading; usually in clusters.

Frau Karl Druschki. The Regal White American Beauty.

Ulrich Brunner.

The distinctive form and expression of its bud, half opened state and maturity makes it a three-fold wonder in all its stages. In gardens they commence blooming with other June roses and are conspicuous throughout the summer with their waxy white loveliness and blossom until frost comes on and stops them.

Gen. Jacqueminot. Known as the Gen. Jack rose. This is one of the old reliable dark red roses, free blooming, rich crimson-scarlet. One of the most beautiful.

George Arends. Called Pink Druschki. This rose is the finest rose that has been introduced in the past 10 years. Growth is vigorous, long stems, profuse blooms entire summer. Color delicious shade of satiny rose-pink. One you ought to plant.

J. B. Clark. Intense deep scarlet blooms, of immense size, and moderate fragrance. A vigorous grower with upright canes.

Magna Charta. Strong growing, early blooming, with large flowers of bright rose-pink.

Mrs. J. H. Laing. Soft, delicate pink, with satin cast.

Mrs. R. G. Sharman-Crawford. Large, perfectly formed, deep, rosy pink, fragrant; outer petals shaded pale pink. A vigorous bloomer and grower.

Paul Neyron. Very large, perfect; bright ruddy pink.

Frau Karl Druschki.

Soleil d'Or. Very hardy; very double full flower; 4 inches across, orange-yellow shaded nasturtium-red; exquisite perfume; only moderately free in flowering.

Ulrich Brunner. Cherry-red, a popular forcing sort, and one of the varieties in most orders for hardy roses. Its flower construction and habits are very pleasing, and the color appealing. A very good rose.

J. B. Clark.

Three Oaks, Mich., January 26, 1933.

Allen's Nurseries & Seed House,
Geneva, Ohio.

Dear Sirs: Am going to get my order in early so as to get sizes and varieties that I want. You may enter my order for 390 Hale medium 7/16, 3 to 4; 365 Elberta medium 7/16, 3 to 4; 70 South Haven medium, 3 to 4—825 at 8c each.

In setting nursery stock I think the largest factor is getting the stock true-to-name and in the five orchards where I have used your trees they have been at least 99% the varieties which I ordered. I had tried to get J. H. Hale from other nurseries and usually 75% would be another variety when they came into bearing.

The first 100 J. H. Hale trees purchased from you were every one Hales and a very heavy bearing strain and some of them had over 3 bushels last fall on 4-year-old trees, which is very exceptional for that variety.

In the 22-acre block including last year, this year, and next year's setting I will use about 1000 J. H. Hale, which will be about 50% of the trees set. Am interplanting partly Elbertas and using some South Haven for pollenization. Certainly hope these are as good strain of Hale as my previous planting.

Yours very truly,
JOHN W. WILLIAMS.

FIELD GROWN ROSES—Continued. Hardy Climbing and Rambler Roses

By mail, postpaid: 2-yr., field-grown, 40c each; 3 for \$1.00.

American Pillar. One of the most valuable of the hardy climbers, flowering profusely in large compact clusters, brilliant carmine-rose in color.

Baby Rambler. Red, a dwarf form of crimson Rambler, flower similar to Crimson Rambler. Is used generally for flower pots. Is very handsome.

Climbing American Beauty. This climbing form of the famous pink rose, so long the American favorite for cutting, is as lovely and fragrant and deeply pink as the bush form. The hardy climber blood with which it is crossed gives healthy, perfect foliage and a strong climbing habit of growth; the super-abundant bloom being in prime before the June show of the bush type.

Crimson Rambler. Plant a vigorous, hardy climber. Flower of dark red, one of the very best for porch work and lattice work.

Doctor W. Van Fleet. One of the newer type of climbers which combines absolute hardiness with flowers large as in the Tea and Noisette class. This variety shows a mass of beautiful clustered buds, which open out into large, shapely flowers; delicate flesh white. An admirable cutting variety with stems 12 to 18 inches long.

Dorothy Perkins. A beautiful shell-pink climbing rose. This is the finest rose for hedging and arbors of any we have ever seen.

Excelsa. This has superseded the old Crimson Rambler. It is vigorous in growth with healthy dark glossy green foliage. The flowers are very double, produced in large trusses. Color is intense crimson-maroon, the tips of the petals tinged with scarlet.

Gardenia. The tight, very numerous little yellow buds are beautiful in early summer, the flowers opening up creamy white, jasmine scented.

Mary Wallace. (New). Although a good pillar rose, it becomes self-supporting and makes an ideal dooryard bush. The flowers are semi-double, bright clear rose-pink with salmon base. These are often 4 inches wide—and appear intermittently during the season, following their first glorious outburst in late spring.

Paul's Scarlet Climber. Winner of Gold Medal at National Rose Society's Exposition. Flowers are scarlet shaded crimson; corresponds to Climbing American Beauty, Dr. W. Van Fleet and others as to size and beauty. Blooms long, an excellent variety for pergola work and one of the best climbers yet sold on the market.

Silver Moon. 4- to 5-inch semi-double flowers; pure white with thick clusters of yellow stamens.

Tausendschon (Thousand Beauties). A rapid growing, almost thornless climber, showing the blood of Rambler, Polyantha and Tea parentage. Its innumerable flower clusters make a pretty show in June and July. At first the soft pink of Clotilde Soupert, and later deepening to a bright carmine-rose. Very vigorous climber, with plentiful and healthy foliage.

Mme. Gregoire Staechelin.

New Yellow Chinese Briar

Golden Chinese Briar

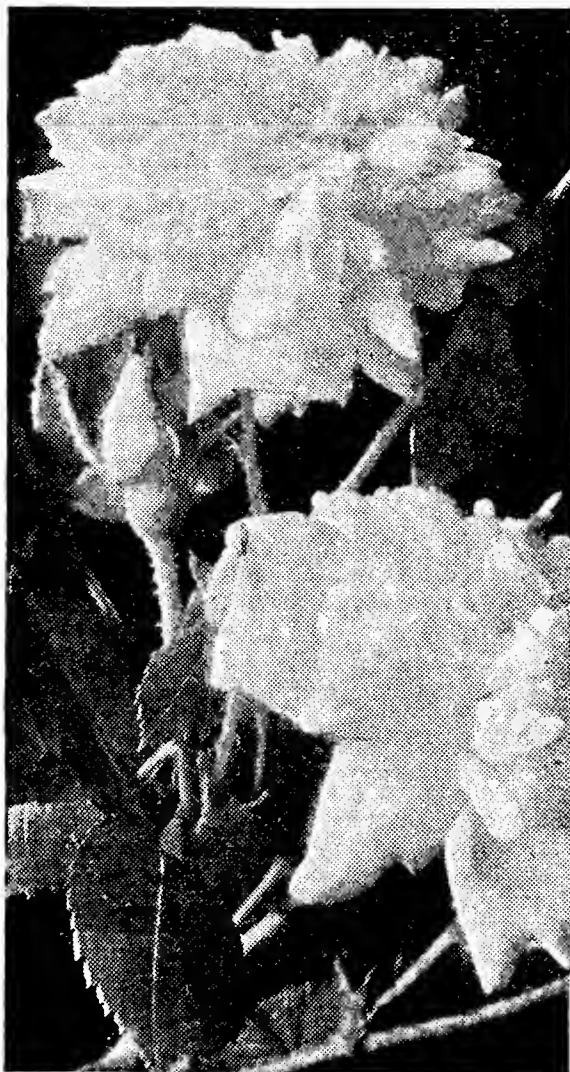

Hugonis. (Novelty). A remarkable and very valuable briar rose brought in from China. Grows and spreads quickly to as much as 6 ft. at maturity. Blooms extravagantly in May full length of last year's shoots. Flowers single, ranging from deep gold to canary, with conspicuous stamen tufts.

CLIMBING ROSES
Greatest Value of New
Creations Ever Offered

Mme. Gregoire Staechelin. This new variety is the aristocrat of the climbing roses. Its beautiful flowers are of an enormous size and in color are an iridescent pearl-pink, splashed with carmine. Delightfully fragrant. Hardy vigorous grower with large disease-resistant foliage.

Primrose. A pure yellow, hardy climbing rose. Its large, double flowers are a soft rich primrose-yellow, and are borne in clusters of four and five on an extremely vigorous plant, with beautiful foliage.

Chaplin's Pink Climber. One of the finest pink pergola climbers ever found. Large flowers, and a long season bloomer.

Allen's Roses Bloom Better.

Flowering Plants

Dahlias

These are No. 1 tubers, postpaid. We have selected the ten best varieties, out of thousands of varieties, and all of these are noted exhibition large-flowered Dahlias.

Satan. Semi-cactus. Color scarlet with yellow on reverse of petals. Stems long. Per tuber, \$3.50.
Jane Cowl. Decorative. Color warm buff and old gold, blending to apricot and rose at center. Giant flowers. Per tuber, 30c.

Champoeg. Decorative. Canary yellow at center, shading into salmon-pink. Per tuber, 75c.

Omar Khayyam. Chinese red at base, shading to bright orange. Per tuber, 75c.

Treasure Island. Color bright apricot, with gold and rose suffusions. Per tuber, 40c.

Jersey's Beauty. Large pink. Ideal show, and cutting Dahlia. Per tuber, 20c.

Thomas A. Edison. Color royal purple. Extra thrifty, one of the best. Per tuber, 50c.

Kemp's Violet Wonder. Bright violet-purple, with bluish tips. Per tuber, 50c.

Ida Perkins. Best creamy white. Extra fine. Per tuber, 30c.

Watchung Wonder. Rich royal red, with gold at tip of petal. Per tuber, 75c.

Dahlia, Satan.

Allen's Complete "Glad" Mixture

10 Bulbs

Different Colors for 25c

Gladiolus

Following varieties of the finest Show types. Were selected by an expert Pennsylvania florist, as being the pick out of thousands of kinds. We have priced them at a very low figure, and we hope our customers, who are also our friends, will take advantage of it.

Prices Postpaid. No. 1 Bulbs.

- Halley.** Nice rose. 5c each.
- Arizona Rose.** Beautiful rose. 5c each.
- Iwa.** Light rose, with red blotch. 15c each.
- Laughing Waters.** Pretty pink. 10c each; 2 for 15c.
- Longfellow.** La France pink. 10c each; 3 for 20c.
- Marmora.** Gray with pale purplish blotch. 10c each.
- Mother Machree.** Lavender, overlaid at end of petals with salmon. 20c each; 2 for 35c.
- Minuet.** Clear light pink lavender. 10c each; 2 for 15c.
- Richard Diener.** Salmon-pink with cream throat. 8c each; 3 for 20c.

Cut Flowers Galore from a Bed of "Glads."

True-to-Name Bulbs.

FLOWERING PLANTS—Continued

Caladium Esculentum

(Elephants Ear). Extra large bulbs, 25c each; 10 for \$2.00.

Cannas

Statue of Liberty. 6 ft. An extremely vigorous grower with bronze foliage and large orange-scarlet flowers. 15c each; 10 for \$1.00; 25 for \$2.00.

The President. The flowers are immense, round, firm—often 7 inches across—of extra good quality and borne in the greatest profusion. The color is unfading, pure, glowing scarlet; foliage rich green. Of all the green-leaved sorts above the medium height, this is the best dark red. 15c each; \$1.00 per 10; \$2.00 per 25, by express.

New Canna (Gaiety). Large red and yellow flowers and rich green foliage. This is an orchid-flowered canna with very heavy and dark foliage. Flowers will average 5 to 7 inches in diameter, while the individual petals are 3 to 3½ inches in diameter. Color is a combination of red and yellow. You will find this a very showy variety with its flowers held well above the heavy foliage. 15c each; 20 for \$2.00, postpaid.

Lilies

Stateliest and most aristocratic of all garden plants. Being hardy, the list of Lilies ordinarily run with the other perennials; but being supplied as bulbs, they might be overlooked if not offered nearby the other spring bulbs—such as Dahlias, Gladioli, etc. No garden could be complete without some representation from this noble family.

Auratum (Gold-Banded Japan Lily). This variety has ever been a great favorite. The flower heads are large, with broad petals gracefully recurved. White, thickly studded crimson-maroon, with a wide gold band down the center of each petal. Improves with age, and produces a vast amount of bloom. 35c each; \$3.50 per doz.

Canna, The President.

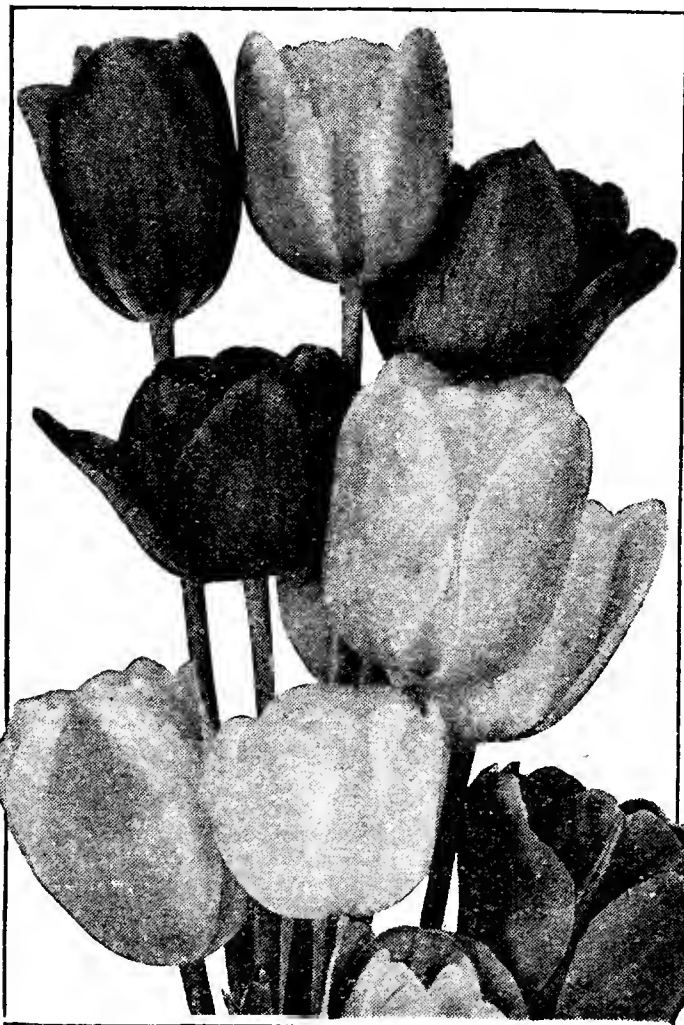

Regal. One of the most beautiful of all known lilies. It is a new introduction from Northern China, and once it becomes generally known it will be used exclusively as an Easter Lily. It is very hardy and will bloom outdoors in June or early July. Mature bulbs produce from 5 to 15 flowers on a single stem which retain their freshness over quite a long period. 3-year-old bulbs, 20c each; 10 for \$1.50.

Speciosum Album. Pure white with a green band traversing the center of each petal. 30c each; \$3.00 per doz.

Speciosum Rubrum. This is one of the joys of August; ruby spots distributed over a broad expanse of white. 30c each; \$3.00 per doz.

Superbum. Runs from 3 to 6 ft. in height, its nodding crests adding to the general brilliance of July, with from 5 to 40 handsome orange-red blooms. 20c each; \$2.00 per doz.

Tigrinum Splendens. The dear old single "Tiger Lily." 20c each; \$2.00 per doz.

Darwin Tulips Are Brilliant and Stately.

Iris, Caprice.

Iris King. Rich crimson bordered with gold, tall, large-flowered.

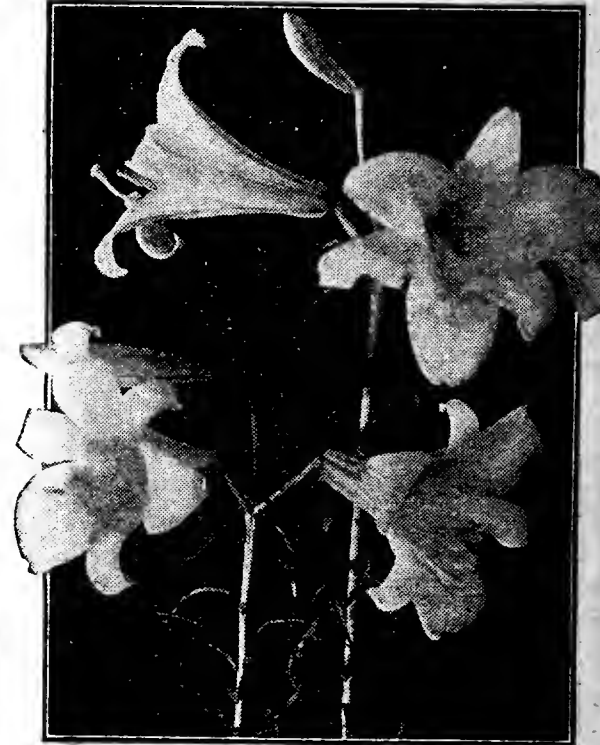

Afterglow. Soft grayish lavender shaded yellow at center.

Seminole. Soft velvet-rose, flecked with crimson.

Archeveque. Deep velvety violet-purple. An exquisite iris.

Mother of Pearl. Pale blue lavenderish flower, free flowering. One of the best.

Dream. A very lovely orchid-like flower of soft clear pink. Beautiful.

Regal Lily.

German Iris

12c each; 10 for \$1.00, postpaid.

Caprice. Flowers large and rounded, rich rosy lilac.

Loreley. Custard yellow, short stocky growth.

Lohengrin. Tall, strong grower. Rose to rosy white.

Eldorado. Old gold splashed with purple, bronze type.

Sherwin-Wright. Free bloomer. Pure yellow. One of best.

Queen Caterina. One color iris, azure-lilac. New sort and a good one.

Darwin Tulips

No flower is so nice as the Tulip for early spring. Every garden should have some of these Darwins. Our selection is limited to a few of the best varieties. No. 1, first class bulbs, postpaid to you. Should be planted in fall.

Bartigon. Fiery crimson, white base. Per 10, 50c; per 100, \$3.60.

Clara Butt. Salmon-pink, coral center. Per 10, 50c; per 100, \$3.50.

Europe. Salmon-scarlet. Per 10, 50c; per 100, \$3.60.

Glow. Vermilion, blue base. Per 10, 70c; per 100, \$5.00.

Inglescombe Yellow. Per 10, 50c; per 100, \$3.50.

King Harold. Oxblood-red. Per 10, 70c; per 100, \$5.00.

La Candeur. White, rose tinted. Per 10, 60c; per 100, \$4.50.

La Tulipe Noire. Maroon-black. Per 10, 75c; per 100, \$5.25.

Loveliness. Soft carmine-rose. Per 10, 50c; per 100, \$3.60.

Pride of Haarlem. Bright red, suffused purple. Per 10, 50c; per 100, \$3.50.

Princess Elizabeth. Deep rose. Per 10, 60c; per 100, \$4.25.

Prof. Rauwenhof. Cherry-red, shaded red. Per 10, 60c; per 100, \$4.50.

Rev. H. Ewbank. Silvery heliotrope. Per 10, 45c; per 100, \$3.40.

Mixed Darwins. Per 100, \$3.00.

- Field of Snow.** Pure white, button type.
- Golden Queen.** Yellow, extra large.
- L'Argenteuillais.** Bronze flowers, early flowering, medium height. One of the best.
- Red Indian.** Copper-red, late flowering. One of the best.
- Little Bob.** Bronze, button type.
- Old Homestead.** A buff-pink. One of the best sorts.
- Victory.** White, large flower.
- Skibo.** Very hardy, yellow button flower, bush covered with blossoms.
- M. Rauol.** Golden flower, upright and one of the best.
- Allen's Red.** Best red ever.

Hardy Chrysanthemums.

Allen's Nursery and Seed House, Geneva, Ohio.
 Havre, Mont., March 13, 1933.
 Gentlemen:
 I have not as yet received your new 1933 catalogue. I obtained such excellent results from planting your seeds that I would like to order from you again.
 Yours truly,
 ZEAL PEPIN.

FLOWERING PLANTS—Continued

Hardy Perennial Plants

We have a fine lot of perennials to offer you this season. All are No. 1 plants and are priced postpaid via mail. Field grown.

Everything well grown and properly packed.

Achillea, The Pearl. Early summer. White flowers. 10c each.

Achillea, Parker Fipp. Pink flowers. 10c each.

Aconitum Fischeri. Pink, very hardy. 10c each.

Aconitum millefolium. White. 10c each.

Alyssum argenteum. Dense growth. Leaves silvery beneath, flowers yellow in clustered heads, all summer. 10c each.

Alyssum saxatile compactum. Broad masses of bright yellow flowers in early spring. An excellent plant for the rockery or front of borders. 1 ft. 10c each.

Anchusa, Dropmore. Tall spikes of beautiful blue flowers, flowering all summer. Rough broad foliage. 4 to 5 ft. 10c each.

Anthemis Kelwayi. White. 10c each.

Anthemis Kelwayi. Yellow. 10c each.

Anthemis Kelwayi (Hardy Marguerite). An excellent and profitable perennial for cutting; its daisy-like flowers appearing in profusion, practically all summer. Golden yellow. 2 ft. 10c each.

Aquilegia canadensis (Common American Columbine). The native bright red and yellow variety, and one of the brightest. 10c each.

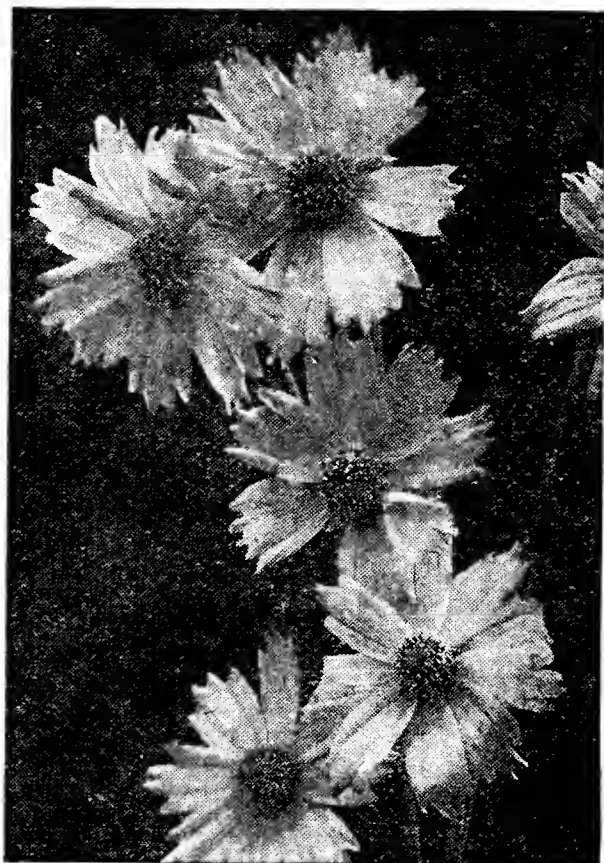

Armeria lauchiana (Sea Pink or Thrift). Bright rosy red. 3 to 6 inches. May and June. 12c each.

Aster, Cornflower. Blue. 10c each.

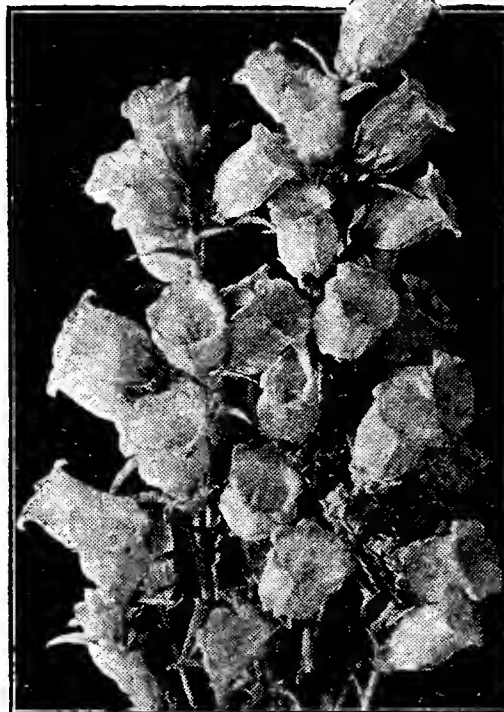

Boltonia latisquama. Pink tinged with lavender. 10c each.

Bleeding Heart. Blooms May to June. Height 2 feet. Flowers pink and white; heart shaped. A well known hardy perennial, producing its flowers freely in spring and early summer in graceful, drooping racemes, sometimes a foot in length. 35c each; 3 for \$1.00.

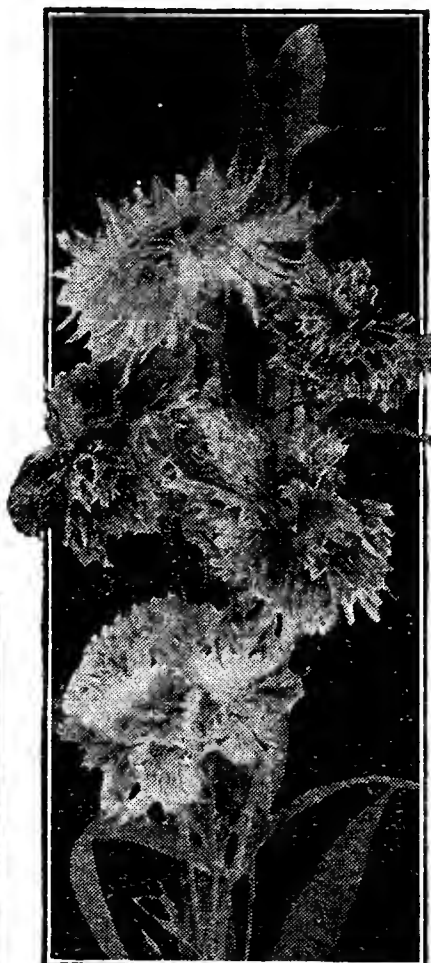

Bupthalmum (Ox-eye Daisy). Bears big yellow flowers. 10c each.

Coreopsis.

Canterbury Bells.

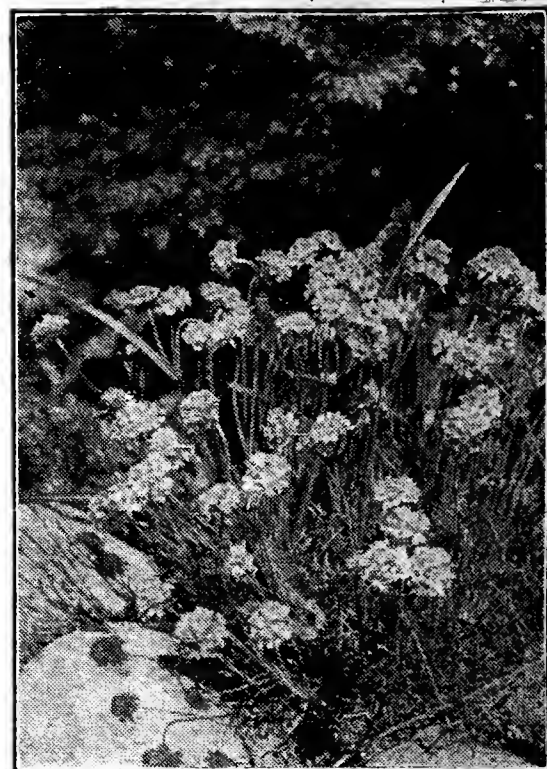

Chinese Pinks.

Delphinium chinense (Larkspur). A very pretty variety, with fine, feathery foliage and intense gentian-blue flowers in open panicles. 3 for 45c; doz., \$1.50; 100, \$10.00.

Delphinium chinense album (Larkspur). A pure white form of the above. 15c each; 10 for \$1.20.

Digitalis gloxiniaeflora (Fox-glove). A grand display of thimble-shaped flowers in immense spikes during July and August. Tall growing with large, rough foliage. Separate colors. White, Purple or Rose. 10c each.

Armeria Lauchiana.

Cerastium (Snow-in-Summer). Suitable for rock garden. White. 10c each.

Campanula. Cup and Saucer variety. Following colors: Blue, Pink, White, and Lilac. 10c each.

Canterbury Bells. In following colors: Lilac, Rose, and White. 10c each.

Cardinal Flower (Lobelia cardinals). Rich, fiery cardinal flowers. Strong plants, often producing 10 to 18 spikes, 24 to 30 inches long. 12c each.

Carnations. Everyone should have a few of these hardy carnations among their plants. We can furnish them in following colors: Red, Pink, White. Good well-rooted plants at 10c each.

Chinese Lantern Plant (Physalis Francheti). Very hardy perennial producing enormous orange-colored fruits. Very attractive in beds, or excellent for winter decoration. Each, 10c.

Chinese Pinks. Have both double and single blossoms to offer. 10c each.

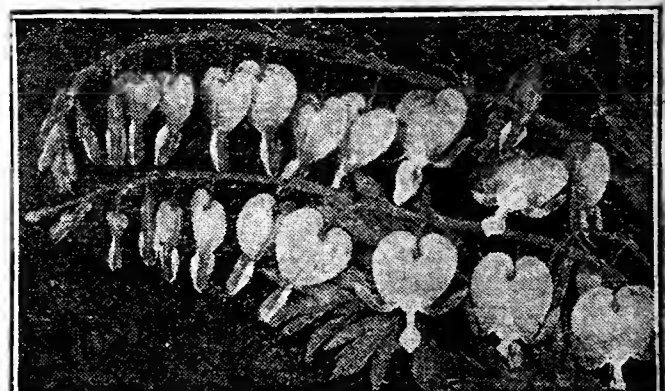

Coreopsis lanceolata grandiflora. 18 to 24 inches. The 2-inch, single terminal flowers are rich golden yellow, borne in great profusion nearly the entire summer on slender, wiry, upright stems. 10c each.

Dianthus barbatus (Sweet William). Great richness and variety of coloring; beautifully marked. Numerous broad, compact trusses of single flowers like phlox. Blood-Red, Giant White, Newport Pink, and Scarlet Beauty. 10c each.

Dianthus plumarius. Beautiful single and double flowers. 10c each.

Delphinium, Belladonna (Larkspur). 2 yr. Light sky blue. 12c each; 10 for \$1.00.

Delphinium, Bellamosa (Larkspur). A dark blue of the type of Belladonna with the color of the old Formosum variety, but not liable to mildew like the latter and of stronger growth. 2 yr. Dark blue. 12c each; 10 for \$1.00.

Bleeding Heart.

Allen's Plants are Hardier.

FLOWERING PLANTS—Continued

Gaillardia, Tangerine. A beautiful yellow Blanket Flower. 10c each.

Gaillardia, The Dazzler. Another new Blanket Flower. Red and gold. 10c each.

Gaillardia grandiflora (Blanket Flower). A hard center of deep maroon, is bordered by petals of orange and yellow, ringed by circles of crimson, red and maroon, 10c each.

Geum, Mrs. Bradshaw. Showy double crimson-scarlet. 12c each.

Gypsophila repens. A beautiful trailing plant for the rockery, with clouds of small, white and pink flowers in July and August. 10c each.

Gypsophila repens rosea. A pale pink-flowered form of the above variety; both lovely in the rock garden or in the dry wall. 10c each.

Gypsophila paniculata (Baby's Breath). 2½ to 3 ft. May-June. Tiny white flowers with slight pink coloring. Almost a mist of feathery bloom. Attractive and useful to "soften" stiff stem flowers in bouquets and desirable for drying for similar use in winter. 10c each.

Helianthus, Autumn Glow. Large, tall growing blossoms. 10c each.

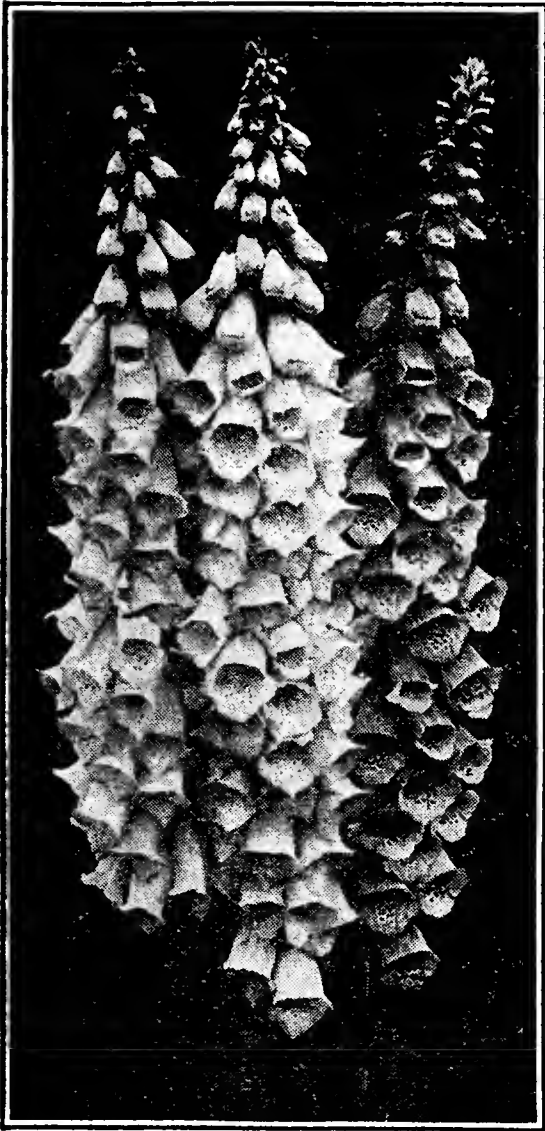

Helianthus Maximiliani (Hardy Sunflower). Immense single flowers, rich golden yellow, center reddish brown. Very dark green, lanceolate drooping foliage, late bloom. 5 to 7 ft., 10c each.

Hollyhocks. Double White, Maroon, Salmon, Newport Pink, Crimson, Rose, and Yellow. Any color. 10c each.

Lathyrus, Pink Beauty (Everlasting Sweet Pea). Large racemes of pleasing deep rose flowers. 10c each.

Lathyrus, Red. The well known red Everlasting Pea. 10c each.

Lathyrus, White Pearl. A great improvement on the older white variety, the stems giving from 12 to 15 flowers each. 10c each.

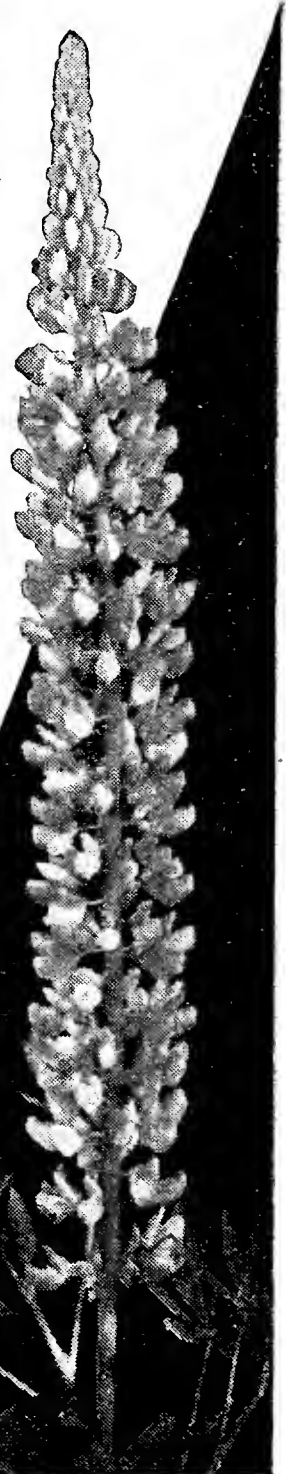

Digitalis.

Geum, Mrs. Bradshaw.

Oriental Poppies.

Lupine.

Linum perenne (Flax). Very attractive, both in foliage and bloom. Flowers beautiful pale blue on slender, graceful stems. 10c each.

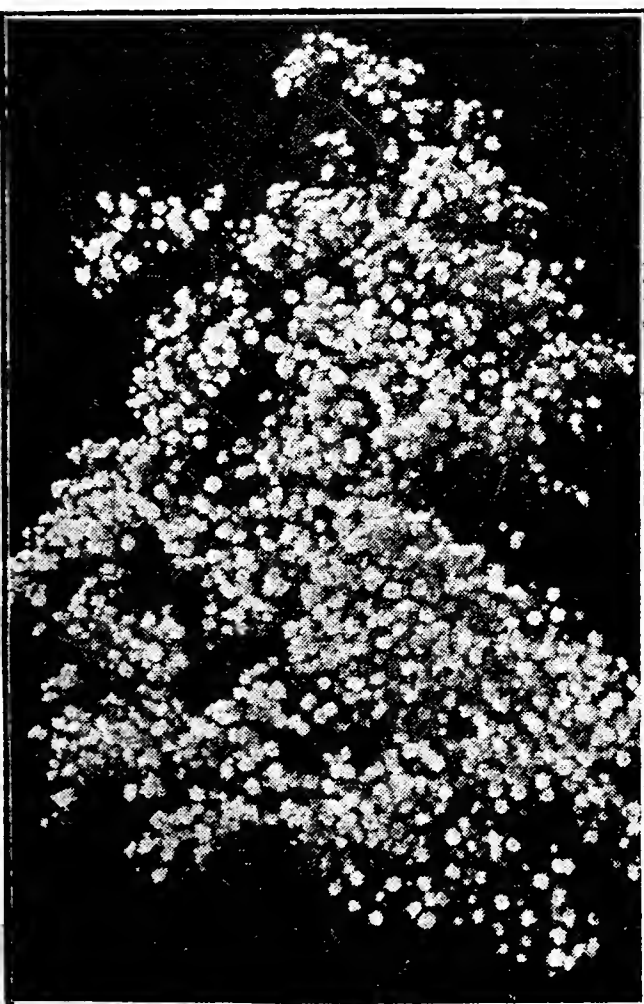

Linum perenne album. White form of the above, 10c each.

Lobelia (Indian Paintbrush). Handsome border plants thriving in any ordinary garden soil, but prefer a moist, deep loam. Season August till late September. 12c each.

Lupines. In following colors: Yellow, Lavender, and Rose. 10c each.

Lychnis. Fine old flower in 2 colors. White and Red. 10c each.

Giant Mallow Marvels. We have these wonderful plants in 3 colors to offer: Red, White, Pink, 2-yr. plants, 10c each.

Gypsophila.

Rock Garden Special

No. 1 plants.

All Perennials are Postpaid.

FLOWERING PLANTS—Continued.

"Oriental Poppy." With immense, flaming flowers of orange-scarlet, supreme color blotches among the prevailing greens of early spring. 12c each.

Pyrethrum hybridum (Painted Daisy). 2½ ft. A colorful garden show from June on throughout the summer, and also a charming cut flower. The flower construction varies from a full-petaled Anemone or Marguerite shape, to a larger size in plain single. Red, flesh and white colors. 12c each.

Salvia azurea grandiflora (Meadow Sage). A Rocky Mountain species of salvia, very pretty in August and September with its profusion of sky-blue flowers. 2 to 3 ft. 10c each.

Saponaria (Soapwort). Rockery plant, pure white blossom. 10c each.

Scabiosa caucasica (Blue Bonnet). Very showy, freely produced cut flowers, on stems 18 to 24 inches long. June-September. A soft lavender-blue. 10c each.

Shasta Daisy. This new type is one of the largest flowered, and is a splendid cut flower supply for Memorial Day. 10c each.

Silene Schafta (Catchfly). Rock plant, or for low border. 10c each.

Statice Perezii. Lilac flower, rockery or border plant. 10c each.

Tritoma Pfitzeri (Red Hot Poker). Rush-like foliage supports smooth thick flower stalks a yard long, with a single fiery cone at the top. Brilliant scarlet, the opened lower petals

Tritoma Pfitzeri.

rimmed with orange, July to September. A magnificent autumn cut flower. Mulch heavily for winter protection. 3 for 60c; doz., \$3.00; 100, \$22.00.

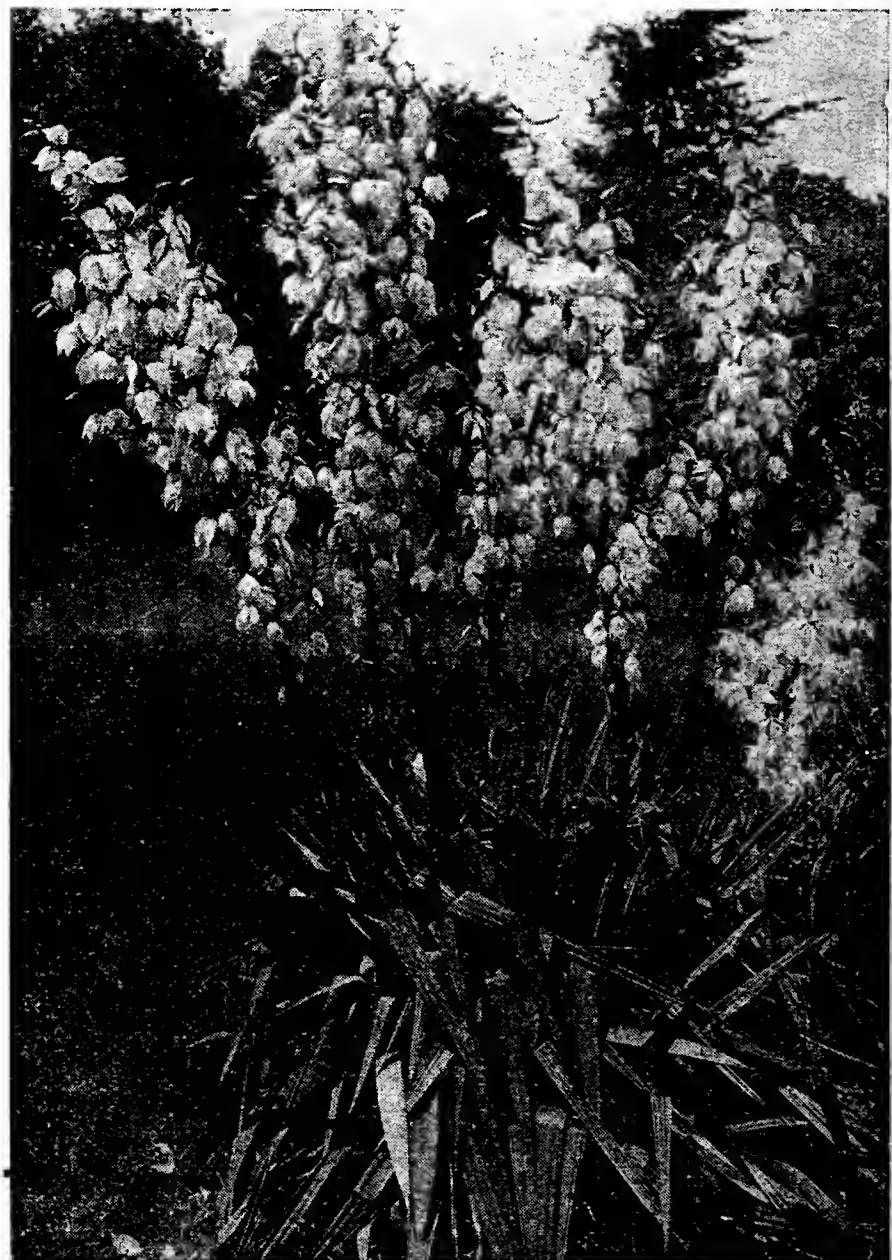

Viola, Admiration (Tufted Pansy). Velvety wine-purple. 10c each.

Viola, G. Wermig (Tufted Pansy). White. 10c each.

Yucca filamentosa (Adam's Needle or Spanish Bayonet). A stately foliage and flowering plant, always conspicuous. The broad, swordlike foliage is evergreen; supporting a showy display of pendent creamy white bells. 25c each; \$2.50 per doz.

Variegated Yucca

A member of the yucca family with variegated leaf, beautiful. A production of this locality especially adapted to planting along walk where cheap nice article is wanted. Will please you very much. No. 1 plants, 35c each.

Yucca Filamentosa.

Saponaria.

St. Aime, Que., March 17th., 1933.

Allen's Nursery & Seed House, Geneva, Ohio.
Dear Sirs:—

If you ship in Canada, will you please send me by return mail your nursery catalogue for 1933. In 1930, I bought from you some fruit trees that I planted here in St. Aime, Que., all of them have been doing splendidly, and some of them have been bearing last year. I would like to get some more of your fruit trees.

Yours truly,
A. D. W. Lamoureaux.

Plant a Permanent Garden With Perennials.

SEED DEPARTMENT

Wm. A. Allen, Jr., Department Manager.

Our Seed Trade is entirely through this catalog. It is the only agent we employ. We send out no seeds to be sold again on commission, but deal direct with the planters; thus devoting all our resources to supplying them with the best and finest stocks obtainable at the lowest reasonable cost. The substantial increase in business each year rewards our policy, and proves that our seeds are meeting the requirements of particular planters.

About Prices. At prices named, all seeds you may order in packets, ounces, half-pounds, pounds or 2 pounds, will be delivered by mail, postpaid.

Unless noted, all other quantities larger than 2 pounds will be sent at purchaser's expense, whether by mail, express or freight.

Guarantee of Genuineness. While we exercise great diligence and care to have all our seeds true to name, and hold ourselves in readiness, on proper proof, to replace free of charge all seed that may prove untrue to name, or refund the amount paid; it is mutually understood and agreed to between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said seeds that prove untrue.

Allen's Nursery & Seed House.

Vegetable Seeds

Asparagus

Mary Washington. We are pleased to be able to offer seed of this new American strain of giant Asparagus. It is the first result of a plant-breeding campaign started by the United States Department of Agriculture to produce a rust-resistant Asparagus. Rust-resistant and vigorous plants selected from thousands have been crossed with a single male plant "Washington" and most careful re-selection practiced. Grown on our own farms from seed sent us by the U. S. Department of Agriculture. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 65c.

Beans

Prices on all beans unless otherwise mentioned ¼ lb., 10c; ½ lb., 15c; 1 lb., 25c; 1 pk., \$2.50; 1 bu., \$9.50. (Lima Beans excepted). Peck and bushel prices by express, others postpaid.

Our bean crop this season was the finest we ever grew and we can quote prices on car lots. We will duplicate prices of any reliable seed house.

When you purchase beans by the pint you get 14 ounces. We give you 1 lb. or 16 ozs. and pay the postage.

Bountiful Beans.

Wax or Yellow Podded

Currier's Rust Proof. A very good wax bean of rust-resisting qualities, good keeper, fine shipper, generally satisfactory.

Davis White Wax. This bean is adapted alike for the canner, market gardener, shipper or amateur. The dry bean is large, kidney shaped and white in color, making it one of the best for cooking in a dry state. Pods are long, meaty, flat in shape and of a beautiful yellow color and fair quality.

Rogers' Improved Kidney Wax. Rich, creamy white, slender, oval pods, 5 to 6 inches in length, free from rust, perfect shape and entirely stringless. Seed white in color with black eye. Plant grows robust, 18 inches in height, erect, bushy and very prolific. We know of no wax bean that is more desirable for home garden. Wonderful new bean, which has but recently been put on the market.

Round Pod Kidney Wax. A bean of superb quality, very tender, entirely stringless, makes vigorous growth, beans nearly white. One of the best for string beans.

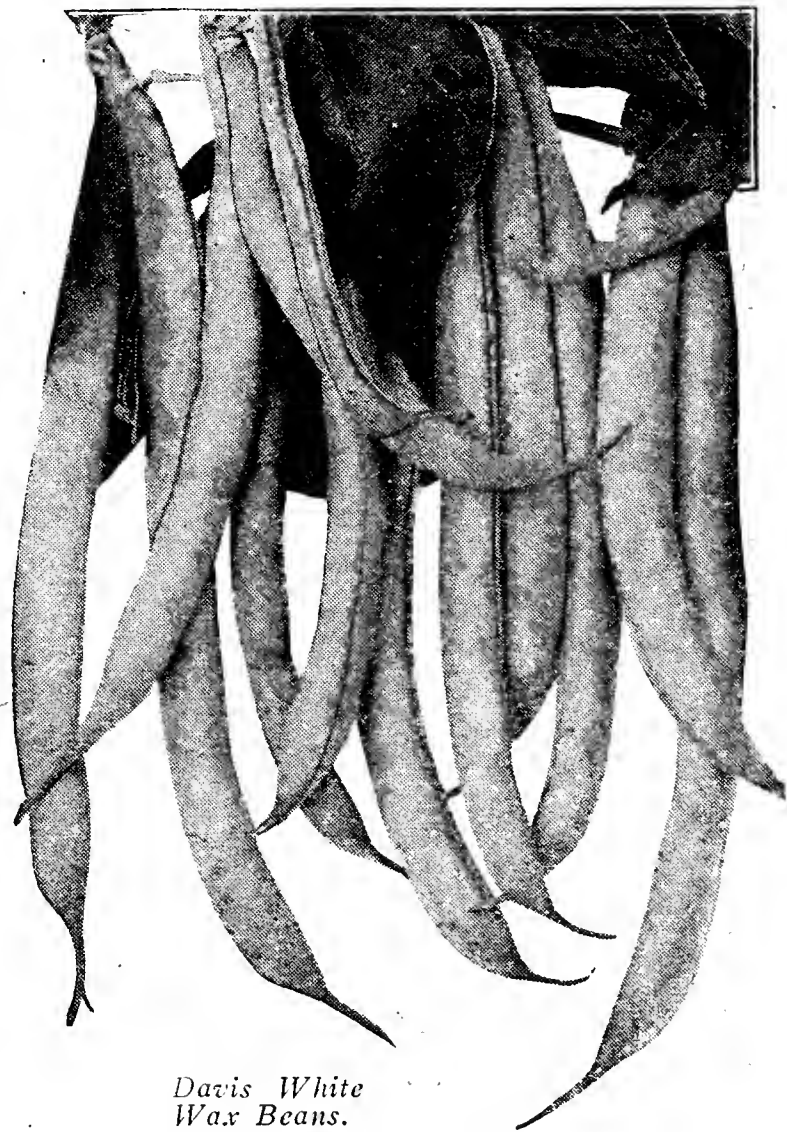

Wardwell's Kidney Wax. This gives general satisfaction everywhere and is one of the best and earliest. On account of its hardness it can be planted earlier than any other wax bean; yellow pods, fine flavored and brittle, best for home or market.

Green Podded Varieties

Bountiful. A new green pod variety. Superior quality, productive and early. Bears early and stays edible through a long season; pods often 6 inches long. A good variety for market gardeners.

Burpee's Stringless. This variety claims considerable attention in recent years, due to its fine combination of good qualities.

Extra Early Red Valentine. Pods round and fleshy, almost stringless. Hardy growers of a big crop. 10 days earlier than the old Valentines.

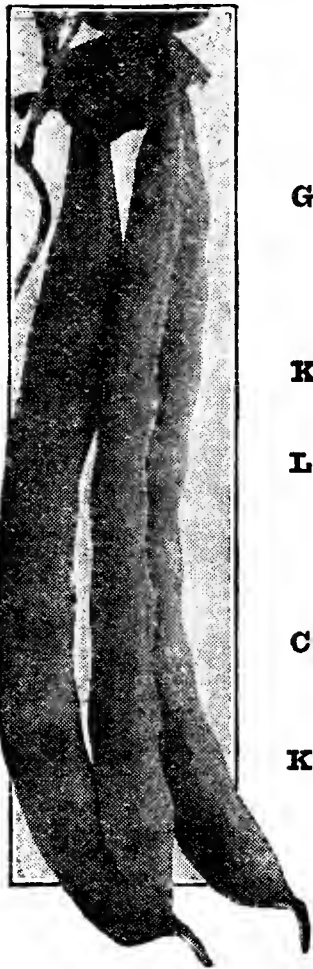

Davis White Wax Beans.

Prices Quoted are Postage Paid; Guaranteed Safe Arrival to Your Mail Box.

BEANS—Continued

Pole Beans

Lazy Wife Beans.

Giant French Wax. A recent introduction from France. This wax bean has proved in the United States to be all there is claimed for it. Giant in production of large pods, 8 inches long, of a beautiful transparent golden color. Will grow 8 ft. high and are simply loaded down with immense loads of pods filled with a large quantity of fine beans. A basket filler of pods or shelled beans. We believe this bean will be planted more than all others as soon as better known. Demands good soil.

Kentucky Wonder. This is surely stringless, pod 7 inches long, full of large, fine beans. Good dry or green, if gathered will continue to set a large crop until frost. Should be in everyone's garden.

Lazy Wife. This bean is surely a wonder in production and lasting qualities, gives general satisfaction. Everyone who saw this bean last year was immensely pleased and there is sure to be a good trade on this bean.

Pole Limas

Carpinteria. A new early variety, which bears abundantly, with 3 to 5 large, meaty beans to the pod. These are of rarest flavor and quality, retaining their distinguishing green color even after being dried. We would say this sort is one of the very best. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 30c.

King of the Garden Lima. The old standard market and family sort. The vine begins to produce pods at the foot of the pole, and the bearing season continues until frost. Pods are large and well filled with beans of mammoth size. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 30c.

Bush Limas

Burpee's Improved Bush Lima. This is a good early one. Pods 5 to 6 inches long and full of beans of finest quality. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 30c; 10 lbs., \$2.50; 100 lbs., \$20.00.

Fordhook Bush Lima. An ideal bushy growth with upright stem and branches. Enormous bearer of thick meaty beans of excellent quality. Early and the most productive of the Limas. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 16c; 1 lb., 30c; 10 lbs., \$2.50; 100 lbs., \$22.00.

Field Seed Beans

There were a great many beans planted last season, but the early frost caught the large planters' beans when they were not ripe, consequently there is a shortage in the bean crop and high prices; in fact, it does not make any difference how big a crop is raised. The prices will be high for a number of years.

Hand picked Marrow. Per lb., postpaid15c. By express10c
Hand picked Navy Per lb., postpaid12c. By express10c
Hand picked Kidney. Per lb., postpaid15c. By express10c

Beets

Our beet seed is of the best carefully selected stock and true to name. Prices on all beets: $\frac{1}{2}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 20c; 1 lb., 65c.

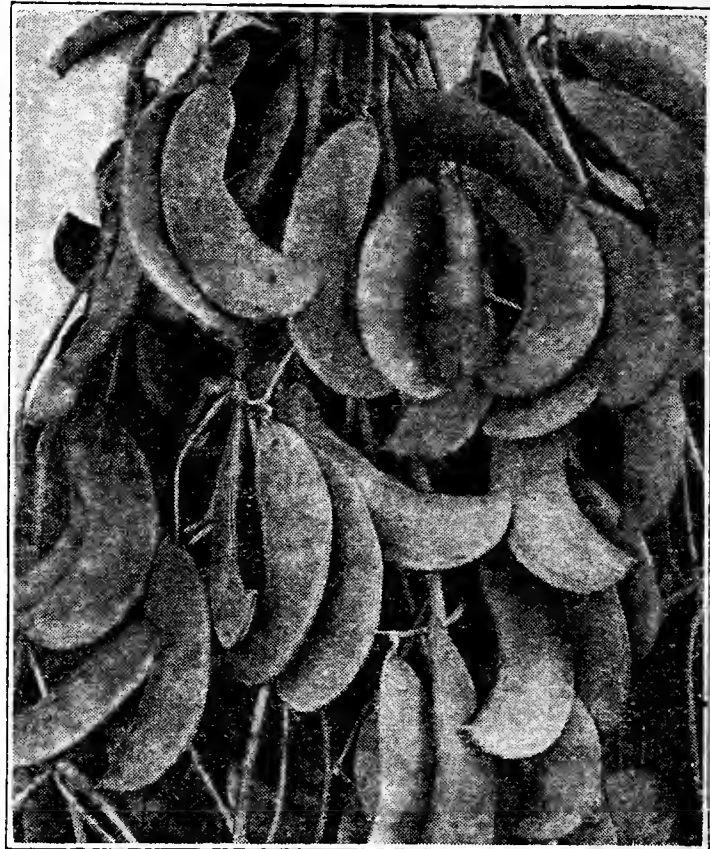

Allen's Select. Several years ago we noticed in a bed of Crosby's Egyptian, a beet that grew faster and larger, and matured earlier than the rest. After carefully testing and saving the seed, we became convinced that this beet is not only of commercial value, but deserves trial by all lovers of beets. It is globular in shape, dark red color, fine flavored and a good keeper. Ripens early, excellent for greens. We can spare only a limited quantity of this seed.

Crimson Globe. From England and still one of the best globe-shaped beets. Can be marketed early.

Crosby's Egyptian Improved. A quick grower, best quality, good for forcing in- or out-of-doors. Roundish, well colored, a favorite with market gardeners in this section. Our seed is fresh and will satisfy.

Detroit Dark Red. Small tops, can be placed closer than some. Very sweet, fine for table use.

Eclipse. Early and smooth, roundish, good quality. Can't be beat.

Carpinteria Pole Lima Beans.

Mangel Wurzel

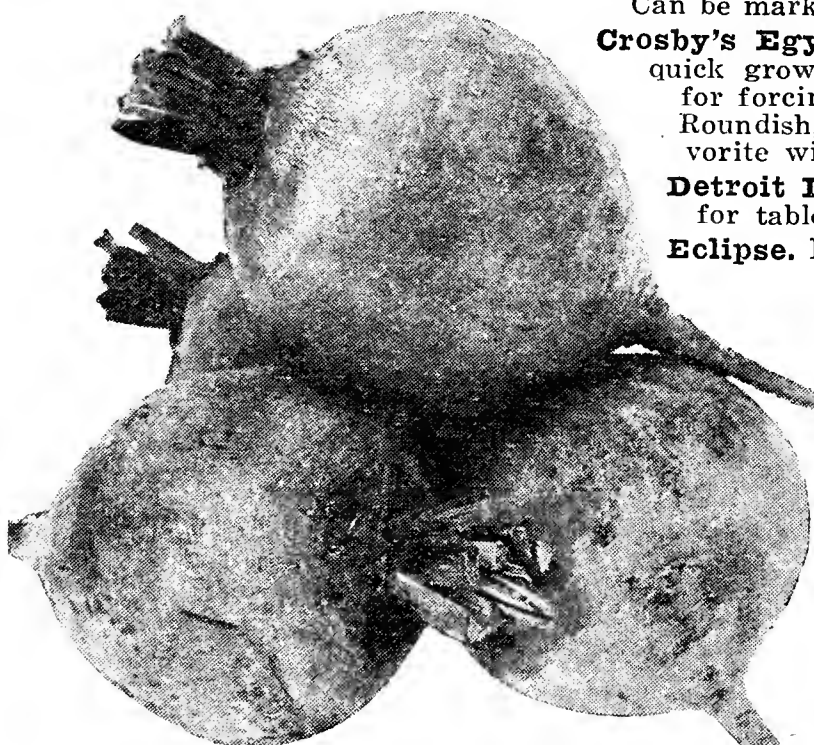

Golden Tankard. A big cropper of long, round shape, skin golden yellow. Claimed to contain more sugar and richness than any other. $\frac{1}{2}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 20c; 1 lb., 60c.

Mammoth Long Red. Grows to an immense size in good soil, has yield of 1,400 to 2,000 bushels per acre. Every farmer should grow $\frac{1}{4}$ acre of these for his hogs, chickens, cows or any stock. This is our largest seller and always satisfies. $\frac{1}{2}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 20c; 1 lb., 60c; 5 lbs \$2.50.

Sugar Beets

Our Sugar Beet Seed is grown by an expert in the heart of the sugar beet district of Michigan and we feel that no one can place a finer or fresher article, for near this price, on the market. He grows beets for the sugar factory himself and knows the necessity of good, pure seed.

Klein Wanzleben. The most cultivated and probably the best heavy yielder. $\frac{1}{2}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 15c; 1 lb., 50c.

Crosby's Egyptian Improved Beets.

Prices Quoted are Postage Paid; Guaranteed Safe Arrival to Your Mail Box.

VEGETABLE SEEDS—Continued

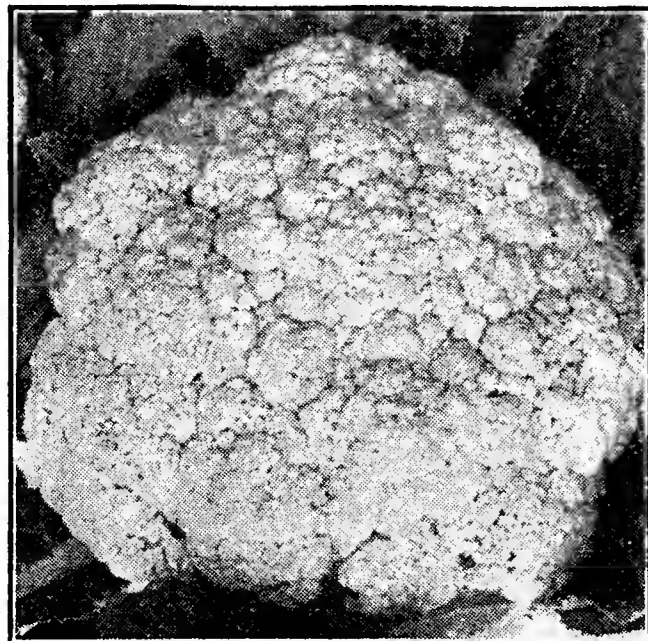

Allen's Guaranteed Cabbage

Finest Holland Grown Seed

After careful investigation and trials, we have found that Holland Grown Cabbage Seed not only is free from all diseases of the root, but produces better heads, a heavier crop and more uniform fields than we formerly had with our home grown seed.

Prices on all Cabbage: ¼ oz., 5c; 1 oz., 20c; ¼ lb., 50c; 1 lb., \$1.75.

Copenhagen Market. Here is an early, round headed cabbage equaling Jersey Wakefield for earliness, light green leaves and remarkable solid head that will mature about the same time.

Allen's White Surehead Cauliflower.

Cauliflower

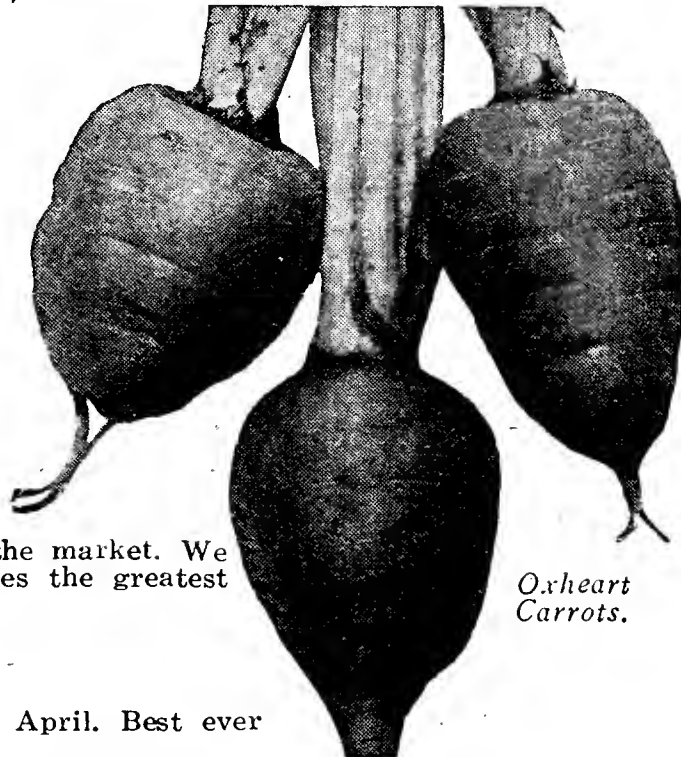

Genuine High Class Holland Grown. Remember 1 oz. of Cauliflower seed makes 1,500 to 2,000 plants.

Allen's White Surehead. An improved Snowball of best quality, an excellent variety, good header in dry weather, and does well in all climates. 1/10 oz., 10c; ¼ oz., 30c; 1 oz., \$1.00; ¼ lb., \$3.50.

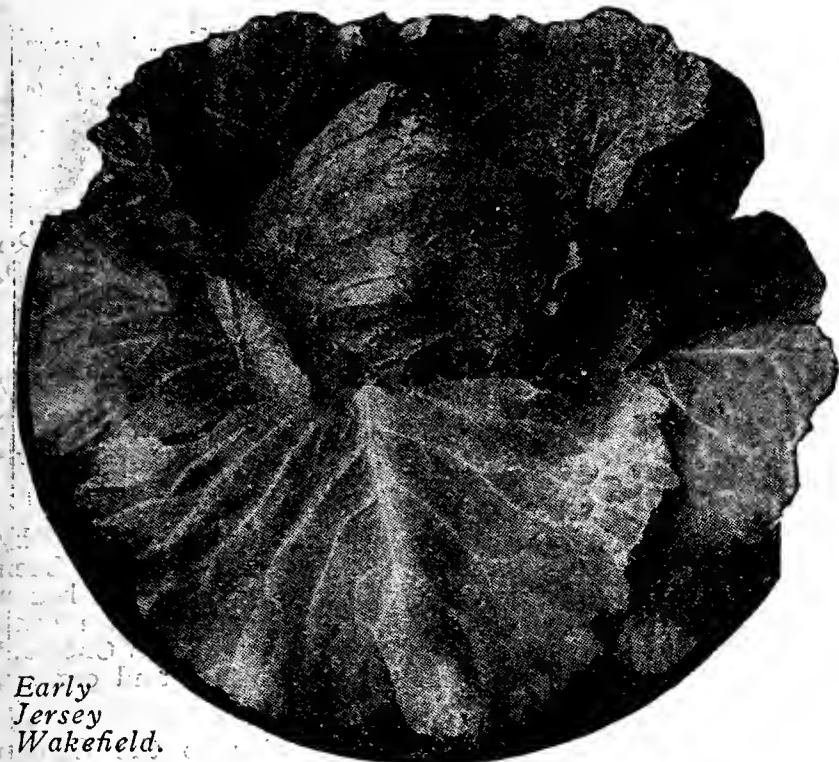

Sluis' Ideal Early Snowball. Very early and one of the surest to head. If seed is sown in March will be ready for use in June. Dwarf grower with good size heads, valuable for late planting as well as early. 1/10 oz., 10c; ¼ oz., 30c; 1 oz., \$1.00; ¼ lb., \$3.50.

Broccoli

Italian Green. This plant is similar to cauliflower in table use, only it has a large green head. Postpaid, 1/6 oz., 5c; 1 oz., 30c.

Oxheart Carrots.

Early Jersey Wakefield.

This is just what market gardeners are after.

Danish Ballhead. The heads are of medium size to large, fine white color, thick meated and can be kept all winter. One of the best market sorts.

Early Flat Dutch. One of the most desirable second early varieties, maturing a good flat head.

Early Jersey Wakefield. From selected stock. This is a market favorite as well as a fine early cabbage for summer use. Grows quickly and cooks tender.

Glory of Enkhuizen. Has become a great favorite very quickly; early round headed; dark green heads of medium size but of best quality.

Golden Acre Cabbage. A small but very fine variety, as early as Jersey Wakefield but with round, solid heads. The few outer leaves are small, permitting close planting and making the type a very suitable one, both for growth under glass and for the suburban gardener. Golden Acre produces uniform, tightly folded and well-blanching heads of the best mild table quality.

Improved American Savoy. The Savoy cabbages deserve to be better known in America. They are large and of excellent flavor.

Lightning Express. The earliest cabbage grown. Will mature 10 days sooner, we believe, than any other cabbage. Better try this.

Old Standard Giant Red Ballhead. Best red, similar to Danish Ballhead but for color.

Premium Flat Dutch. Highly valued everywhere where cabbage is grown.

Volga or Stonehead. Larger than Danish Ballhead, matures more perfect cabbage on an acre of the poorest ground we ever saw, keeps longest in winter. We know you will like this cabbage.

Carrots

Prices on all Carrots; ½ oz., 5c; 1 oz., 10c; ¼ lb., 25c; 1 lb., 85c.

Chantenay. Like Oxheart, but larger, deep orange. We like this for table use, best half-long variety.

Improved Long Orange.

Improved Danvers. A standard market sort. Fine for table use, a rich orange. 6 to 8 inches long, 2½ inches thick. Very productive.

Improved Long Orange. Standard late sort. Immense producer of long carrots; good keeper; demands deep soil.

Improved Nantes. (65 days). Half-long, almost cylindrical, blunt end and very small tap root. Flesh fine grained, with very little core, the skin orange, and very smooth; one of the best table sorts.

Improved White Belgian. This is the universal stock Carrot of Belgium. Dairymen prize it for its great amount of saccharine; immensely productive. There is no vegetable grown that will produce the amount of feed and is so much relished by all kinds of stock. Good keeper.

Oxheart. Forms a thick root 3 to 4 inches in diameter, and produces large crops. Some report growing 800 bushels to the acre.

New Early Coreless. Rich Solid Flesh of Finest Quality—The Roots Are Very Uniform in Shape, Size and Color. An early variety of superior flavor and without any core, highly recommended for market and home use as it is the best Carrot for general crop; it is of a rich orange color, a very heavy yielder and splendid keeper. The roots grow about 8 inches long, taper uniformly to a blunt point. The flesh is deep orange-red, tender and of good quality. It is a first class Carrot for all kinds of soil, valuable for both table use and stock. Grown extensively by market gardeners for bunching and makes a handsome appearance on the market. We have an extra fine strain of this favorite sort which gives the greatest satisfaction to our customers.

Brussels Sprouts

Sluis' Big Crop. The only good one; new. Plant seed in April. Best ever originated. Postpaid, 1/3 oz., 5c; 1 oz., 10c; ¼ lb., 50c.

Prices Quoted are Postage Paid; Guaranteed Safe Arrival to Your Mail Box.

VEGETABLE SEEDS—Continued

Sweet Corn

Prices quoted include postage on pound and fractions.

Seed is very scarce and prices are, on all varieties: $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 25c. Via express, 10 lbs., \$2.00; 25 lbs., \$3.75; 100 lbs., \$12.00.

Larger quantities a matter of correspondence.

Our Seed Sweet Corn is carefully selected seed with ends carefully taken off and only best ears saved, is dried and cared for so as to guarantee a perfect stand of uniform Corn. In 10-lb. and 25-lb. lots, by mail postage paid, extra.

Allen's Choice. Or an improved Malakhoff which was brought to this country by the U. S. government from Russia, and was the earliest Corn ever grown. Has been grown by a local market gardener and carefully selected by him until he has a distinct variety of the Malakhoff of his own. After careful inspection we have made arrangements to supply our trade with this corn, calling it "Allen's Choice." Not only the sweetest early Corn but the largest early Corn, better and earlier by far, than Peep o' Day.

Barden's Wonder Bantam. A beautiful yellow Corn, superior to the Golden Bantam, both in size and in quality. Stalk grows from 5 to 6 ft. high, ears 8 to 10 inches in length. As early as the Golden Bantam. It is a variety that is worthy of a trial by any market gardener, canner or garden maker. We consider it by our trial to be the best improved Golden Bantam yet put on the market. You will be getting both size and quality in this Corn, which took Mr. Barden 5 years to perfect and put on the market.

Burbank Bantam. The Burbank corn grows on a stalk about five feet tall and has ears well filled with grains that are of a deep yellow color and from twelve to sixteen rows on the cob. The ears are larger around and longer than the old type of Golden Bantam.

Country Gentleman. A well known and deserving old sort that has always been very popular, due to its large, compact ears of irregular rows.

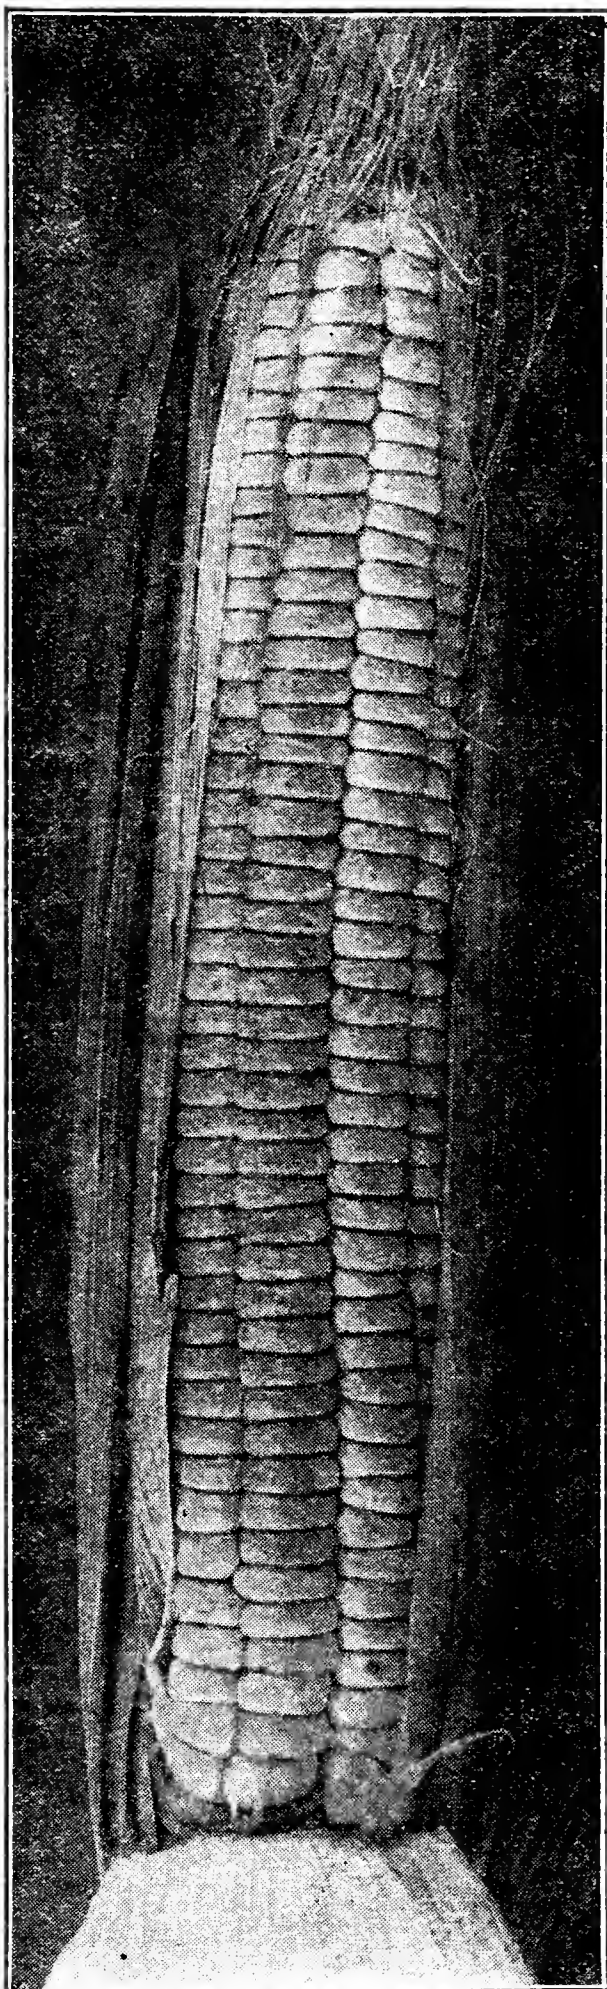

De Lue's Golden Giant Sugar Corn. The famous winner of many horticultural prizes. This is no fake variety, it is exactly what the gardener has been looking for. Of even better quality than Golden Bantam, will yield twice as much per acre as the Golden Bantam, larger eared and larger stalk, making it the most productive and the best yellow Sweet Corn in existence. We have purchased a limited quantity of this seed from the originator who stands back of the above description. This we offer in limited quantities.

Golden Bantam. This is a Sweet Corn of most exquisite quality, which when ready to use is of a bright golden yellow color. It looks rich and is rich and no mistake. It can be planted very early, as it is as hardy as the Extra Early Adams. The small stalks can grow closely together in the row and will produce 2 or 3 ears each.

Golden Alpha. A new yellow variety, formed from a careful cross and selection from Barden's Wonder Bantam and Ferry Alpha, the earliest white corn. Golden Alpha combines all the desirable qualities of Ferry Alpha with an appealing golden yellow color. The ears are 6 to 8 in. long, cylindrical and uniformly eight rowed. Stalks more sturdy and vigorous than the parent Alpha.

Golden Sunshine. (50 days). Blue skies and sunshine have combined their divinely guided chemistry to produce the nectar-like sweetness of this delicious golden corn. The ears are compact, about same size as Golden Bantam, but more refined in appearance, having from 10 to 12 rows of grains instead of 8 as Golden Bantam. It is a very rapid grower, and the earliest of the golden group.

Stowell's Evergreen. Known everywhere. An old one but still king of the latest, considering everything.

The New Golden Alpha.

Chicory

Resembles Parsnips, root when dried makes a good substitute for coffee, or when mixed, adds a mild pleasant flavor. $\frac{1}{2}$ oz., 5c.

Corn Salad

Large, round leaved, used during winter for lettuce, or cook like spinach. $\frac{1}{2}$ oz., 5c.

Cress

Water Cress. An improved Cress. Grows in ponds and streams. $\frac{1}{4}$ oz., 10c.

Celery

Nothing is harder to please a customer with than Celery seed. To overcome this we are aiming to bring each variety to a perfect standard as our other "Guaranteed Seeds" and to those who have never used our seeds, we can only ask a trial on our Celery seeds and let your future seed orders be governed by the results.

Giant Pascal. One of the best on the market. It produces perfect branched stalks, 2 ft. long, crisp and thick, blanches early and easily, fine keeper and shipper. $\frac{1}{4}$ oz., 10c; 1 oz., 15c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.45.

Golden Self-Blanching. A great self-blanching variety, easily marketed and a great keeper, of fine quality and has just enough of the nutty flavor that makes Celery popular for flavoring and eating. $\frac{1}{4}$ oz., 10c; $\frac{1}{2}$ oz., 20c; 1 oz., 30c.

Giant Pascal Celery.

Prices Quoted are Postage Paid; Guaranteed Safe Arrival to Your Mail Box.

VEGETABLE SEEDS—Continued

Cucumbers

On no seed can you gain more by buying our way than you can on Cucumber and other vine plants. You gain almost ten times as much by buying by the ounce and pound as by the old style package. There is a secret in keeping this seed so it will germinate and gain from 6 to 10 days in growing maturity, and a trial of our seed, side by side with any other seed will convince you.

Prices on all Cucumbers: ½ oz., 5c; 1 oz., 8c; ¼ lb., 30c; 1 lb., \$1.00.

Arlington White Spine. One of the most profitable of the white spines. It is the leading variety in many eastern markets.

Black Diamond. Same as the Kirby or Stays Green. It produces fruits about eight inches in length, cylindrical, blunt ends and with an intense dark green color. Extremely productive and early, those being the chief qualities.

Boston Pickler. A good one, general favorite in the eastern markets. One of our best sellers.

Chicago Pickling. A big favorite at pickling works, grows the fruit in bunches, a regular mass of blooms and pickles when gathered daily.

Clark's Special. About ten inches in length, white spine with tapering ends and it also has an exceptionally dark green color. It is somewhat later and not so prolific as the Black Diamond. For a shipping cucumber it can hardly be surpassed because of its ability to hold its color.

Davis Perfect. This is King of Cucumbers, largest, a heavy bearer of perfect salable fruit, becoming known everywhere and a general favorite.

Early Fortune. Rich, dark green color, 7 to 8 inches long when left for slicing, good shipper and market sort, few seeds and equally as good for pickles as for slicing. Very resistant to disease. One of the best sorts.

Early White Spine. A good crisp one, early to mature. A general favorite as an early variety, widely planted for pickling factories, etc.

Fordhook Famous. Strong grower and very productive, does not blight; makes good pickles; grows from 12 to 15 inches, very tender and crisp, practically spineless.

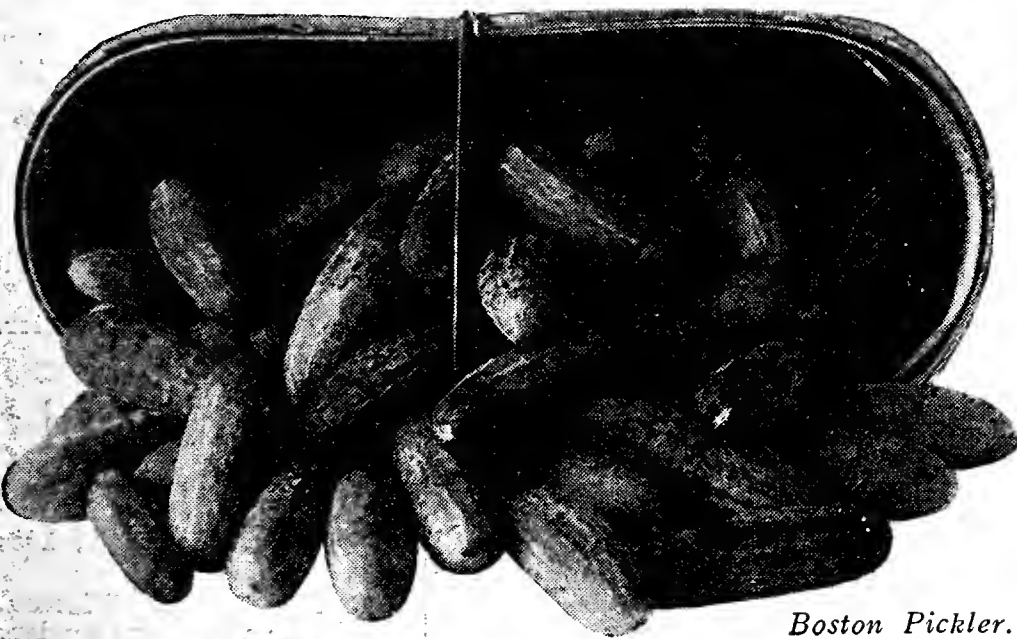

London Long Green. This is by far the best long green variety. 12 to 16 inches long, of a superior quality. The young fruit is best for pickling and when matured is fine for sweet pickles; a good slicer.

Short Green. Similar to Long Green but matures earlier; shorter. Great favorite for picklers and market.

Vaughan or Longfellow. This is as much in advance over the Davis Perfect variety as the "Davis" was over the old extra Long White Spine sorts. Compared to the other Long White Spine varieties it is much darker in color, more uniform in shape and size, thinner, and more prolific. It is the ideal American forcing variety, as well as an outdoor sort. Our customers who grow it have greenhouse Cucumbers raised outdoors. J. C. Robinson of Waterloo, Nebraska, writes: "We have tried the Vaughan Cucumber out for 2 years in our trials. It certainly will displace most other kinds, in our opinion."

Black Diamond Cucumber.

Boston Pickler.

Swiss Chard

Lucullus. This is so far the best, we feel that there is no use offering any others. The leaves and stalks are very tender, making best of greens. ½ oz., 5c; 1 oz., 10c; ¼ lb., 20c; 1 lb., 75c.

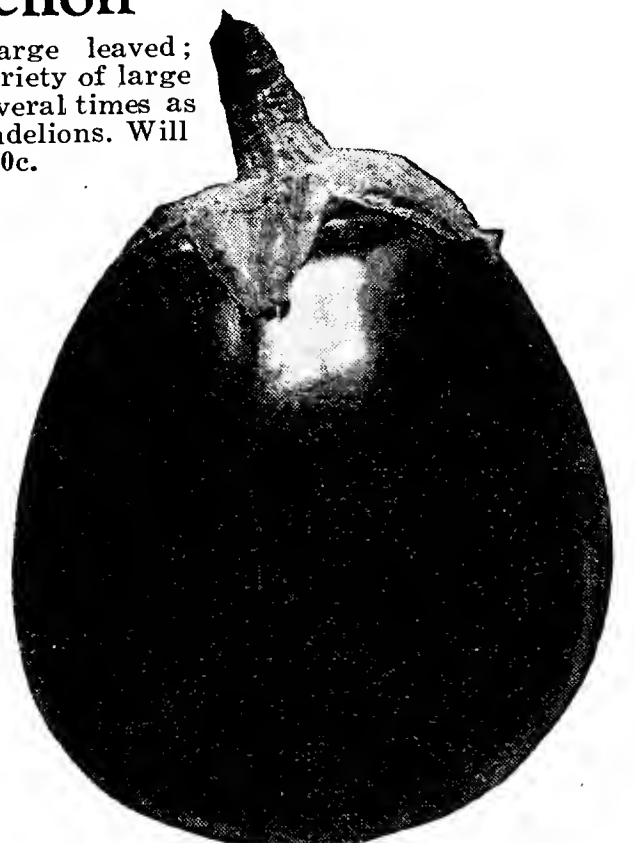

Dandelion

Improved, large leaved; an imported variety of large size, makes several times as many greens per plant as the common Dandelions. Will supply itself after first planting. ¼ oz., 10c.

Eggplant

Black Beauty. Early, large and productive, deep color and gives general satisfaction. Easy to grow. ⅛ oz., 5c; ½ oz., 15c; 1 oz., 30c; ¼ lb., \$1.00.

New York Spineless. Is a great improvement over the old time Eggplant. Deep purple, of large size, highest quality. ⅛ oz., 5c; ½ oz., 15c; 1 oz., 30c; ¼ lb., \$1.00.

Black Beauty Eggplant.

Endive

Endive is one of the best salads for fall and winter use.

White or Moss Curled. Fine quality, beautifully curled. ½ oz., 5c; 1 oz., 10c; ¼ lb., 25c.

Green Curled. Very hardy, dark green. ½ oz., 5c; oz., 10c; ¼ lb., 25c.

Broad Leaved Batavian (Escarolle). ½ oz., 5c; 1 oz., 10c; ¼ lb., 25c.

Swiss Chard, Lucullus.

Prices Quoted are Postage Paid; Guaranteed Safe Arrival to Your Mail Box.

VEGETABLE SEEDS—Continued

Lettuce

We take great pains in having Lettuce Seed pure and all plants showing a difference are taken out. We believe that market gardeners will make no mistake in giving our seed a trial. It is fresh and ready to start like all of our "Guaranteed Seeds."

Prices on all varieties of Lettuce: $\frac{1}{8}$ oz., 5c; 1 oz., 15c; $\frac{1}{4}$ lb., 30c; 1 lb., \$1.00.

Big Boston, Selected Stock. With gardeners who ship north, many of whom plant our seeds exclusively, this is the most popular; the best early, large heading sort, a valuable first early. Plants are vigorous, mature heads of bright green leaves which are very tender.

Black Seeded Simpson. This is not a head Lettuce, but spreads a mass of curled leaves around over the ground. It is excellent and a favorite with many.

Big Boston Lettuce.

Early Prizehead. This old standard variety is still the best of the large, thin-leaved, clustering sorts for the home garden, but is not a good kind to ship a long distance as the leaves are so tender they are easily spoiled in handling. The leaves are very crimped, bright green tinged with brownish red and are exceedingly tender, crisp and sweet, forming a large loose head.

Grand Rapids, Ashtabula Strain. This strain of Lettuce has been famous in all the leading cities for its crisp appearance after its long shipments, rapid growth in greenhouse or hotbed makes it the highest sought after by all growers of Lettuce. Our strain is 99 per cent pure and is being used by leading greenhouse men.

Hanson. Probably the largest variety in cultivation, a rapid grower, crisp and tender. Stands a long season without becoming tough.

Iceberg. Very solid, compact heads. Fine flavor and crisp, one of the best headed varieties. From what we have seen of this we believe there is none better.

May King. One of the first to mature for the table and a good one.

New York. Crisp and dark green. One of the earliest sorts, ranks better than Big Boston. This Lettuce is one of the very best to grow for home gardens. A new sort, but we are offering it in limited amount.

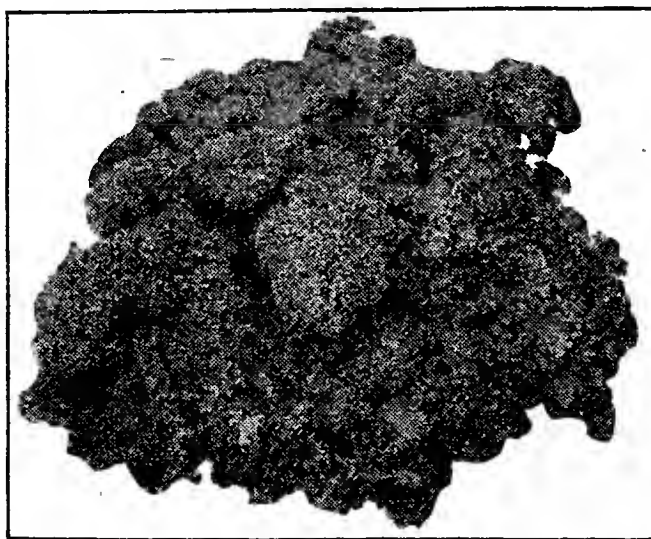

Simpson's Early Curled. Does not head, but forms a compact mass of curly leaves of yellowish green color. It matures early, generally grown in cold frame and as an outside crop.

Mixed Lettuce Seed. So as to give variety.

Kale

(Or Borecole)

Dwarf Green Curled Scotch. The best variety. Improves in winter. Green and beautiful. $\frac{1}{2}$ oz., 5c; 1 oz., 8c.

Dwarf Green Curled Scotch Kale.

Kohl-rabi

Or Turnip-Rooted Cabbage

$\frac{1}{4}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 35c.

Early White Vienna. Flesh white and tender; used before fully grown.

Early Purple Vienna. Same except color.

Leek

Broad American Flag. Best. $\frac{1}{2}$ oz., 5c.

Broad American Flag Leek.

Herbs

Sweet and Medicinal

These imported from Germany.

No garden is complete without herbs for medicinal and culinary purposes. Cut when dry, just before they are in full bloom. Dry quickly in the shade and pack closely in tight boxes.

Anise. Seeds aromatic and medicinal. Pkt., 5c; 1 oz., 20c.

***Balm.** Used for tea; medicinal. Pkt., 5c; 1 oz., 20c.

***Caraway.** Seeds used in cakes and candy. Pkt., 5c; 1 oz., 20c.

Coriander. Seeds used for confectionery. Pkt., 5c; 1 oz., 20c.

Dill. Seed aromatic. Pkt., 5c; 1 oz., 10c.

***Fennel, Sweet.** Seeds aromatic. Pkt., 5c; 1 oz., 10c.

Horehound. Medicinal. Pkt., 5c; 1 oz., 25c.

***Lavender.** Aromatic, medicinal. Pkt., 5c; 1 oz., 25c.

Marjoram. Used for seasoning. Pkt., 5c; 1 oz., 20c.

***Rosemary.** Aromatic seasoning. Pkt., 5c; 1 oz., 10c.

***Sage.** Seasoning and medicinal. Pkt., 5c; 1 oz., 15c; $\frac{1}{4}$ lb., 30c.

Summer Savory. Seasoning. Pkt., 5c; 1 oz., 20c.

Sweet Basil. Seasoning. Pkt., 5c; 1 oz., 15c.

***Tansy.** For medicinal purposes. Pkt., 5c; 1 oz., 20c.

***Thyme.** Use, seasoning and medicinal. Pkt., 10c; 1 oz., 30c.

***Wormwood.** Medicinal. Pkt., 5c; $\frac{1}{2}$ oz., 15c.

Those marked (*) are perennial and when once established will remain for years with little care.

Thyme.

Prices Quoted are Postage Paid; Guaranteed Safe Arrival to Your Mail Box.

VEGETABLE SEED—Continued

Muskmelon

The general satisfaction that our Melon Seed gave last season again proves the superior quality of our Melon Seed. For years this seed has stood the test of the most critical planters in the United States until today we are leaders in this line.

Prices on all Muskmelons: ½ oz., 5c; 1 oz., 10c; ¼ lb., 25c; 1 lb., 80c.

Bender (Bender's Surprise). A very popular melon in eastern markets. Flesh is deep orange, thick, and deliciously flavored; rind is light green changing to golden tint when ripe, heavily ribbed and netted. Later than Irondequoit and more oblong in shape. The melons are uniformly large, often weighing from 8 to 10 pounds, with superior shipping and keeping qualities. The next best substitute for genuine Irondequoit.

Early Hackensack. Very early, green flesh, sweet, of good size, juicy, small seed space, good market melon.

Emerald Gem. Old standard, smooth skin, salmon color flesh, very sweet, hardy, thrifty and prolific.

Hale's Best. The earliest maturing of all large melons. Even in a season remarkable for its coolness the fruits matured to luscious sweetness in 68 days after planting. The melons are oval but inclined to produce some fruit of somewhat more elongated shape. The popularity of Hale's Best is due not only to its earliness but particularly to the sweet, tasty flavor of its beautiful salmon flesh.

Hearts of Gold. Flesh orange color; fine flavor. Ripens in 70 days. Exceedingly productive, flesh firm, thin hard rind, splendid shipper. Try this for home and market gardens. Michigan growers get a higher price for it in city markets than any other melon.

Honey Mel (No doubt same as Melowdew). Is a small netted Honey Dew. It is green flesh and might easily be called dwarf Honey Dew except that it is netted and shows a slight trace of ribs. We do not consider it to be of any particular advantage as it is somewhat late. It is new and earlier than Honeydew.

Honey Rock (or Sugar Rock). A wonderfully sweet melon with thick orange flesh and a distinctive flavor, suggesting the Honey Dew taste. It produces heavily and matures in 85 days. Oval fruits of medium size, not ribbed. An excellent home garden variety.

Lake Champlain (57 Days). A new variety which has proved out supreme in numerous widely separated tests for hardiness, earliness, productiveness and quality. The melon is medium sized, intricately netted, moderately ribbed; the flesh is deep, very sweet and melting, of a beautiful golden yellow color. The

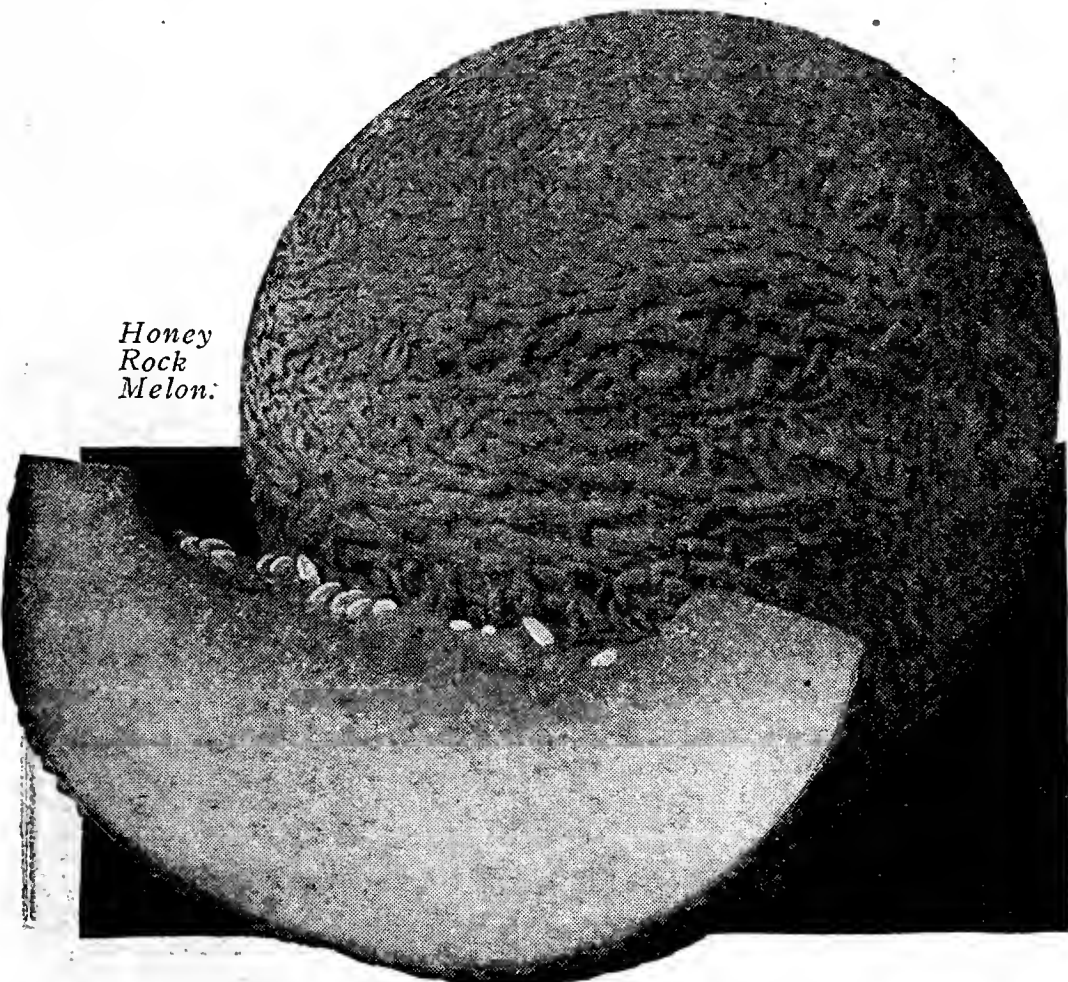

Hearts of Gold Melons.

plants are very vigorous and bushy, ripening perfect fruits even under adverse conditions, far in advance of all competing varieties.

Osage (Miller's Cream). Dark green, egg shape, medium size, a thick red-salmon meat, thin skin and best flavor.

Rocky Ford or Netted Gem. Greatly improved over the Gem varieties, slightly oblong, very sweet and fine flavored, thick fleshed, early and sure. The kind you liked when a boy. Made Colorado famous for Muskmelons.

Tip Top. Medium size, nearly round, slightly ribbed, nearly covered with netting, orange-colored flesh. An excellent market sort.

Honey Rock Melon.

VEGETABLE SEEDS—Continued

Watermelons

Prices on all varieties of Watermelons: $\frac{1}{2}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 20c; 1 lb., 60c.

After trials of about 20 kinds we selected the following:

Alabama Sweet. The best long melon grown; fine for shipment, large, of oblong form, flesh bright red and delicious flavor. Seeds are white.

Cole's Early. Best home variety and for nearby market; early and hardy, very sweet, red rind slightly striped.

Fordhook Early. A good melon and ranks up with Cole's Early, only larger and better, long distance shipper.

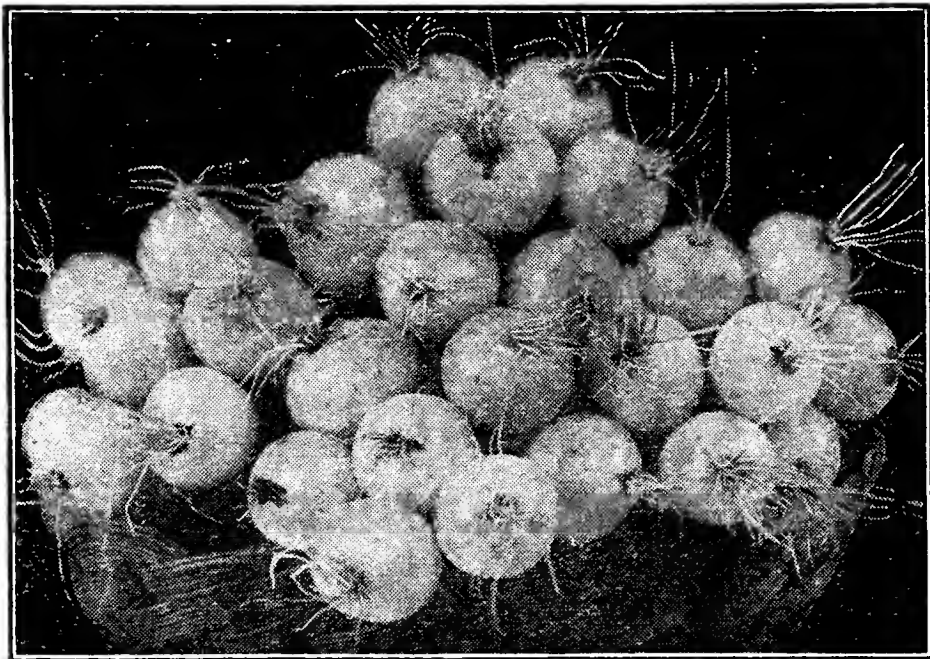

Halbert Honey. Another good home variety, with a dark green skin and crimson flesh, extra flavor, rather oblong. Once tried it will always find a place in the garden.

Kleckley Sweet. A big melon, rank grower and simply covers the ground with fruit of fine market quality. It does well in northern climates and cannot be beaten for medium crop.

Tom Watson Watermelon.

Tom Watson. Though this variety matures early, it is the largest melon, 18 to 20 inches long and 10 to 12 inches thick and has a record of weighing from 40 to 50 pounds. A tough rind, making a good shipper. Its quality is as good as any melon grown. There is no mistake in "Tom Watson."

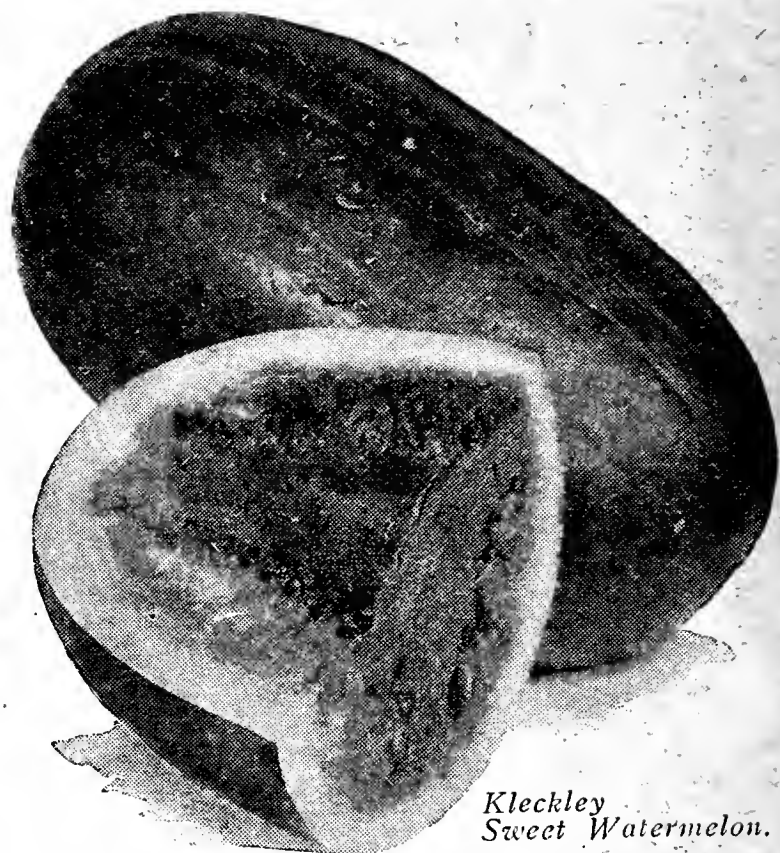

Onion Sets.

Onions

All varieties of Onions unless otherwise noted: $\frac{1}{4}$ oz., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$1.75; 10 lbs. at \$1.35 per lb.

Our Onion Seed is already cleaned and dried ready for shipment and never have we had such fine looking seed. We grow this from the best selected onions and we will guarantee you will not get any better. Can make a very attractive price on large lots or carloads. Write and state number of pounds wanted. This is one of our leaders.

Allen's Select Ohio Yellow Globe Danvers. This is the variety we make a specialty of. Hundreds of carloads of this variety are shipped from this section each season and are considered by buyers to be the truest Globe Danvers type, also the best keepers in any section of Ohio. We sell large quantities of this seed. While last season we sold all we had, we believe we now have enough to supply all our customers. Write for prices on 10- to 100-lb. lots.

Kleckley Sweet Watermelon.

Giant Red. Largest red Onion, grown from selected stock; an early market variety. Weight as high as 5 lbs.

Prizetaker. The largest Onion grown, weighing up to 6 lbs., perfectly round, light yellow with pure white flesh, mild flavor, solid. Is a profitable sort to grow, sells best.

Red Wethersfield. Is the largest, heaviest yielding and best keeping of the red Onions.

White Globe Southport. A white globe Onion, mild and pleasant.

Yellow Globe Southport. A good mild Onion, good for market.

Red Globe Southport. Same as above, only red.

White Silverskin. The favorite Onion, flat shape, flesh mild, ripens quite early, good keeper. Fine for green onions and bunching for market.

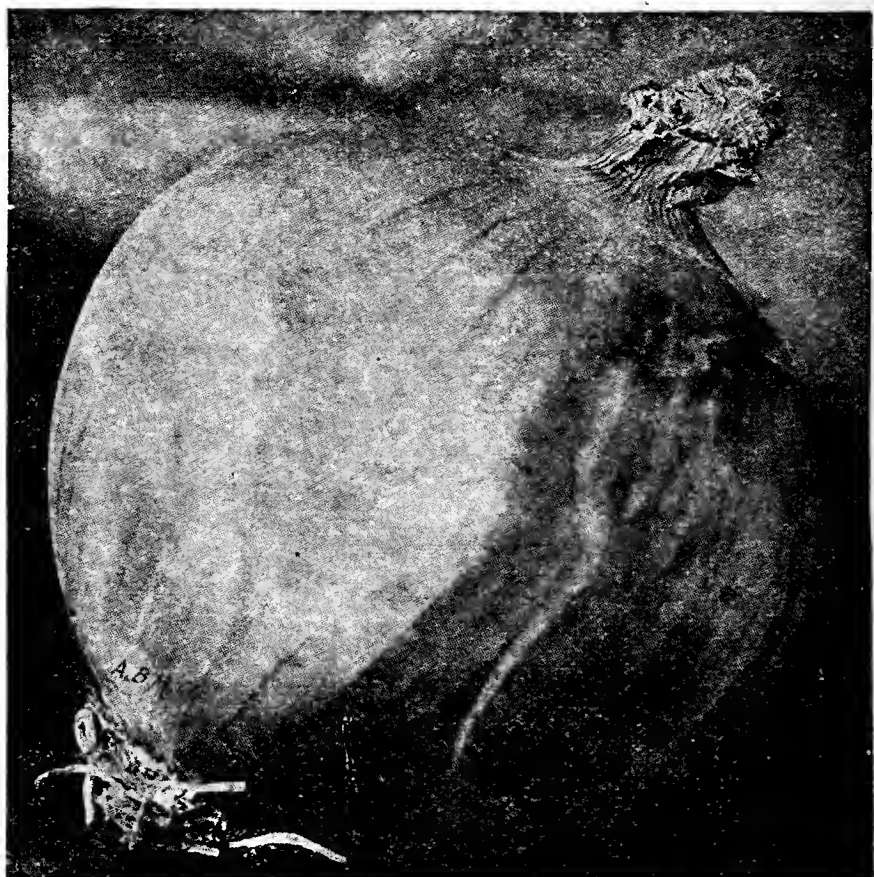

Onion Sets

Last season we expected to have enough to supply all our customers but the demand was so large we were sold out before the season was half finished. We have a great many more this season and believe we will have enough for all our customers.

By mail: Pint, 12c; quart, 25c.

By freight or express, not prepaid: Peck, 80c; bushel, \$3.00.

Yellow or white bottom sets, your choice.

Yellow Globe Southport Onion.

Prices Quoted are Postage Paid; Guaranteed Safe Arrival to Your Mail Box.

VEGETABLE SEEDS—Continued

Garden Peas

Choice Northern Grown and hand picked, extra fine seeds. This seed is very scarce and a great many gardeners will be without their supply unless they order early.

Prices on Garden Peas: ¼ lb., 10c; ½ lb., 15c; 1 lb., 25c. 10 lbs., by express, \$1.80; 50 lbs., \$8.00; 100 lbs., \$15.00.

Alaska. Extremely early. Grows from 20 to 28 inches high. Matures in about 45 days after planting under favorable conditions, ripens the whole crop at once. Fine quality, small pod, but well filled with peas. Best early.

Allen's Extra Early. (New). This is one of the earliest and best Peas grown; splendid table qualities, very productive. If you want early Peas you should give this a trial.

Priced low so as to give it a wider introduction.

American Wonder. It is an extra early wrinkled Pea, a dwarf of standard high quality. Vines 10 to 12 inches high, dwarfer than Nott's Excelsior. Usually matures a day or two in advance of Nott's. Develop firm, well filled pods. Very prolific, almost as heavy a yielder as Nott's Excelsior. This is a home and garden variety of highest class for succession planting each week.

Champion of England. Old time favorite, a sure cropper of extra sweet Peas, an abundant bearer, wrinkled. Claimed to still be the best late sort.

Gradus. Almost a new Pea, but the demand for this has increased until the supply never equals the demand. About 3 ft. tall, medium early, wrinkled, bears more Peas than any other, just as sweet as the best, and, after all, has no equal. Due to the demand, a great many seedsmen have been sending out most anything for this Pea.

Laxtonian. Called the dwarf Gradus, needs no support. It produces immense quantities of pods of large size, filled with sweet-flavored Peas of fine quality and very tender.

Laxton's New Progress. Dwarf, early, large and delicious. The finest Pea ever grown. This new Pea is

without question the very finest of the large podded, dwarf, early Peas. Of the same type as Giant Laxtonian, this Pea will mature several days earlier and produce a much heavier crop. Vines are dwarf, only 15 to 18 inches high, and the pods, which are rich dark green are 4½ inches long and always crowded with large, dark green Peas of finest quality. We believe this is the earliest large podded dwarf Pea, and just what we have been waiting for.

Nott's Excelsior. A real standard variety of extra quality, both for home garden and market, a dwarf Pea of 16 inches. The vines are covered with pods and claimed to be the sweetest Pea grown.

Premium Gem. One of the best, medium early, wrinkled Peas; has large full pods, grows 12 to 15 inches in height. Is one of the best home sorts.

Thomas Laxton. Very early, large pods, a rival to Gradus, best quality. One of the popular varieties with market gardeners.

Mustard

Chinese Smooth-Leaved. Very large leaves, which often measure 15 inches. Are ready for use in about 45 days from sowing. Plants will continue to yield until frost. Leaves are eaten boiled like spinach. ½ oz., 5c; 1 oz., 10c; ¼ lb., 20c; 1 lb., 60c.

Okra

White Velvet. Very prolific, free from spines. ½ oz., 5c.

Parsley

Champion Moss Curled. Very handsome curly leaves. ½ oz., 5c; ¼ lb., 25c.

Fern Leaved. New improved, worth a trial. ½ oz., 5c; ¼ lb., 25c.

White Velvet Okra.

Alaska Peas.

Parsnips

All Parsnip prices: ½ oz., 5c; ¼ lb., 25c; 1 lb., 80c.

Hollow Crown (Long Smooth). Long, sweet, excellent quality, very productive.

Improved Guernsey. Thicker than the above and easier harvested, fine grained, well flavored.

New Intermediate. This new sort does not require the depth of soil for its cultivation that is necessary for the older varieties. Although equal in quality and flavor to the old sort, the roots of this variety are only one-half to two-thirds as long when grown under ordinary conditions. On heavy or clay soils Intermediate is especially valuable. During the past few years of drought the Intermediate, of all varieties, yielded the heaviest, made the best looking roots, and was the easiest to harvest.

Hollow Crown Parsnip.

Prices Quoted are Postage Paid; Guaranteed Safe Arrival to Your Mail Box.

VEGETABLE SEED—Continued Peppers

"Guaranteed Pepper Seed"

Prices on all varieties of Peppers: 1/8 oz., 5c; 1 oz., 30c; 1/4 lb., \$1.00.

California Wonder (or California Giant). A mild, sweet, midseason variety, very large, measuring 4 1/2 inches in length by 4 inches in diameter. It resembles Chinese Giant in form, but has an extremely thick flesh which that variety does not; crimson fruit.

Chinese Giant. This is the largest, best and handsomest Pepper of them all. Grows from 12 to 15 inches in circumference, a mild pickler, heavy yielder. Should be thinned to get best results in size.

Golden Queen. Although a novelty, it is very handsome and good, worth trying.

Harris' Early Giant. The largest productive Pepper adaptable to northern climate. Peppers, first a glossy green, turn to brilliant crimson. Flesh thick, sweet and pleasant.

Hungarian Yellow—Hot. An extremely hot long slender pepper of a bright yellow color. The fruits are pointed and from 5 1/2 to 7 inches long. The plants are heavy yielders and produce abundantly.

Ruby King Pepper.

Neapolitan. Earliest Pepper. 4 inches long. Runs as high as 50 to the stalk, a bright glossy red, a big improved old-fashioned pepper.

Red Cayenne. Long pods, very strong. Used for seasoning and pickling purposes.

Ruby Giant. A cross between Chinese Giant and Ruby King; fruits 4 lobed, 5 inches long by 3 1/2 inches in diameter; flesh thick and mild.

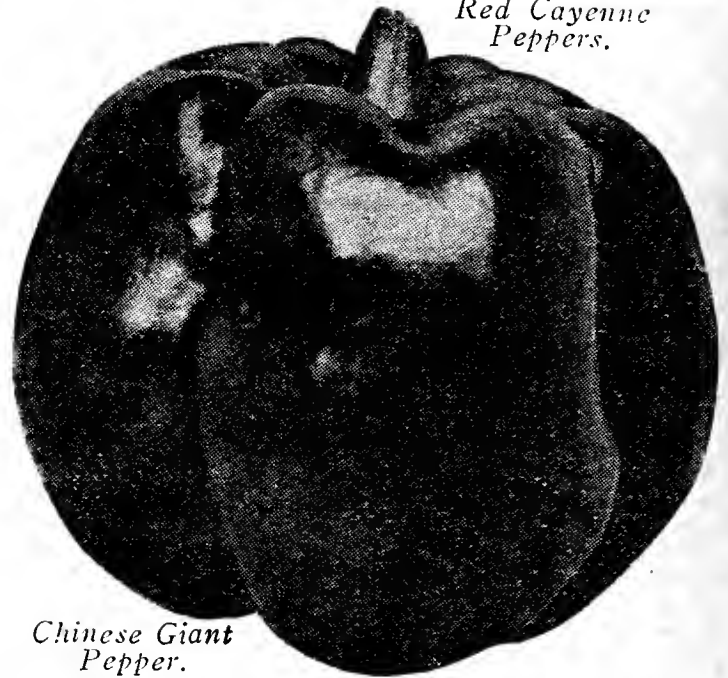

Ruby King. A popular, mild flavored variety, growing 5 to 6 inches long, bright red.

Sunnybrook (An improved type of Pimento). Has all the qualities of the Pimento, and a better bearer. Is sweet, a good canner, and extra fine for salads.

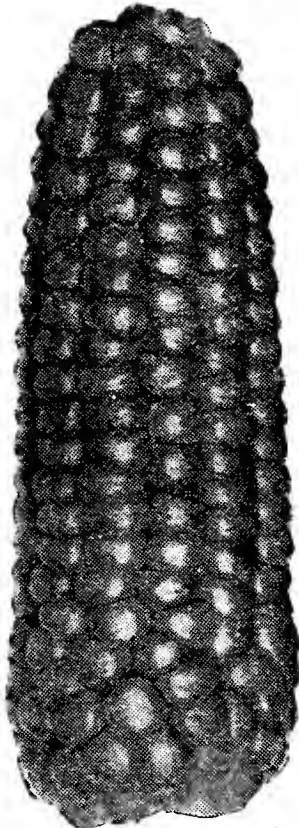

Sweet Mountain. Large, sweet, extra good for stuffed pickles.

Red Cayenne Peppers.

Chinese Giant Pepper.

Queen's Golden Pop Corn.

Pop Corn

Prices on all varieties: 1/4 lb., 5c; 1/2 lb., 10c; 1 lb., 20c; 5 lbs., 75c; 10 lbs., \$1.20.

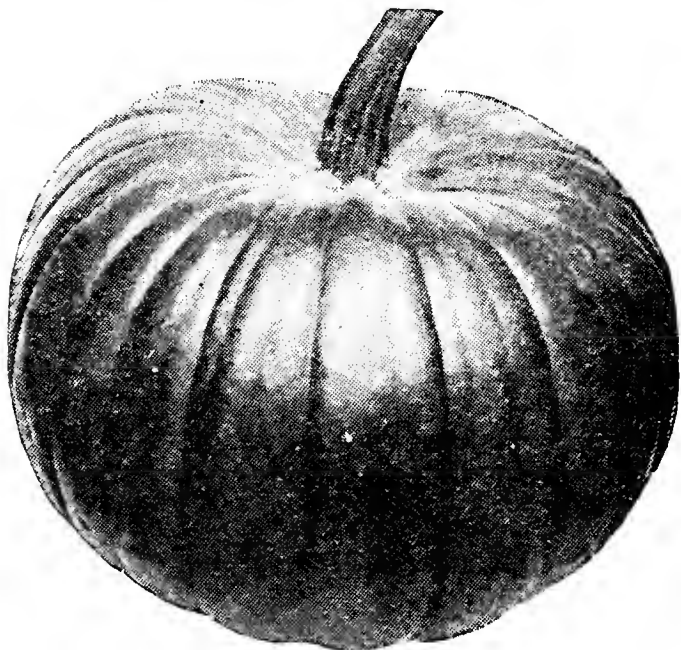

Write for prices on larger quantities.

Queen's Golden. Of beautiful yellow color and pops white, grows 6 ft. tall and a heavy yielder, several ears to the stalk.

Red Beauty. Similar to Golden Queen but red. Turns from 3 to 4 ears to a stalk.

South American. (Dynamite). Usually 2 ears to a stalk. Large yellow kernels, 12 to 14 row ear, 6 to 7 inches long, having excellent popping qualities. Pops to enormous size. Popped kernel has no hard center.

White Rice. Common white Pop Corn known to all, a good one.

Connecticut Field Pumpkin.

Pumpkins

Connecticut Field.

Good one for stock or pies, a favorite for canneries and producers on account of hardiness, ease to grow and immense crops. Have seen fields of this that you could hardly step between the Pumpkins. 1/2 oz., 5c; 1 oz., 10c; 1/4 lb., 20c; 1 lb., 50c; 5 lbs., \$2.00.

King of Mammoth. The Show Pumpkin. Grows to 200 lbs. Salmon-pink flesh, splendid keeper, known as the Giant, etc. 1/2 oz., 5c; 1 oz., 8c; 1/4 lb., 25c; 1 lb., 90c.

Small Sugar. The best pie Pumpkin, small, almost solid, very sweet, very productive, excellent keeper. 1/2 oz., 5c; 1 oz., 10c; 1/4 lb., 20c, 1 lb., 75c.

Winter Luxury. Generally regarded as the finest quality pie Pumpkin. Besides its high quality it is the best keeper of all. In size about 9 or 10 inches in diameter; its skin is beautiful deep orange-yellow with a very close netting, almost as russeted as a potato. This is one of the very best pie Pumpkins, always brings first prize on the market. 1/2 oz., 5c; 1 oz., 10c; 1/4 lb., 25c; 1 lb., 90c.

VEGETABLE SEEDS—Continued

Radishes

We do not want you to compare our "Guaranteed Radish Seed" with the common seed sold from other sources. It is grown from carefully selected and transplanted stock, the kind that will satisfy our patrons. Our big present supply enables us to offer it at bargain prices. The ordinary store package contains 1/5 to 1/3 of an ounce. Stop and think of the number of cents you have lost this way during your life, feeding the seed combine, and help the outside firm up the ladder with an order.

Prices for all Radishes: 1/2 oz., 5c; 1 oz., 10c; 1/4 lb., 25c; 1 lb., 80c.

Chartier. Well known, long red, crisp and tender. Holds its quality well.

Cincinnati Market. 6 to 7 inches long, straight and smooth, scarlet, crisp and fine flavored.

Early Scarlet Globe. Early and all around first class, small top, bright scarlet, well flavored.

French Breakfast. Fine oval shape, white tipped, quick grower. Good for home and market, very mild, crisp and tender. Old favorite.

Icicle. Pure white, long and crisp. Very valuable for table, always a good seller, quite large.

Sparkler. A new variety of an entirely distinct type. In shape it is globular; the top is very short, thus making it adaptable for forcing, although it is equally good for outside. The color is a rosy carmine, with a long white tip. Sparkler will keep longer in good condition than any other variety we have tried, and can be grown the year around. Successive sowings should be made throughout the summer.

Long Scarlet Short Top. A standard variety of long Radishes, straight and smooth; grows partly above ground, develops long roots that are tender, crisp and sweet. Fine for the home garden.

Mixed Radish Seed. Containing nearly all kinds.

Winter Radish

Rose China Winter. (60 days). One of the best fall and winter varieties, bright rose color, flesh white and of superior quality. Price, same as other radishes.

Rhubarb Seed

Myatt's Victoria. Largest, best generally used. We are able to offer this very cheap, due to the immense crop on hand. 1/4 oz., 5c; 1 oz., 10c; 1/4 lb., 50c.

Spinach

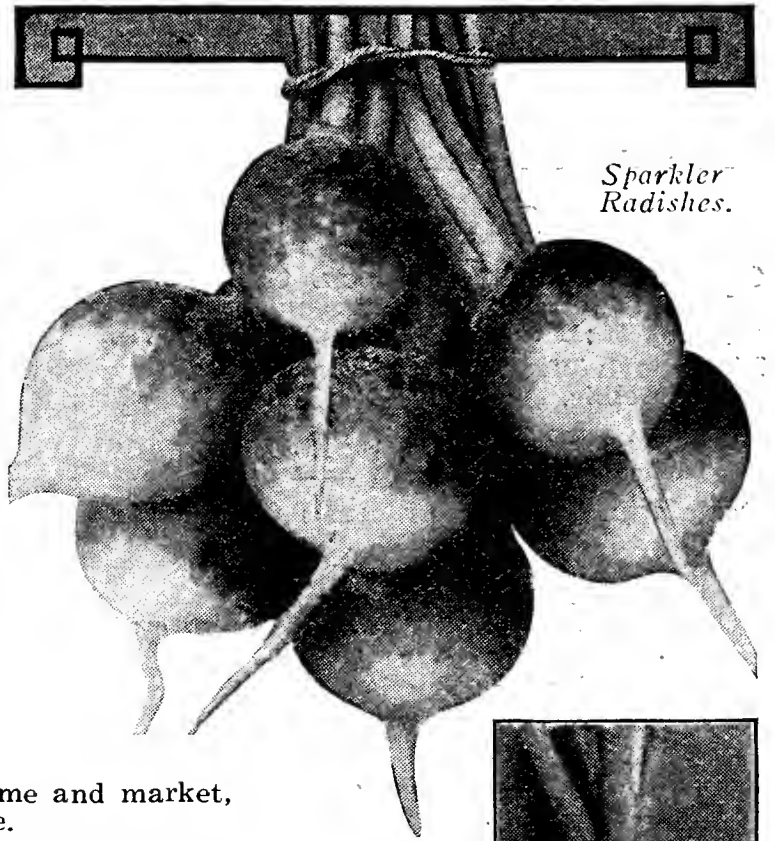

1/2 oz., 5c; 1 oz., 10c; 1/4 lb., 15c; 1 lb., 50c; 5 lbs., \$2.00.

Bloomsdale (Long Standing). In most sections the best spinach, leaves crumpled. A very desirable sort.

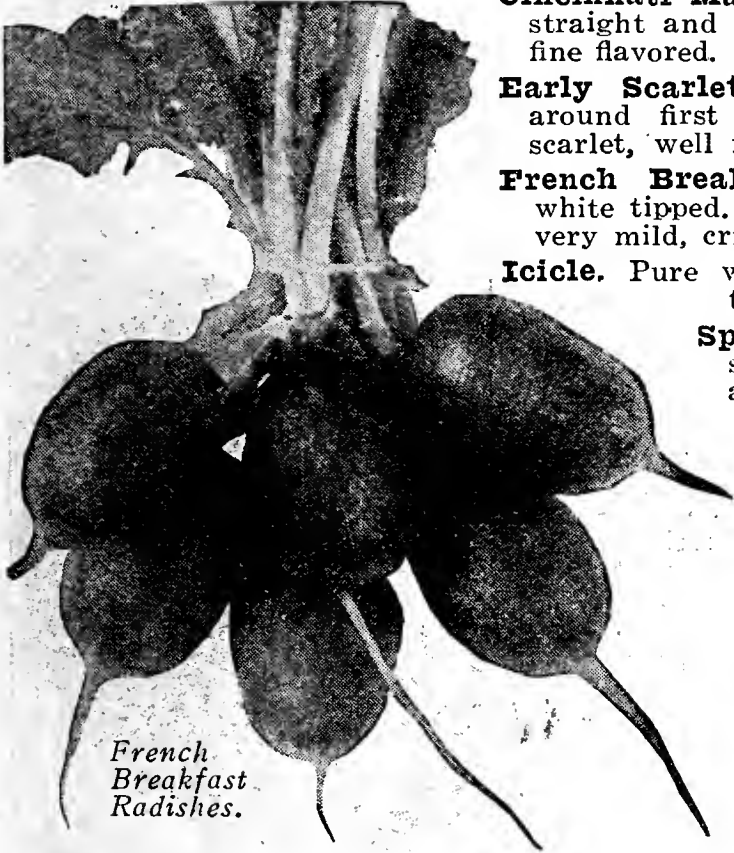

King of Denmark (45 days). Leaves very thick, dark green, and curled or blistered, in low compact tufts, ready to use as soon as the earliest, yet remaining longer in good condition before running to seed.

New Zealand Spinach (Tetragonia expansa). (55 days). Strong growing summer variety. The young branches and leaves can be gathered at any time. Sow thinly in drills 15 inches apart.

Round Thick Leaf. Most popular variety for market gardening. Leaves large, thick, and fleshy. We advise planting this variety.

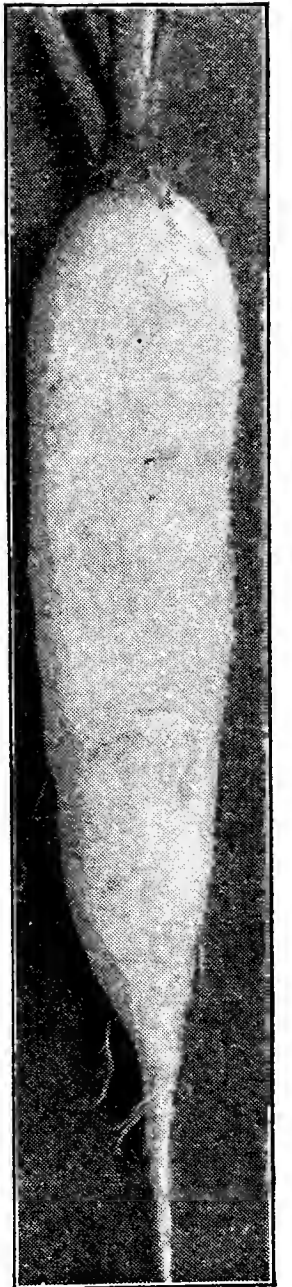

Sparkler Radishes.

French Breakfast Radishes.

Salsify.

Icicle.

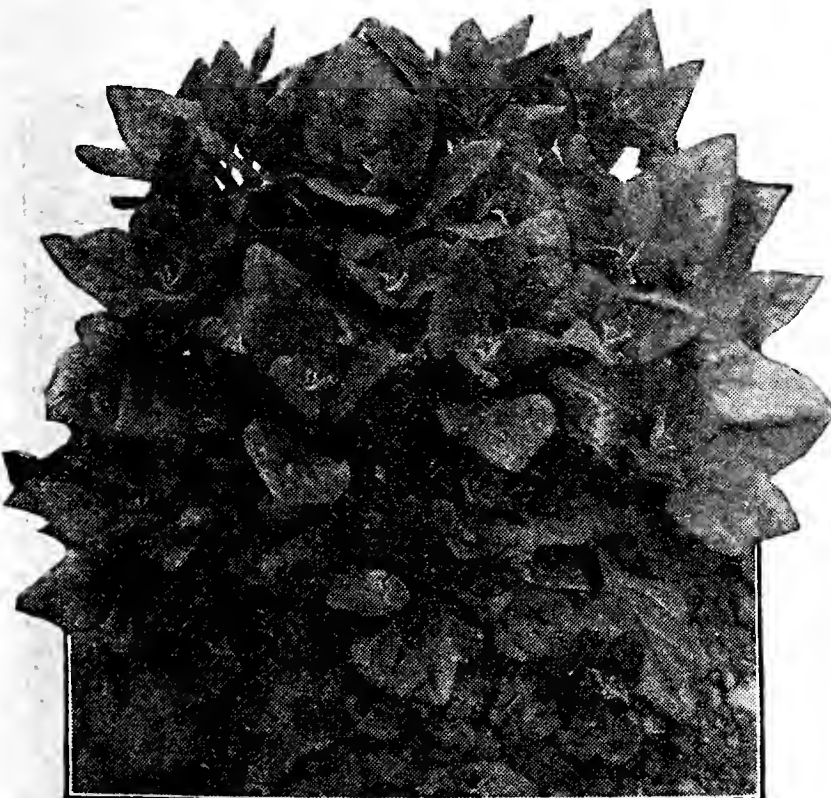

Salsify

(Vegetable Oyster)

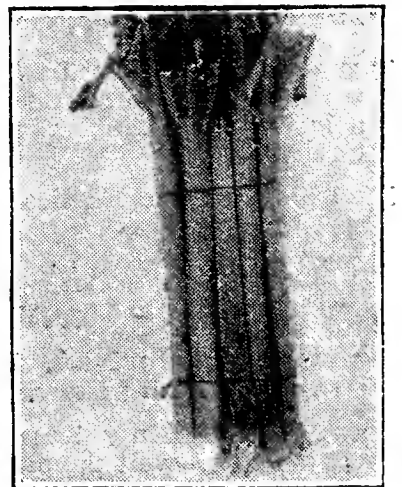

Mammoth Sandwich Island. The improved variety. 1/4 oz., 5c; 1 oz., 15c; 1/4 lb., 50c.

Sunflower

Mammoth Russian. Very large heads, seeds striped and gray. 1/4 lb., 8c; 1 lb., 20c. 5 lbs., postage not paid, 50c; 25 lbs., \$2.00.

New Zealand Spinach.

Rhubarb.

Prices Quoted are Postage Paid; Guaranteed Safe Arrival to Your Mail Box.

VEGETABLE SEEDS—Continued

Squash

Note what other firms ask for ounces and pounds, not packages.

Summer Varieties

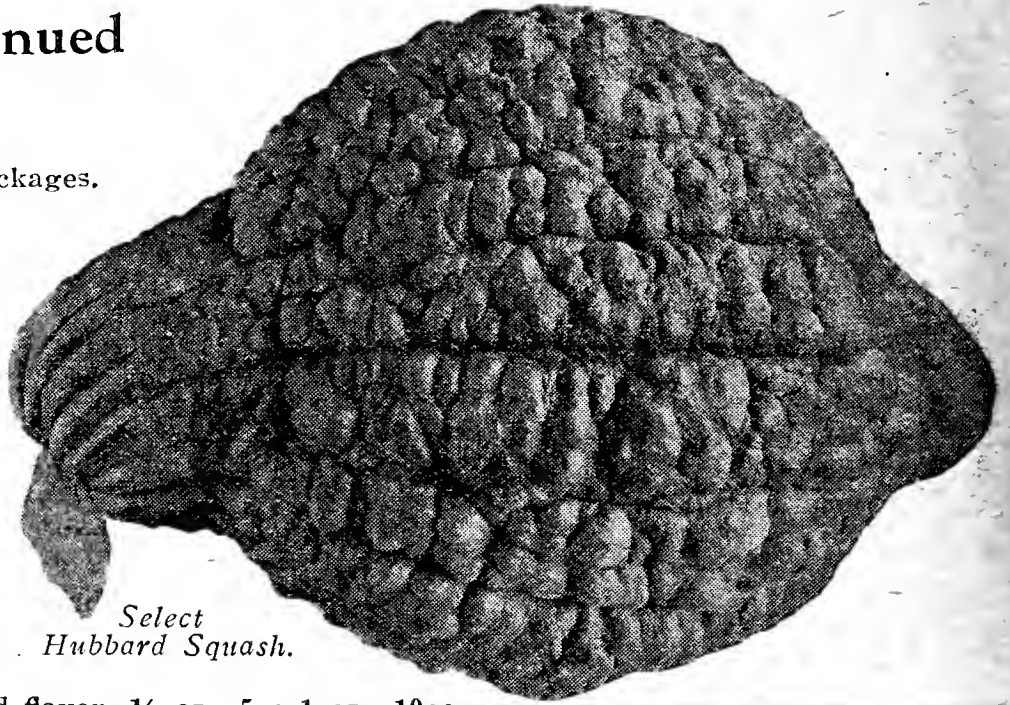

Giant Summer Crookneck. Golden yellow, best quality. 18 to 24 inches long. Command an extra price in market. $\frac{1}{2}$ oz., 5c; 1 oz., 8c; $\frac{1}{4}$ lb., 25c; 1 lb., 75c.

Mammoth White Bush. Scalloped, pure white, good, early and prolific. $\frac{1}{2}$ oz., 5c; 1 oz., 8c; $\frac{1}{4}$ lb., 25c; 1 lb., 75c.

Fall and Winter Varieties

Delicious. This variety comes from an experiment to improve on the old Hubbard. It cooks dry and tender with a rich flavor. Skin dark green and flesh dark orange or brick color. Ripens in early fall and lasts all winter; good for the market grower. $\frac{1}{2}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., \$1.00.

Fordhook. Very productive, oblong, slightly ribbed, splendid flavor. $\frac{1}{2}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., \$1.00.

Select
Hubbard Squash.

Golden Hubbard. Same as Select Hubbard, only golden color instead of green. Slightly smaller and earlier. $\frac{1}{2}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., \$1.00.

Select Hubbard. Claims to produce more than the old Hubbard, very similar. Really the best winter Squash for use. $\frac{1}{2}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 30c; 1 lb., \$1.00.

Italian Cocozelle or Green Bush Marrow Squash. This is the very best of all the vegetable marrow Squashes and we think a trial of it in your garden will assure you that this variety is worthy of mention. $\frac{1}{2}$ oz., 5c; 1 oz., 10c; $\frac{1}{4}$ lb., 20c; 1 lb., 80c.

Table Queen. (80 days). 6 to 7 inches long, 4 to 5 inches thick, the shell a smooth dark green with sometimes a blotch of red at the pointed end; the productiveness and eating quality second to none. $\frac{1}{2}$ oz., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 95c.

Tobacco

Any of the following will do well in the northern latitudes. It will surprise anyone trying to grow tobacco what a useful article it is for hen lice, and any other insects.

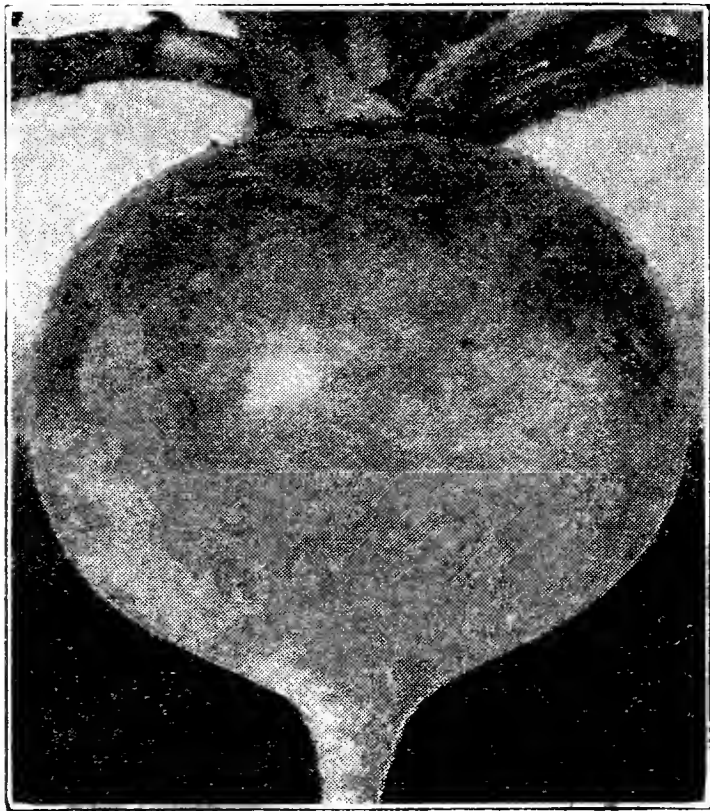

Connecticut Seed Leaf. Hardy, very popular. $\frac{1}{4}$ oz., 10c; 1 oz., 30c.

Havana. An improved article that does well here. $\frac{1}{4}$ oz., 10c; 1 oz., 30c.

White Burley. A large growing variety, excellently flavored. $\frac{1}{4}$ oz., 10c; 1 oz., 30c.

Giant Summer Crookneck.

Improved American Rutabaga.

Turnips

Prices on all Turnips and Rutabagas: $\frac{1}{2}$ oz., 5c; 1 oz., 8c; $\frac{1}{4}$ lb., 20c; 1 lb., 60c; 2 lbs., \$1.00.

Cow Horn. Good, long, white, rapid grower.

Purple Top Globe. Main market sort.

Early White Flat Dutch Strap Leaf. Fall use, pure white, good.

Extra Early White Milan. The earliest white turnip; you can make no mistake in this. Try it.

Gold Ball. One of a yellow flesh, claimed to be richer and sweeter, good keeper.

Purple Top Strap Leaf. Better known than any other turnip and deserves its popularity. Grows quickly and of a large size. Brings the highest market price, due to its quality.

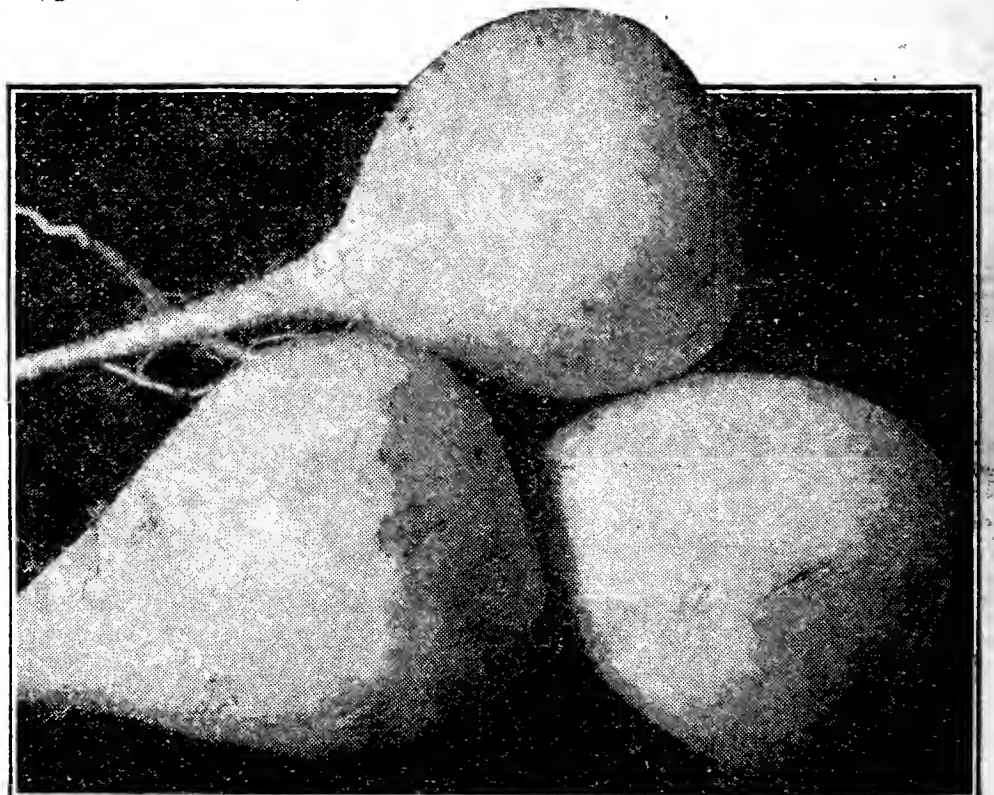

Red Top Milan. Earliest of all, red top, similar in quality to the one above.

Rutabaga

Improved American. Purple top, large, smooth with small top, flesh yellow. An immense yielder.

Improved Yellow Mammoth. Large yellow sort, fine grained and well flavored.

White Sweet. Best table variety, well flavored and good producer.

Extra Early White Milan Turnip.

Prices Quoted are Postage Paid. Guaranteed Safe Arrival to Your Mail Box.

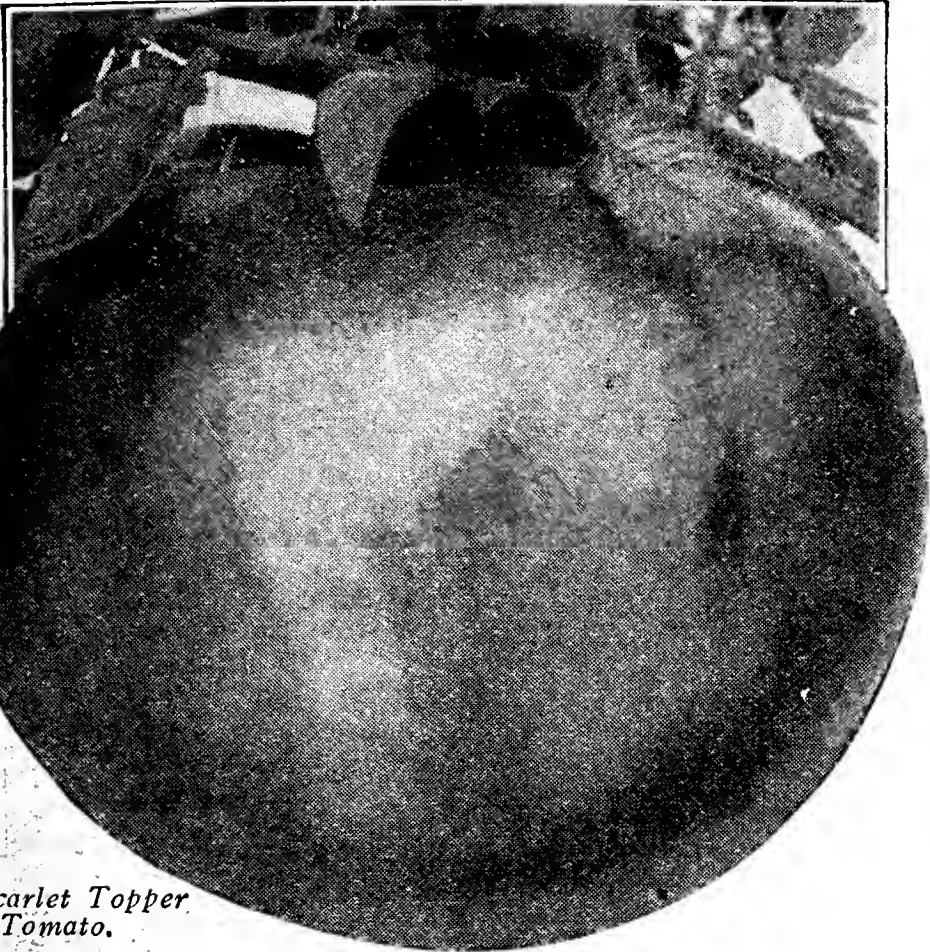

VEGETABLE SEEDS—Continued

Tomatoes

After last season's success of filling large orders of "Guaranteed Tomato Seed," as well as small, we feel we cannot help but demand that attention of Tomato growers everywhere who wish the best article on the market regardless of price.

Bonnie Best. Very early sort, attractive shape and color; flesh very solid. Vines vigorous, very productive. Deep scarlet, excellent for home or market. $\frac{1}{8}$ oz., 5c; $\frac{1}{4}$ oz., 10c; 1 oz., 20c.

Break o' Day. The New Early Wilt-Resistant Tomato. This new sort was developed by Prof. Pritchard of the U. S. Department of Agriculture at Washington. It is a cross between Marvana and Marglobe. The fruit is the same color, shape, size and solidity as Marglobe, but ripens 10 to 15 days earlier. Break o' Day will mature with Earliana and Bonnie Best. It is a wonderful yielder and the only extra early Tomato that is of a deep globe shape and good bright red color. Very solid fruits and few seeds; does not crack, making it a wonderful shipper. The vine is of spreading growth with good foliage to protect the fruit. Supply of seed very limited this year. $\frac{1}{8}$ oz., 5c; 1 oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Scarlet Topper
Tomato.

Chalk's Early Jewel. A splendid all-around kind, medium in season, uniform in size, of large fruit, very solid, bright red. Used in local canning factory almost exclusively last season with fine results. $\frac{1}{8}$ oz., 5c; $\frac{1}{4}$ oz., 10c; 1 oz., 20c; $\frac{1}{4}$ lb., 70c.

Early Acme. Fine for early market. Well known and generally cultivated, both for early and main crops. Plants are of strong and vigorous growth, very productive, the fruit of medium size, perfect, firm, round, slightly depressed at the ends and very smooth, color a glossy red with purplish tinge; ripens all over and through at the same time. Ripens soon after Bonnie Best. Ready for market in 105 days. $\frac{1}{8}$ oz., 5c; 1 oz., 20c; $\frac{1}{4}$ lb., \$1.00.

Enormous. Probably largest, smooth and red with a glossy appearance, few seeds, almost solid, fine flavor, good keeper, market or home garden variety. $\frac{1}{8}$ oz., 5c; $\frac{1}{4}$ oz., 10c; 1 oz., 35c.

Improved Earliana (Sparks'). A great favorite with us and the earliest variety, we believe, in existence. Smooth and productive, large, vigorous of vine; this will yield 500 to 600 bushels to the acre. We claim our Earliana will ripen from 6 to 10 days earlier than any other. $\frac{1}{8}$ oz., 5c; $\frac{1}{4}$ oz., 10c; 1 oz., 20c; $\frac{1}{4}$ lb., 75c; 1 lb., \$2.50.

Marglobe. A new Tomato originated by U. S. Department of Agriculture. Is wilt resistant, an extremely heavy cropper, cropped about 7 tons to acre at the Department's farm; globular in shape, ripen even without cracks, fruit red, very smooth; good canner. $\frac{1}{8}$ oz., 5c; $\frac{1}{4}$ oz., 10c; 1 oz., 40c; $\frac{1}{4}$ lb., \$1.50.

Oxheart
Tomato.

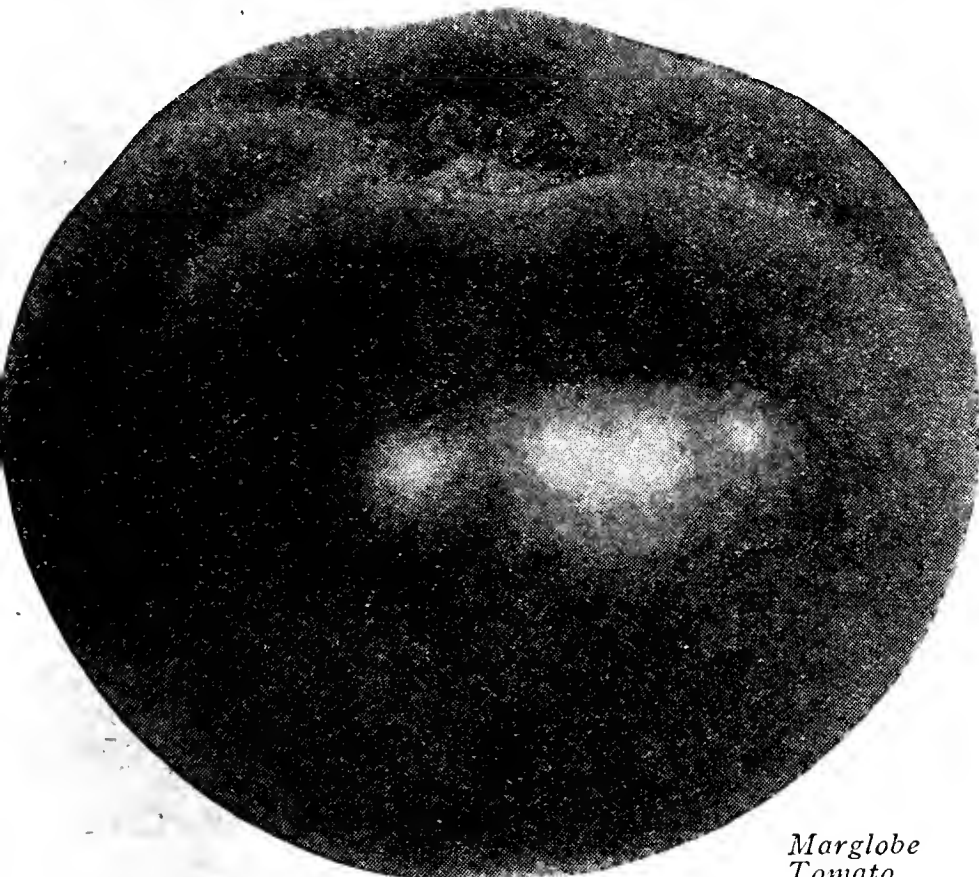

Oxheart. (120 days). A new variety of unique shape—like a big oxheart, or a Delicious apple. Of large size, best quality of tomato flavor, smooth pink skin, few seeds; its supreme qualification is the broken cell structure, and the 1 to 2 inches of solid flesh before a seed is reached. A heavy yielder; on healthy, open, spreading vines. $\frac{1}{8}$ oz., 5c; $\frac{1}{4}$ oz., 10c; 1 oz., 40c; $\frac{1}{4}$ lb., \$1.25.

Ponderosa. Very large and solid, few seeds, very handsome, dark, rank foliage. Some will not use anything else. $\frac{1}{8}$ oz., 5c; $\frac{1}{4}$ oz., 10c; 1 oz., 35c; $\frac{1}{4}$ lb., \$1.00.

Scarlet Topper. (Also called Pritchard). Newest and Best Early Globe-Shaped Scarlet Tomato. Rapidly becoming the most popular, early, round, scarlet Tomato both for home and market. Highly recommended as a paying commercial sort because it combines earliness, quality and productivity. Scarlet Topper produces fruits of splendid size resembling Marglobe, but ripen over a week earlier. Extremely solid with few seeds and they ripen evenly to a deep scarlet color. Vine is vigorous but compact with heavy foliage protecting fruit. $\frac{1}{8}$ oz., 5c; 1 oz., 40c.

Stone. A main crop variety, hard to beat, heavy and firm, bright scarlet, keeps well in long shipments, does not crack or rot, no core. $\frac{1}{8}$ oz., 5c; $\frac{1}{4}$ oz., 10c; 1 oz., 20c; $\frac{1}{4}$ lb., 60c; 1 lb., \$2.00.

Yellow Wonder. As large as any Tomato, pure yellow. $\frac{1}{8}$ oz., 5c; $\frac{1}{4}$ oz., 10c; 1 oz., 20c; $\frac{1}{4}$ lb., 75c; 1 lb., \$3.00.

Marglobe
Tomato.

Our Trial "Break o' Day" Tomato was a Success.

Allen's Guaranteed Seed Corn

Ohio Grown Field Seed Corn

Grown by the famous Clark & Son Co., Ohio's famous Seed Corn growers. We have selected this year a fine lot of varieties and wish to say that this seed will be all Northern Ohio grown and will mature for you. Send for samples at once.

Prices are f. o. b. cars, bagged free. 14 lbs., 60c; 56 lbs., \$2.00.

Early Butler. A remarkable early Corn of a reddish yellow color, better than Pride of the North and matures in 75 to 80 days, with 7- to 8-ft. stalks, small cob, deep kernels. Matured the last 5 seasons in Northern Ohio in good shape.

Early Smoky Dent. A Corn that ripens in 80 days. A white cap variety with red under color, good sized ears, shells well to the ear, stalk of medium size. One of the best early corns we have ever grown on our own farms. We advise planting this for those that want to have Corn that is hard.

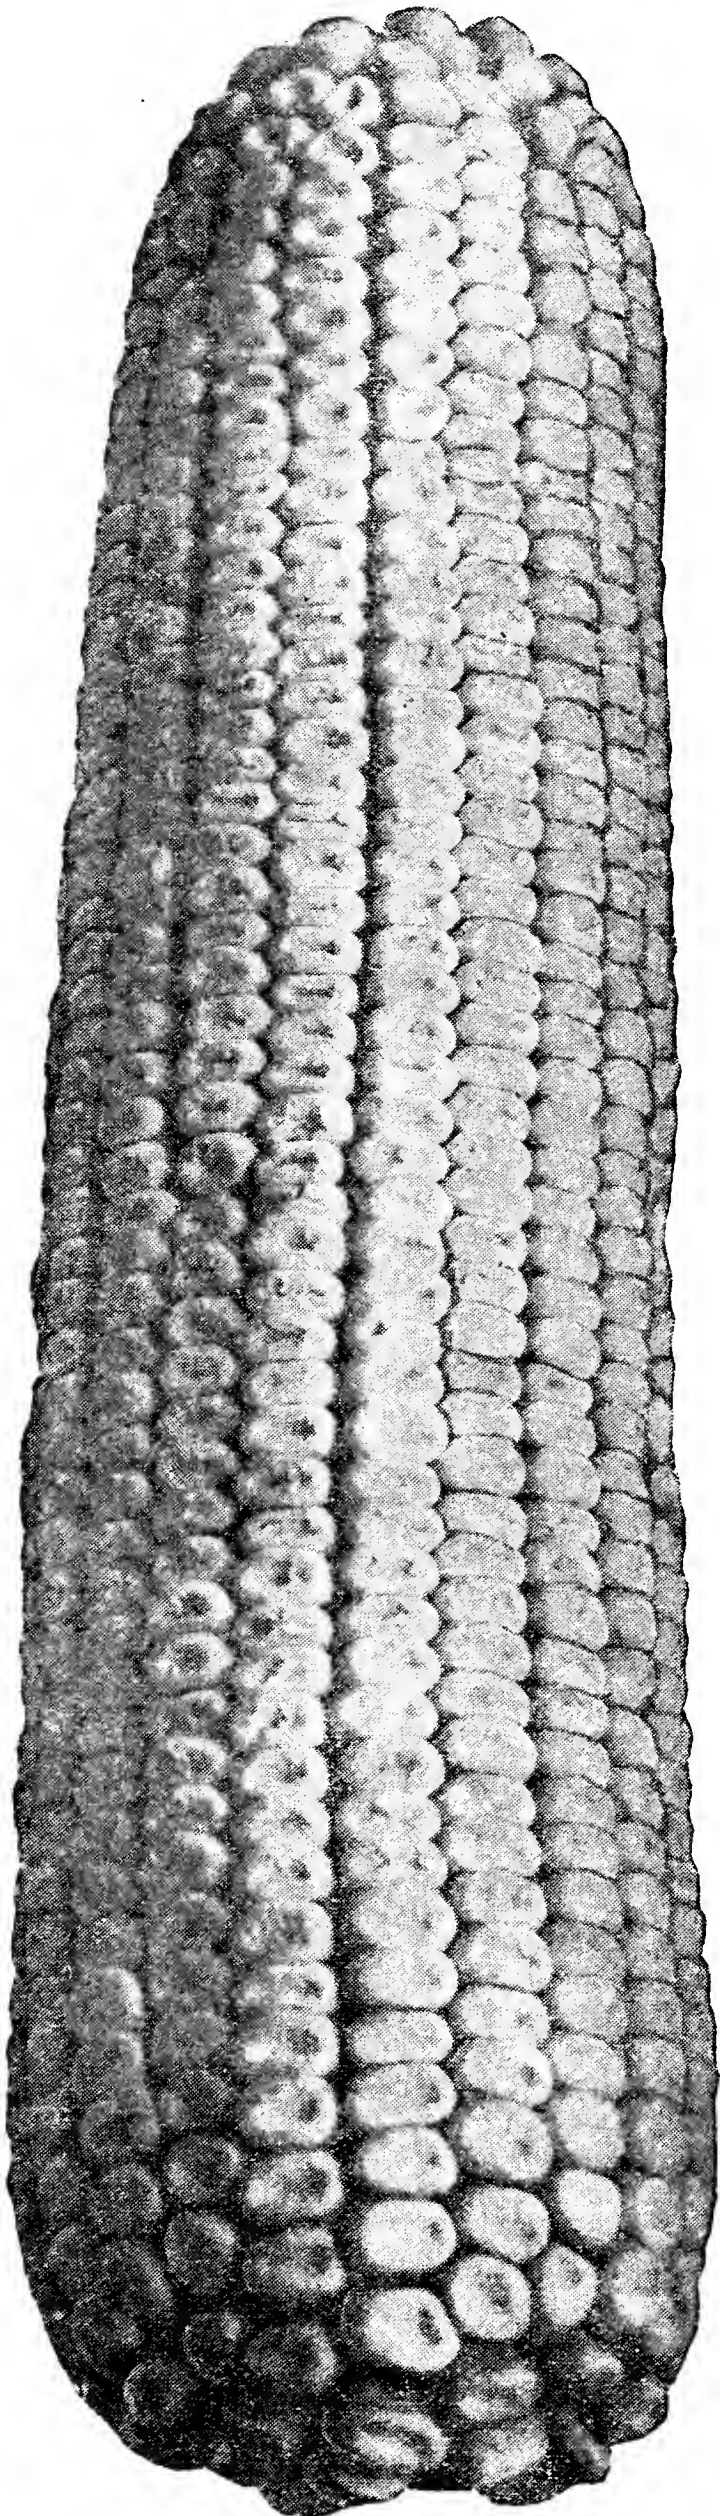

Early White Cap Yellow Dent. A strong grower, claimed to do well on thin soil, takes 100 days. Produces an abundance of fodder, stalks 7 to 8 ft. Ears 7 to 10 inches.

Early Yellow Dent. A clear, early yellow Corn. 80 days. Ripens anywhere in an early frosty season. Produces an immense crop of fine corn.

King of Earliest. Yellow Dent Corn originated in Northern Ohio, within 10 miles of Lake Erie. In normal season will mature in 85 days. Has good size ear, 12- to 16-row cob, fodder heavy medium size, splendid for feed. This Corn is sure to get ripe and will please the grower. It is a very good yielder and splendid sheller, and has the most beautiful yellow Corn of any we have ever seen.

Pride of the North. This Corn is selling under almost any old name, but we claim our strain is as pure as the original seed and still is the earliest yellow Seed Corn obtainable. In some sections of our country where the early frost cut the Corn crop short, our Pride of the North ripened a good crop. A beautiful yellow, of medium size, deep kernel, no more than 90 days and often 75 days. Stalks 6 to 8 ft., 7- to 9-inch ears.

Reid's Yellow Dent. A great many farmers will not use anything else. Something like Leaming, but better and earlier, a large ear, deep kernel. 100 days.

Allen's Seed House,
Geneva, Ohio.

Bowdill, Ohio, Aug. 1, 1933.

Dear Sir: I want to write you in regards to 7 lbs. of cabbage and 1/2 lb. of cauliflower seed I got last spring. That was fine seed. I didn't find one stalk of clubfoot. Last year I threw away about one-fourth of my cauliflower seed because of club foot. If you want to increase your sales one hundred per cent, buy your seed from the same man you did last year.

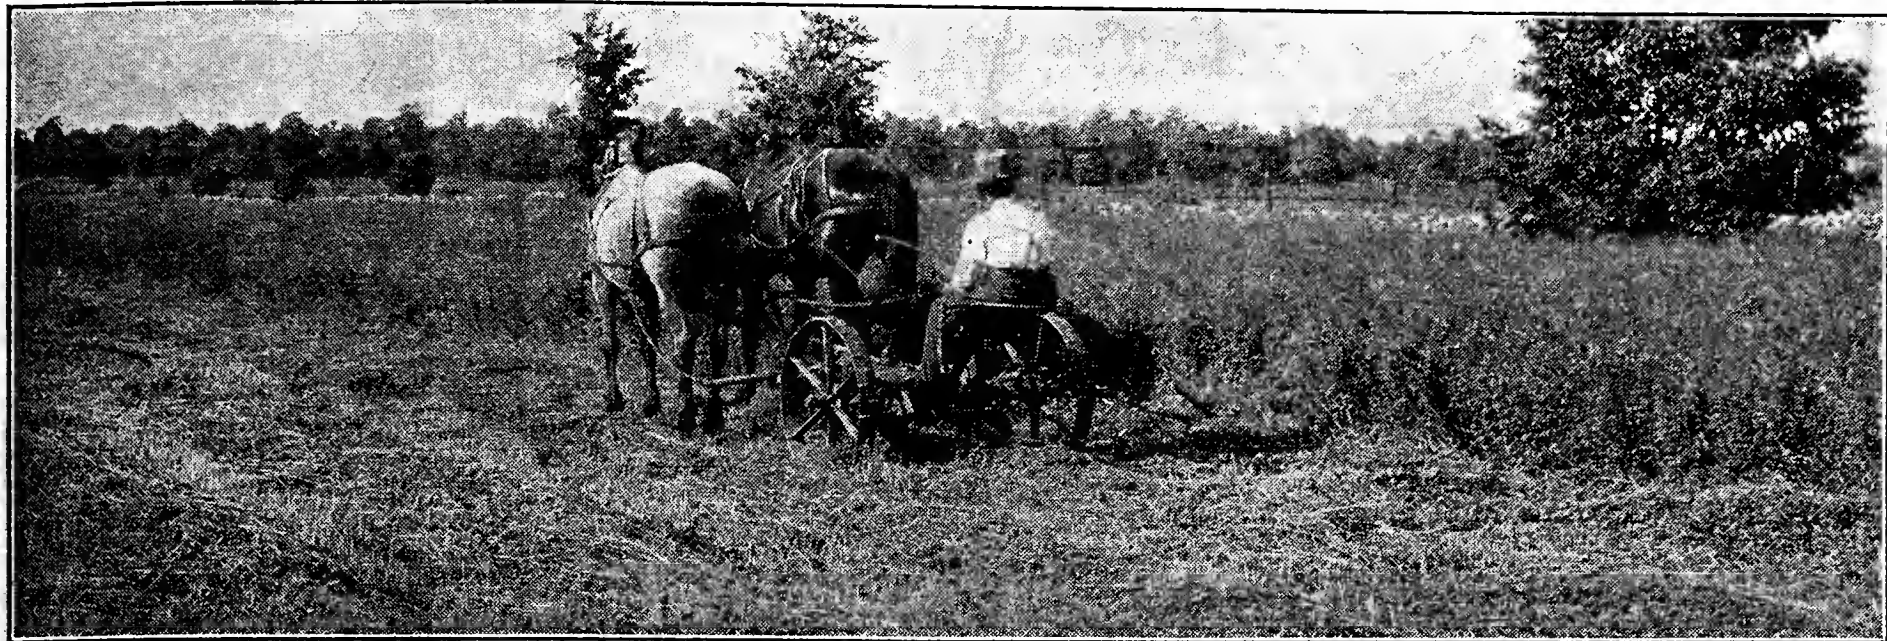

Yours truly,
H. C. MACKKEY.

Ear
and
Field.

Alfalfa.

Allen's Guaranteed Farm Seed

Where prices are not quoted will price same on inquiry. Better write before ordering Grass Seeds, Soy Beans, Potatoes, etc. We can save you money.

Alfalfa

The Profitable and Nutritious Hay Crop

Alfalfa or Lucerne will produce from 5 to 7 tons of hay an acre each year in the South. Lime should be applied at the rate of 1,500 pounds to the acre. Before sowing the seed it will be best to inoculate them, if Alfalfa has never been grown on the soil you are to sow.

Canadian Variegated Alfalfa. Originated in Welland County, Ontario, about 17 years ago. It is described by Dr. Zavitz of the Ontario Agricultural College as an exceptionally hardy strain of Alfalfa. He reports that in an experiment extending over a period of 10 years, Canadian Variegated proved hardier than Grimm or Baltic. The New York Experiment Station reports Canadian Variegated just as hardy and just as high yielding as any strain of Grimm Alfalfa. We have the genuine stock to offer, Canadian grown, at lower prices even than Montana common.

Grimm Alfalfa. May usually be distinguished from common Alfalfa. First, by the fact that the blossoms are usually, not always, variegated in color, yellow, green, blue, brown, etc., instead of all purple. Second, by its branching root system instead of the long, straight tap root of the common Alfalfa. This enables it to withstand the hard winters, the tap root of the common Alfalfa often being broken by heavy freezing.

Broom Corn

Improved Evergreen. The leading variety. Western grown. By mail, postpaid: 1 oz., 5c; 1/2 lb., 15c; 1 lb., 25c. By freight: 10 lbs., \$1.00.

Barley

Wisconsin Pedigree. Send for samples and best prices.

Sweet Clover

Bokhara (*Melilotus alba*). This legume is native to all parts of this country and is the most beneficial of all crops for building up worn-out land. Thrives on all soils, but like all Clovers requires lime which should be supplied on land where it is lacking. Makes fine pasture for bees and good quality of hay relished by all stock. Does best when seeded alone. Sow in spring or fall. Twenty to thirty pounds are required per acre.

Domestic Clovers

Medium—Mammoth Alsike

We carry a big line of these. On account of the constant change in prices, we hesitate in making a set price. Very often the price will drop, then we lose your order, when if given a chance to write you a personal letter and give bottom prices, we could quote your order. We will quote special prices on all grass seeds, and gladly send samples of each grade wanted. Our Clover seed is carefully raised by experts and is bright and clean. Write for prices before buying.

Southern Ensilage Corn

Our Ensilage Corn this season matured very early on the Virginia farms where it was grown for us under contract and we can assure you a good percentage of vitality:

Will be out of driers about February and advise placing orders at once, as same will be very scarce, as Southern farmers had no help to husk their corn before wet season there. Special prices on large lots or carloads.

Blue Mountain. Extra fine variety. Per bushel, 56 lbs., \$2.50.

Cuban Giant. The largest of all. The seed is uniform, matures more tons to the acre than any other. Per bushel, 56 lbs., \$2.25.

Eureka. This is a large stalk, claimed to contain more sugar than many, also considerable grain. Per bushel, 56 lbs., \$2.25.

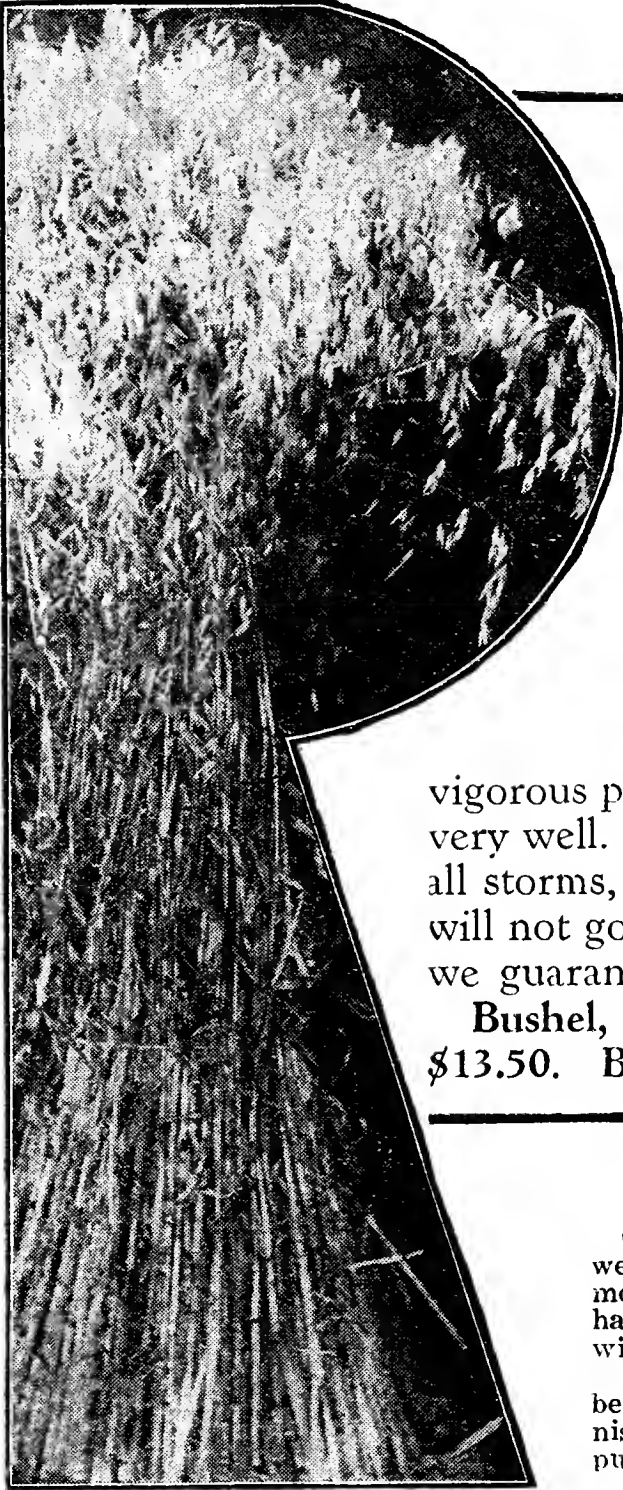

Eureka Ensilage Corn.

Write for Current Farm Seed Prices.

FARM SEEDS — Continued

Sensation Oats

Sensation is a new White Oat with branching head, plump kernel and thin hull. After carefully testing this on our Saybrook farm we have come to the conclusion that we will offer only this one variety, as it has yielded from 50 bushels per acre up to 90 for us here on our fields. They are very heavy, weighing from 40 to 44 pounds to measured bushel. It has a vigorous plant and seems to resist the drought very well. Straw stiff and stands well through all storms, is very heavy strawed variety. You will not go wrong in planting this variety and we guarantee you good, well cleaned stock.

Bushel, 80c; 10 bushels, \$7.00; 20 bushels, \$13.50. Bags holding 2½ bushels, 20c extra.

Canada Field Peas

Canada Field Peas should be sown in April, weather permitting. They make large yields of most nutritious hay, cut either green or cured for hay. They should be sown 1 to 1½ bushels per acre, with 1 bushel spring oats.

On account of their extreme hardiness they can be sown earlier than any other legume crop, furnishing an excellent crop of hay or serving the purpose of a green fertilizer.

German Millet.

Cow Peas

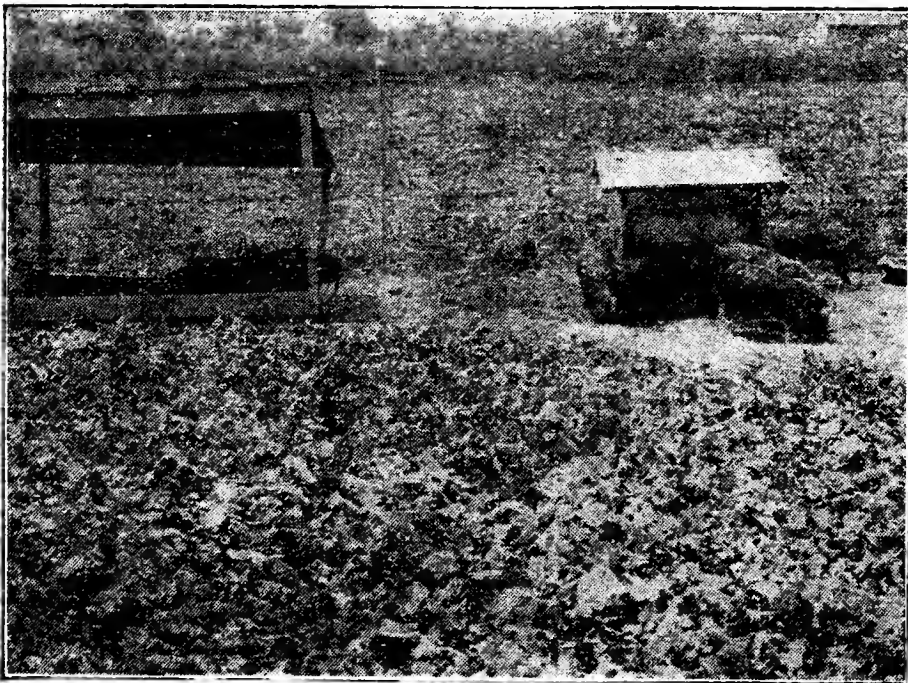

We make a great specialty of Cow Peas.

Last year we supplied a great many, giving general satisfaction.

Variety. Whippoorwill.

Dwarf Essex Rape

This is a great crop for hogs and sheep. In from 8 to 10 weeks from sowing it is ready to turn them on; for daily mowing, producing 20 to 30 tons of green feed per acre. Covers the ground and chokes out the weeds. Sow latter part of June, 6 lbs. to the acre. By mail, postpaid: 1 lb., 15c. By express: 10 lbs., \$1.25; 50 lbs., \$5.00.

Dwarf Essex Rape.

Grasses

Allen's Pasture Grass. Price on application.

Allen's Meadow Mixture. Price on application.

Kentucky Blue Grass. Also known as June Grass, a valuable variety for lawns when mixed with other grasses, and especially valuable as a pasture grass. About 3 bushels to the acre for pasture. (14 lbs. to the bu.).

Red Top Grass. Grows well in all soils, especially so for moist land.

Orchard Grass. A valuable grass for pastures, for sowing in orchards or shady places. It grows rapidly and does not suffer from close feeding. When sown alone, 3 bushels should be sown to the acre; 14 pounds to the bushel. Lb., 50c; 3 lbs., \$1.35. 10 lbs. and over by express or freight at 30c.

Timothy

Will be high, is very scarce. Fortunately we had a fine, large field on our own place that was the cleanest that we have ever seen. Prices and samples on application.

Millet

German Millet. The most popular of all the millets. Of late years often called Golden. So called Western Golden, however, is not true German. German is a tall growing variety with large stout stems, leaves broad and stiff. The seed heads are usually about an inch in diameter, of good length and well filled out with seed. For seed sow 12 to 15 pounds and for hay about 30 to 40 pounds per acre. 50 lbs., 7c per lb.

Golden or Liberty Millet. Is decidedly one of the best varieties to grow for a hay crop; produces large crop of fine grass ranging in height from 4¾ to 6 ft., according to strength of soil. Can be cut green or made into hay, and is readily eaten by stock. It requires 1 bushel to sow an acre broadcast. Lb., 15c; 10 lbs. at 12½c per lb.; 50 lbs. and over at 8c per lb., not prepaid.

Japanese Millet. This grows 6 to 8 ft. high, stands remarkably well, and yields from 10 to 12 tons green fodder per acre. It may be sown from the middle of May to the first of July, broadcast at the rate of 15 pounds per acre. Lb., 30c, postpaid. By express: 10 lbs. at 10c per lb.; 50 lbs. and over at 9c per lb.

Write for Our Weekly Price List of Grass Seeds, etc.

FARM SEEDS—Continued

Potatoes

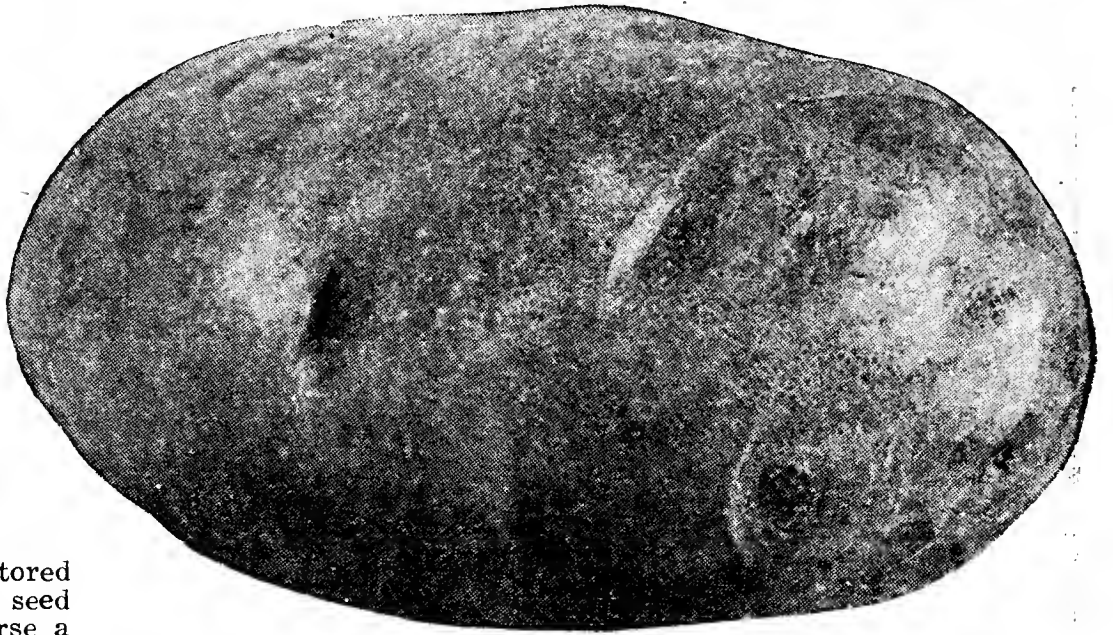

Rural New Yorker Potato.

No. 1 Minnesota Certified

Extra Early Cobbler, Irish Cobbler. One of the most reliable, first early potatoes ever sent out. It ripens almost with the Early Ohio and is so uniform that every hill seems to ripen at one time. The yield is very large for an early variety, equal to some of the late ones. Form oval and round, skin slightly netted, creamy white, having eyes which are quite shallow, some even with the surface. Flesh pure white and of finest quality and its very handsome appearance has brought it right to the front as a profitable variety for market or for home use.

Early Ohio. We have an extra early choice stock of this variety, seed selected from year to year.

Rural New Yorker. This well known Potato holds its own for the greatest yielding Potato of all. We grew a large field of these this year, carefully doctored and of certified seed, and we have a wonderful lot of seed to offer this season to our customers. It is of course a late, main crop sort maturing well in all sections and we think if you are interested in getting a good start you had better order some of these at this time. Sacked free.

Due to Uncertain Market Will
Quote You Reasonable Price
Direct on Potatoes

Sand Vetch

We could not supply our demands for this seed last year. Does well on sandy land, worn-out land, or anywhere else. Of course better land produces better crops. 1 oz., 5c; 1 lb., 30c. By freight: 10 lbs., \$2.00; 50 lbs., \$7.50.

Sudan Grass

This forage crop is of immense value to the South or any section not sufficiently supplied with rainfall. It is a great drought resister and makes an excellent quality of hay. Grows from 5 to 9 feet tall and stools freely when given plenty of room or after cutting. Do not sow until the ground has become thoroughly warm. 16-24 pounds to the acre broadcast, or 4-6 pounds in drills, 18-24 inches apart.

Sugar Cane or Sorghum

Early Amber. ¼ lb., 10c; 1 lb., 25c. By freight: 10 lbs., \$1.50; 50 lbs., \$6.00.
White Kaffir Corn. ¼ lb., 5c; 1 lb., 10c. By freight: 10 lbs., 50c.

White Kaffir Corn.

Soy Beans

Ito San. Popular early variety. Produces small yellow Beans. Next in earliness to Wisconsin Black. Matures dry Beans in 95 days and is very largely grown all through the central western states for the dry Beans and for a hay crop. Sometimes called simply Early Yellow. Our seed is mostly Illinois grown.

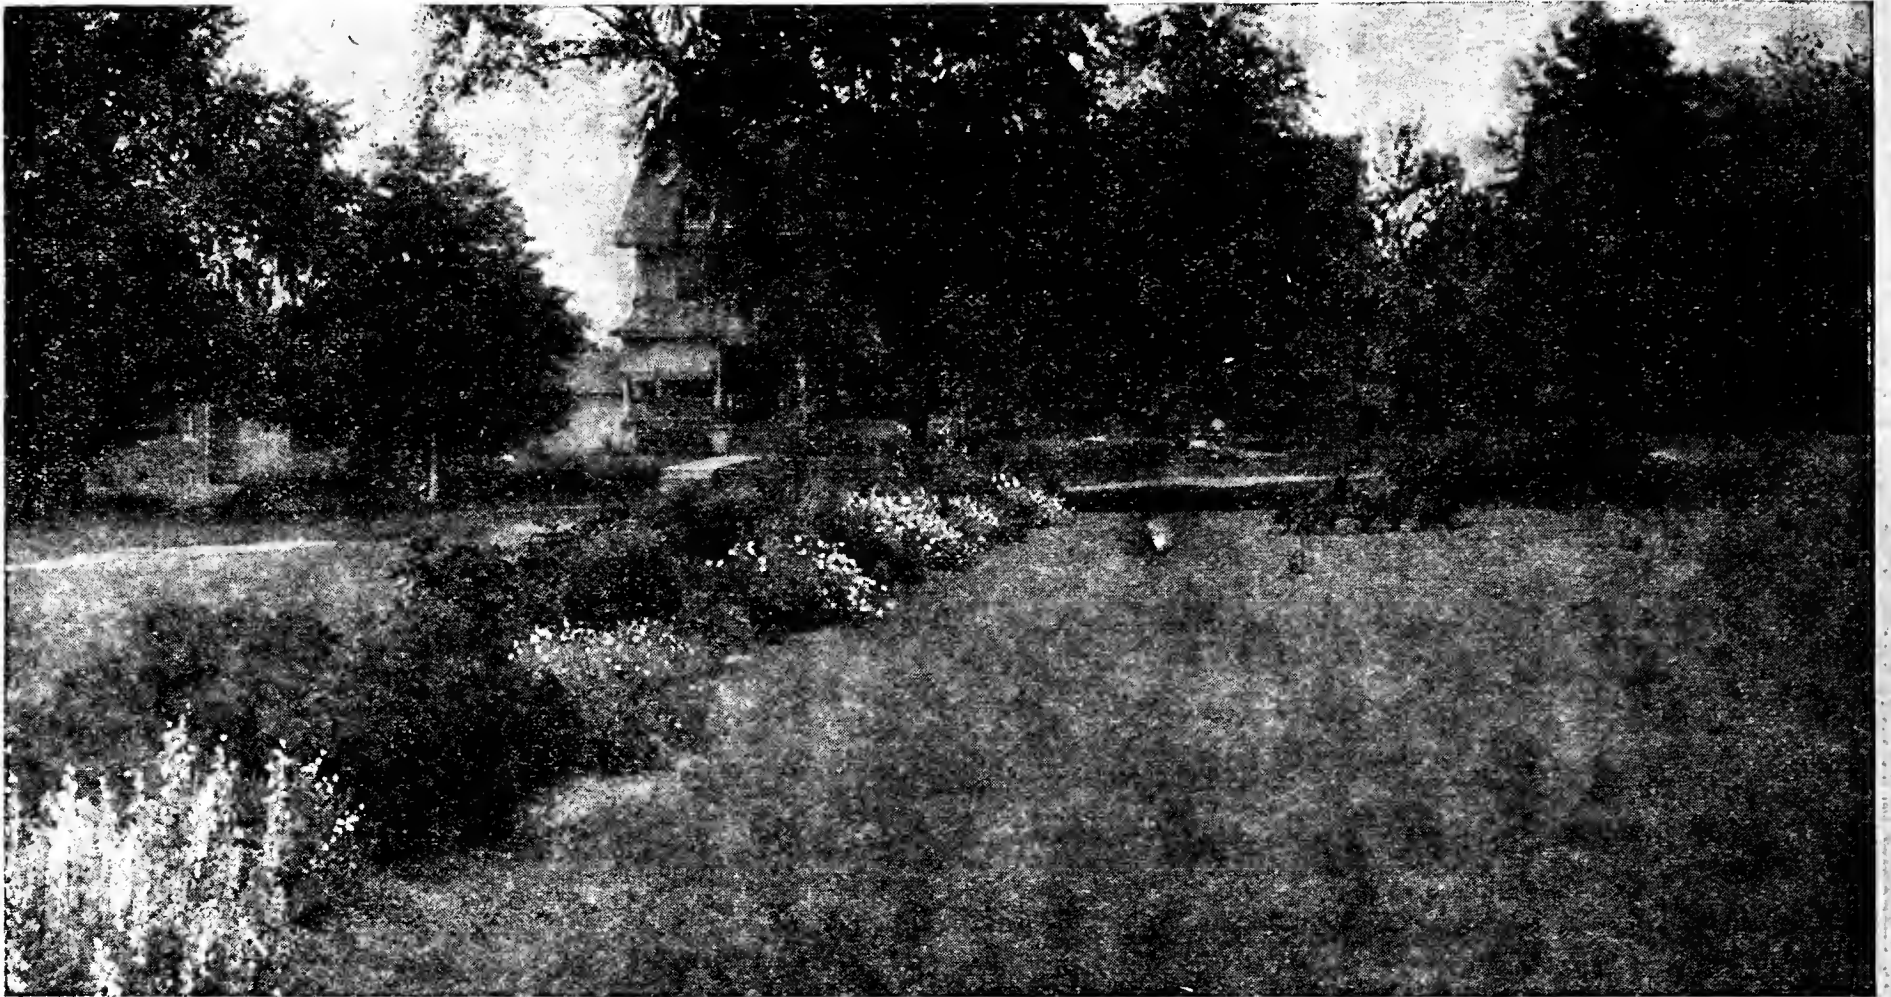

Manchu. This is today the popular Soy Bean in all the states of the middle west and the most valuable. It has jumped into prominence ahead of everything else and is fast displacing other varieties. Early enough to fully mature under ordinary conditions and large enough to be of real value. It is a medium early variety, nearly as early as Ito San and quite a little larger. Originally from northern Manchuria. Seeds yellow with a peculiar black seed scar.

Soy Beans.

Lowest Prices Since 1890.

Allen's Celebrated Lawn Seed

Value of a Lawn

There is nothing more pleasing to the eye, that adds more beauty and value to the home, than a beautiful well kept lawn. You never get tired of a good lawn and no home is complete without it.

Since it is so important, and since it is to last for years, nothing in its construction should be slighted. By making a good lawn at the start, much worry, labor and expense will be saved by the home owner afterwards.

Write for special quotations on grass seed in large quantities.

Creeping Bent

(*Agrostis Stolonifera*)

Modern golf has popularized this thickly rooting, densely cropping grass for putting greens. Makes a velvety smooth, low, thrifty lawn surface, sown 60 pounds to the acre.

By mail, postpaid: Lb., \$1.00; 5 lbs., \$4.00; 10 lbs., \$7.00.

Renovate Your Lawn

If your lawn is thin and patchy, sow our Evergreen Mixture at the rate of about 1 pound to every 500 square feet and press in with a roller, applying this a couple of seasons, and top dress in the winter with well rotted compost and your unsightly lawn can be made beautiful.

Evergreen Mixture

For a Good, Clean, Quick Lawn

This mixture is composed of the choicest grasses for lawn purposes, and is especially made to produce a crop of grass very quickly.

We have had where conditions were extremely favorable a good stand ready for the mower in 3 weeks. This mixture contains no trash and is adapted to either clay, sandy or loam soil, and should be applied at the rate of 1 pound to 300 square feet, or in the case of renovating old lawn 1 pound to 600 square feet, depending upon how thin the grass is. **Price: Per lb., 40c, postpaid; 5 lbs. for \$1.75, postpaid. By freight or express: 10 lbs. for \$3.00; 20 lbs. for \$5.00; 100 lbs. for \$21.00.**

Kentucky Blue Grass

One of the most fancy grasses that we have today. Is largely used in lawn making and starts growing early in the spring, continuing until the ground freezes late in the fall. **Price: Per lb., 30c; 5 lbs., \$1.40, postpaid.**

White Dutch Clover

This is very good seed to use in renovating old lawns, especially on sandy soil, as this plant roots deeper than any other variety of grass and is not affected so much by drought. **Price: Per lb., 60c; 3 lbs., \$1.50, postpaid.**

Spots like this need Allen's Shady Nook Mixture.

Shady Nook Mixture

Have you a lawn that is shaded by trees? If so, try a few pounds of our Shady Nook Grass Mixture which is just what you need in order to raise a patch of fine, compact, velvety grass under such conditions. Shaded ground often becomes sour and in this case it would be necessary to give it an application of crushed limestone before seeding, applied at the rate of 25 pounds for 500 square feet. Seed at the rate of 1 pound to about 250 square feet. **Price: Per lb., 40c; 5 lbs. for \$1.75, postpaid.**

Beautify Your Lawn with Allen's Lawn Seed.

Allen's Superior Flower Seeds

Our quotations are postage paid, other firms let you pay the postage.

Annuals Mixed

A great assortment of flowers, always keeps you looking for something new. Pkt., 5c.

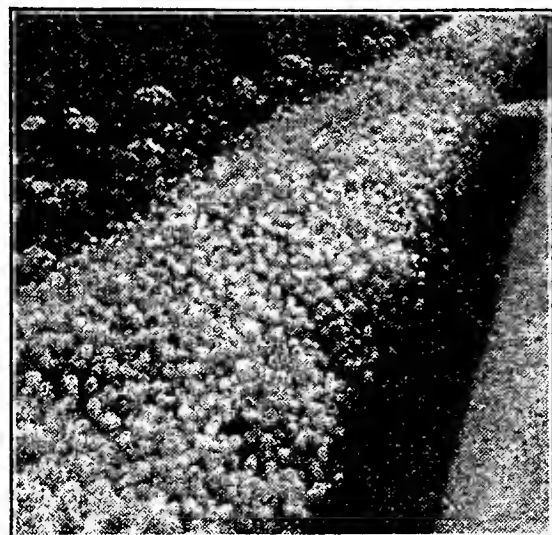

Alyssum

For border this dainty little flower has no equal.

"Carpet of Snow." Forms close mat of snow-white bloom. Pkt., 5c; ¼ oz., 20c; 1 oz., 50c.

Little Gem. 3 to 4 inches high, 15 to 20 inches across. A mass of white flowers from spring until late frost. Pkt., 5c; oz., 50c.

Compactum lilacinum (Lilac Carpet Plant). 9 inches. Distinct variety with delicate lavender flowers. Pkt., 5c; ¼ oz., 35c.

Sweet Alyssum.

Antirrhinum - Snapdragon

TALL MAXIMUM

Salmon Rose. (New). Rose-shaded salmon. 10c per pkt.

Autumn Glow. Old rose, shaded terra cotta. 10c per pkt.

Best Mixed. 10c per pkt.

LARGE FLOWERED

Fire King. Orange-scarlet. 5c per pkt.

Brilliant Rose. Rose-pink. 5c per pkt.

Queen Victoria. Pure white. 5c per pkt.

All above mixed, per pkt., 5c.

MEDIUM LARGE FLOWERED

Defiance. Orange-scarlet. 5c per pkt.

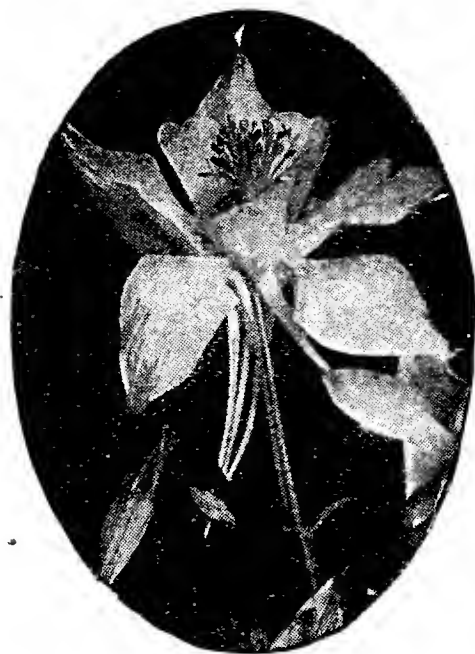

Philadelphia Pink. Fine pink. 5c per pkt.

Purity. Best pure white. 5c per pkt.

Best All Colors Mixed. 5c per pkt.

Aquilegia

Mrs. Scott Elliott's Improved Long-Spurred. Mixed colors. 10c per pkt.

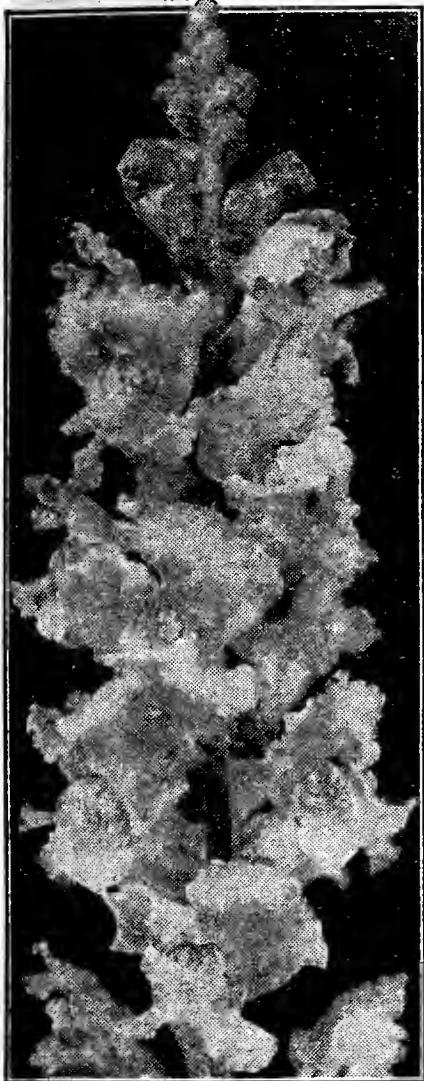

Aquilegia.

Asters

Our seed will be wilt resistant this year and has cost considerable more to produce and will be true to type and description.

American Beauty. Large, resembling American Beauty Rose in color, growing very high, very beautiful. Pkt., 10c; ¼ oz., 30c.

Antirrhinum.

California Giants. (New). One of the finest curled and interlaced, containing all the newest colors. Large flowers of Crego type on stems 2 to 2½ ft. tall. Pkt., 15c; ⅛ oz., 40c.

Crego Asters. Best late flowering Asters in existence. Flowers larger than Giant Comet, long twisted petals, free bloomer, fine for cutting purposes. You will make no mistake in planting some of these. Any of the following colors: White, Rose, Lavender, Purple, and Mixed. 10c per pkt.; ¼ oz., 25c; 1 oz., 80c.

Giant Branching Comet. This variety is one of the most beautiful of all flowers. Often from 4 to 6 inches across. Plants grow from 12 to 20 inches tall. The flowers resemble the Chrysanthemum in their twisting shapes. The stems are very stiff, bearing the flowers well up and running from 20 to 30 to the plant. Flowers last a long time, excellent for cutting and selling. Following colors separate: White, Carmine, Rose, Pink, Lavender, Dark Blue, Mixed. Pkt., 10c; ¼ oz., 30c; 1 oz., 90c.

Heart of France. The greatest Aster ever introduced; pure ruby red, stays red until the end, soft and velvety as a rose; flowers large, full bloomer, branching, stems long. The petals appear strikingly changeable. Heart of France will certainly take the place of all other red asters. 10c per pkt.; ¼ oz., 30c; 1 oz., 70c.

Improved California Sunshine. (New). Entirely new shape, nearly single with double center. Very beautiful; should be included in all gardens. Pkt., 10c; ¼ oz., 40c.

Queen of the Market. Choice mixed, earliest of all asters. 12 inches high. Very branching, one of the very best for market flowers. Pkt., 10c; ¼ oz., 30c.

Super Giant, Los Angeles. (New). First of a giant new race of asters. Pure shell-pink flowers that are freely petaled and deep. Artistically graceful, a coming variety. Wilt proof. Pkt., 15c; ⅛ oz., 50c.

Yellow Giant. Fancy beautiful variety. Pkt., 10c; ¼ oz., 30c.

Giant Branching Comet Aster.

Our Flower Seeds are Guaranteed to Grow.

TALL NASTURTIUMS

Burpee's. New race of variegated leaved, mixed. Pkt., 5c; oz., 15c.

Lobbianum. Choice mixed. Pkt., 5c; oz., 15.

Lobb's Mixed Nasturtiums. Best flowering. Pkt., 5c; oz., 10c.

Madame Gunther's Hybrids. Mixed beautiful colors, with extra large flowers. One of the best. Pkt., 5c; oz., 15c.

Salmon Prince. Finest salmon colored. Pkt., 5c.

Scarlet Beauty. The finest dark colored variety, very handsome. Pkt., 5c; oz., 15c.

SCHULTZI. Scarlet with dark leaves. Pkt. 5c., oz., 15c.

Tall Nasturtiums. Mixed. Pkt., 5c., oz., 15c.

Golden Gleam Nasturtium.

Nicotiana

Sweet Scented Tobacco Plants. As summer garden plants, their long, broad leaves are quite as attractive as the fragrant star-shaped bloom.

Affinis. Pure white, sweet-scented flowers. Pkt., 10c.

Pansies

There is no flower that is so general a favorite as this. We take especial pleasure this year in introducing to you four new Giant varieties as well as the Royal Mixed.

Engelmann's. (New). A giant strain coming from England, with wide range of color. Pkt., 15c.

Giant Curled Goliath. Enormous, ruffled flowers of a pure golden yellow with three large black blotches. Very beautiful. Pkt., 10c.

Giant Ruffled (Masterpiece). Giant sized flowers, very fine, mixed. Pkt., 10c.

Oregon Giant. This is the finest and largest mixed Pansy seed that can be

purchased. We are buying direct from the originator. We can supply limited amount at 15c per pkt.

Swiss Giants. Large. Very good. Pkt., 10c.

Royal Prize Mixture. Contains all the new colors. Pkt., 5c.

Pentstemon

New Large Flowering. The numerous Gloxinia-shaped flowers are borne in long spikes from May until frost. Bloom first season if sown early in a hotbed and planted out as soon as frosts are over. The colors are white, pink, rose and crimson, many being spotted and margined with a contrasting color. Hardy perennial. Choice mixed, pkt., 10c.

Nicotiana.

Dwarf Nasturtiums.

Giant Pansies.

Our Flower Seeds are Guaranteed to Grow.

A window box of Allen's Giant Petunias.

Petunias

The new giant-flowered strains are very handsome.

Giant Mixed. Extra large. Per pkt., 25c.

Howard's New Star. A new race of velvety flowers. Pkt. 10c.

Snowball. Best white. Pkt., 10c.

Balcony Type. Very free bloomers, adapted for edges and porch boxes. Pkt., 15c.

California Giant. Largest 5 inches across. Pkt., 25c.

Petunias. All kinds mixed. Pkt., 5c; 1 oz., 30c.

Platycodon

(Balloon Flower)

The unopened buds resemble miniature balloons opening up as deep throated, 1½- to 2-inch bells. Hardy perennial, 2 to 3 feet; prolific and long season of bloom. Seed sown in early spring will bloom in August.

Mixed Colors. Blue, white. Pkt., 10c.

Ricinus.

Phlox Drummondii

These annuals have no equal for variety in color that will show as far as eye can see. Fine for cut flowers, easily grown, should be the center of every garden. We selected the finest tints last year and put them into a mixture of our own and promise you a great variety of new, separate colors of our own in a few years.

Allen's Unsurpassed Mixture. Pkt., 10c.

Starred and Fringed. Mixed. Pkt., 10c.

Poppies

New double and single. Will grow anywhere, making a gorgeous display of colors.

All varieties mixed. Pkt. 5c.

Barr's New Tall Double Mixed. Largest Poppy grown. Pkt., 10c; oz., 35c.

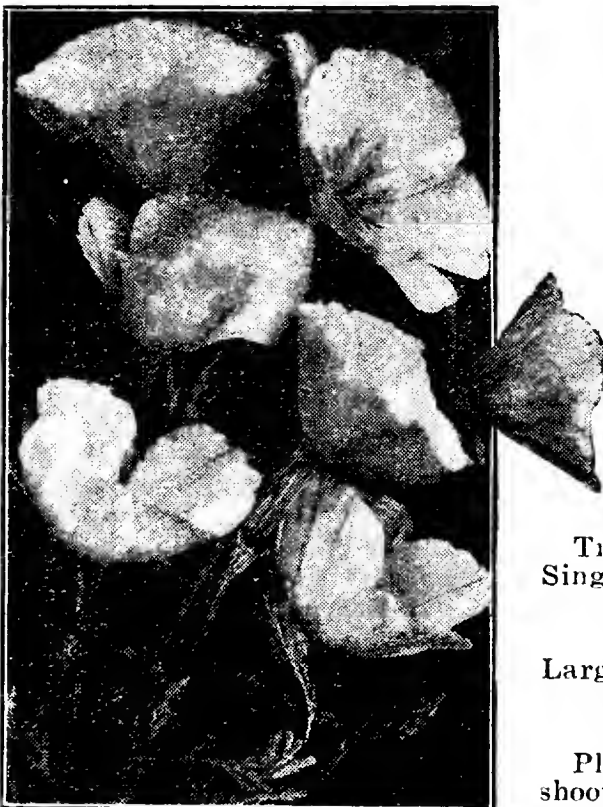

Shirley. A lovely, showy flower, tinted with all colors. Pkt., 5c.

Oriental. A hardy variety growing 2½ ft. tall, large crimson flowers, blotched with dark. Pkt., 10c.

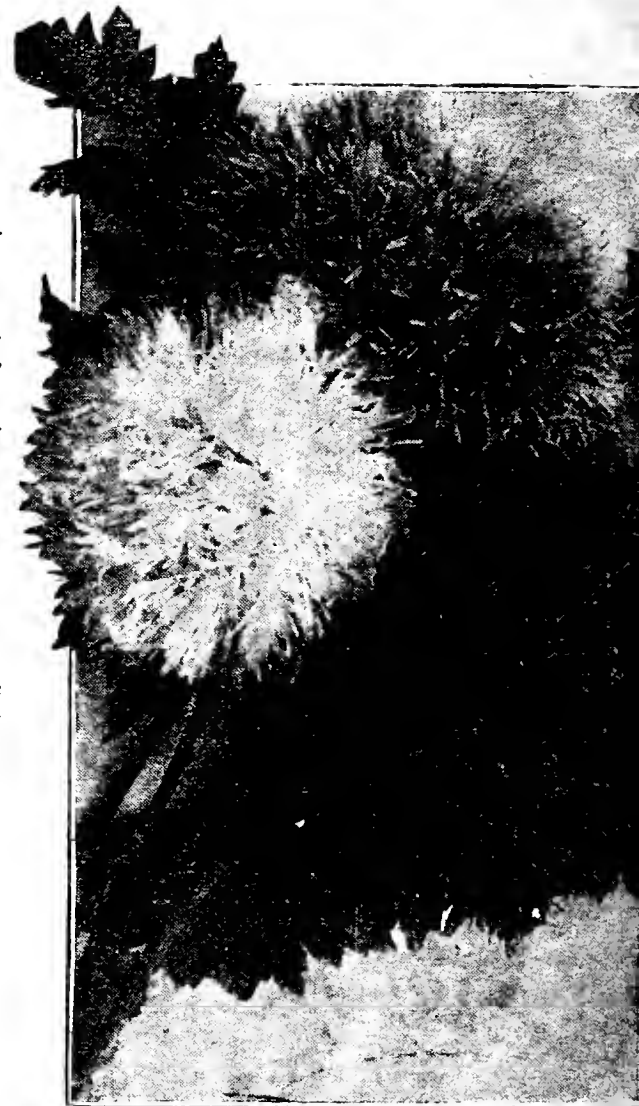

Admiral. One of the finest white, perfectly edged with a bright band of scarlet. Pkt., 5c.

Double Carnation-Flowered. Finest mixed. Pkt., 5c.

Iceland, Fakenham Hybrids. (New) twice the size of ordinary Iceland Poppies; a big range of color. Pkt., 10c.

California Poppies.

Double Poppies.

California Poppy

Sunlight. A true deep yellow with a new clearness and purity throughout both the inside and outside of the flower. The plants are very floriferous, the flower being borne on long stems. Pkt., 10c.

Portulaca

Trailing plants; make lovely borders for beds. Single mixed. Pkt., 5c.

Primula (Primrose)

Large flowering. Mixed. Pkt., 20c.

Ricinus (Castor Bean)

Plant noted for its semi-tropical appearance, shooting out large spikes of flowers.

Zanzibarensis. Common kind generally used. Pkt., 10c; oz., 20c.

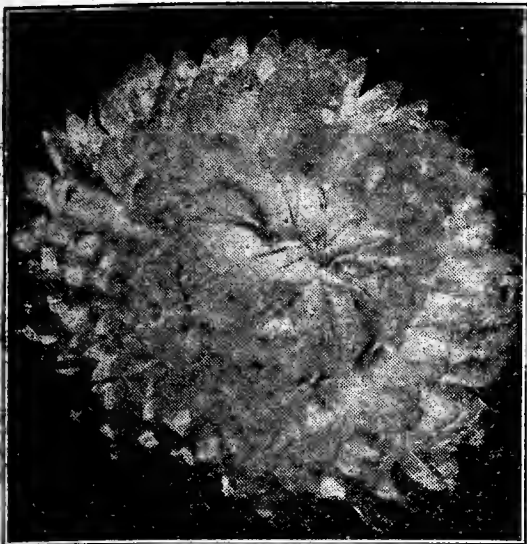

Our Flower Seeds are Guaranteed to Grow.

**FLOWER SEEDS—
Continued
Salpiglossis**

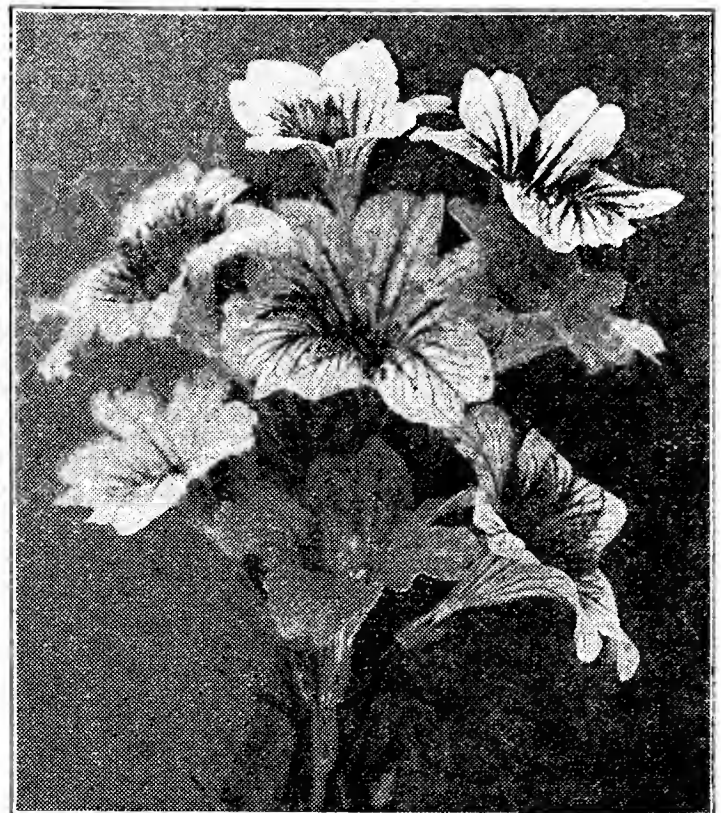

Undoubtedly one of the most attractive annuals and should be in every garden. The blossoms are tube-shaped much like a Petunia but rivaling the latter in the beautiful colors displayed. Each flower is veined with a glint of gold, and it is the only flower to our knowledge possessing this odd characteristic. Grows 2½ ft. high.

Purple and Gold.
Velvety Red.
Finest Mixed.

Any of the above: Per pkt., 15c.

Strawflowers.

Salpiglossis.

Salvia

Due to the immense demand for this we have added a complete list of all new varieties, varying in every shade from bright scarlet to dark blood red, mixed.

Scarlet Sage. Large flowering, of brilliant scarlet, a constant bloomer. Pkt., 10c.

Bonfire. Compact, roundish bush, completely a fiery red mass in autumn. Pkt., 10c.

America (Globe of Fire). New. Scarlet, best bloomer ever introduced. Good for bedding or porch work. Pkt., 10c.

Scabiosa

(Mourning Bride)

Giant Flowering Isaac House. Pkt., 5c.

Perennial Lilac. Pkt., 10c.

Schizanthus

(Butterfly Flower)

Hybridus Grandiflorus. Choice mixed. Pkt., 5c.

Wisetonensis. One of the finest large-flowered sorts, colors ranging from pink with brown center to white with yellow center. Excellent for pot plants. Pkt., 15c.

Scabiosa.

Stocks

Double Giant Perfection Ten Weeks. The "Ten Weeks" Stocks bloom in a wide range of color, about 10 weeks after being sown; grow about 18 inches high, and in light, rich soil bear an immense quantity of bloom, each plant forming a perfect bouquet of delightful fragrance. This type is a perfected strain producing extremely large double flowers. Offered in separate colors. Blue, Rose, Scarlet, White or Yellow. Pkt., 10c each.

Double Giant Perfection Choice Mixed. All colors. Pkt., 10c.

Dwarf Double Ten Weeks. Equally large flowers, but growing only 12 to 15 inches high. Mixed colors. Pkt., 10c.

Strawflower

(Helichrysum)

A hardy annual and one of the best Ever-lasting. The plant is 2½ ft. high and produces large, double daisy-like flowers.

Mixed Colors. ¼ oz., 25c; pkt., 10c.

White, Crimson, Red, Rose, and Violet at same prices.

Sunflowers

Our collection of these is most extensive and embraces all varieties worth attention.

Chrysanthemum Flowered. Is the grandest of all double sunflowers, beautiful golden yellow and remains in bloom a long time. Pkt., 5c.

Stella. Large, single flowering. simply a hill of gold. Pkt., 5c.

New Red. Very red and single. Pkt., 5c.

Sweet William

New shapes and colors are again appealing to all lovers of flowers.

Single. Mixed. Pkt., 5c.

Pink Beauty. Selected pink. Pkt., 10c.

Scarlet Beauty. Flaming scarlet. Pkt., 10c.

Double Mixed. Pkt., 10c.

Sweet William.

Schizanthus.

Our Flower Seeds are Guaranteed to Grow.

FLOWER SEEDS—Continued

Allen's Famous Sweet Peas

Sweet Peas to succeed best should be planted very early. Some plant about Thanksgiving for the earliest. Plant in a trench about one foot deep with well-rotted manure. Our mixtures are from the best named kinds and we are selling the best that are in the market.

Spencer Sweet Peas—New Varieties.

These are enormous flowered Sweet Peas, producing flowers from 1¾ to 2 inches across. Pkt., 10c; oz., 20c; 1 lb., \$2.00.

Defiance. Dazzling rich fiery red.

Hebe. Very large. Rose-pink.

King White. Gigantic. Pure white.

Mrs. C. P. Tomlin. New. Fine scarlet.

Mrs. Tom Jones. First class. Rich blue.

Picture. Combination of the cream and pink.

President Harding. Unique color for sweet pea. Peach-red or salmon-cerise, suffused orange.

Renown. Best rose-carmine.

R. F. Felton. New. Rich lavender.

Royal Purple. Rich royal purple.

Sunset. Shade of rose with yellow suffusion. Fine and new.

Warrior. Deep reddish maroon.

MIXED SPENCER

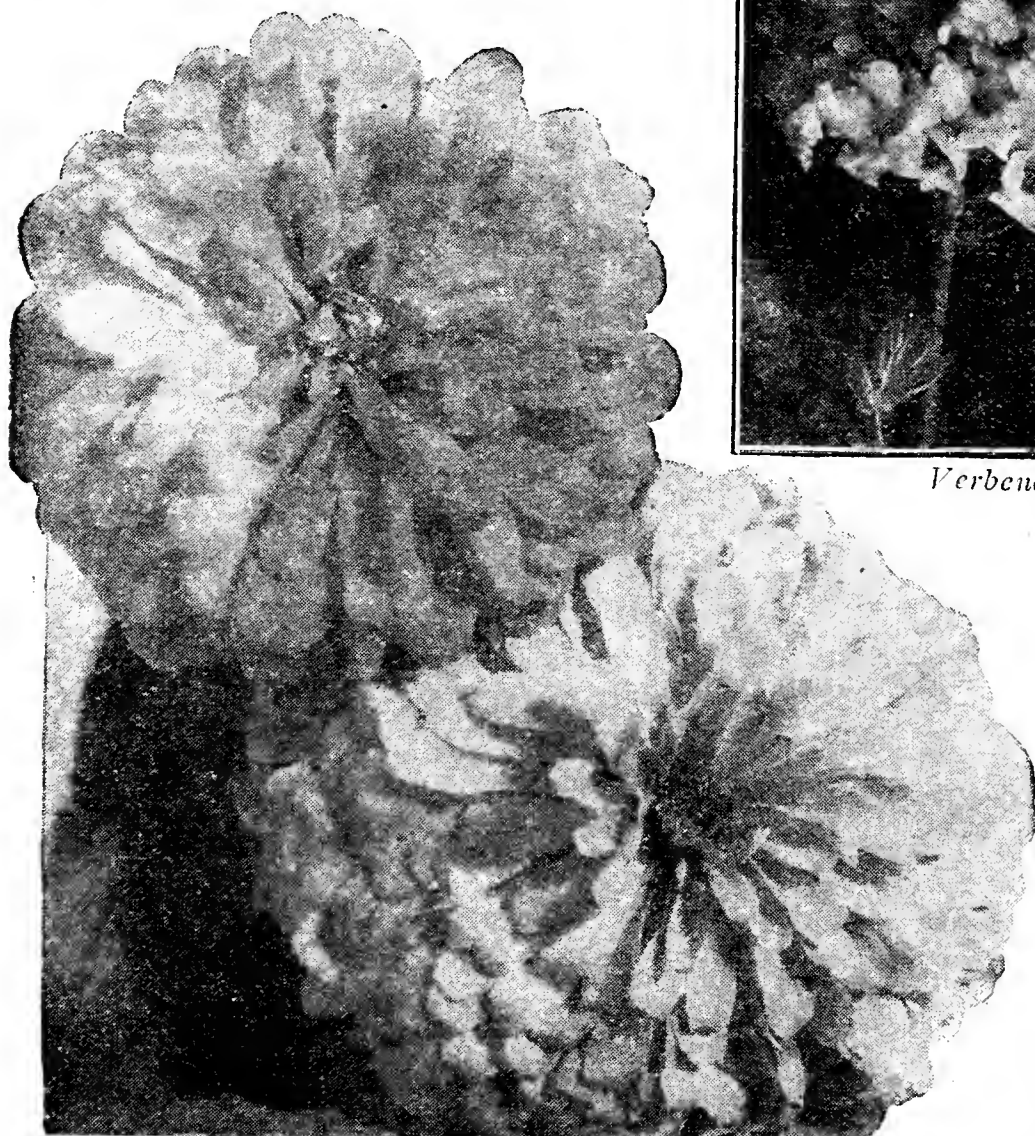

Allen's best mixture—Consists of a mixture of the best sweet peas in America.

Hardy Peas

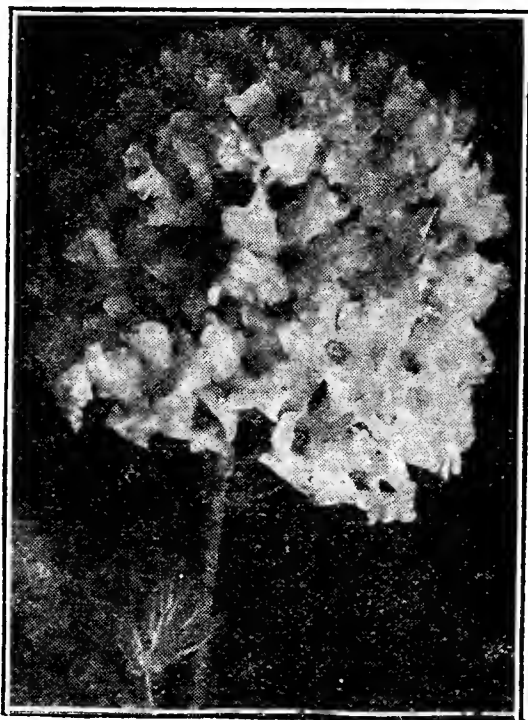

Mixed or select Pink, Red, and White. Pkt., 10c.

Thunbergia

Beautiful, rapid growing, rather shrubby climbers, with a plentiful supply of trumpet-shaped flowers in various colors and markings; fine for vases, rustic work or greenhouse culture. Half-hardy annuals; 5 ft. Fine Mixed. Pkt., 5c.

California Giant Zinnias.

Verbena.

Spencer Sweet Peas, Hebe.

Tritoma

Hybrida mirabilis. An annual Red Hot Poker plant. Seed should be sown in temperate heat from January to March, pricked off and treated like half-hardy annuals. The seedlings may be planted in open ground from end of April to May and they will bloom freely from August to late in the autumn. Pkt., 5c.

Verbena

Auriculaeflora gigantea. Extra fine, mixed. Per Pkt., 10c.

Erinoides. 12 inches. Forming elegant little spreading bushes with finely cut foliage and pretty heads of bloom, purplish rose changing to oxford-blue. Pkt., 10c.

Wallflower

Deliciously fragrant flowers in long, full spikes which are very free and pretty during the spring. They combine many shades of colors; the orange, purple and chocolate predominating. Tender perennials, requiring winter protection in the north. 1½ ft.

Annual Mixed. Blooms first year. Pkt., 10c.

Perennial Mixed. Pkt., 15c.

Zinnias

Dahlia Flowered. New double Zinnia of mammoth size, peerless mixture. Per pkt., 15c.

Picotee Flowered. This type is an exquisite strain, each petal is tipped with a darker shade. Comes in a variety of colors. Pkt., 20c.

California Giant Double. All colors of giant Zinnia, mixed. Pkt., 10c.

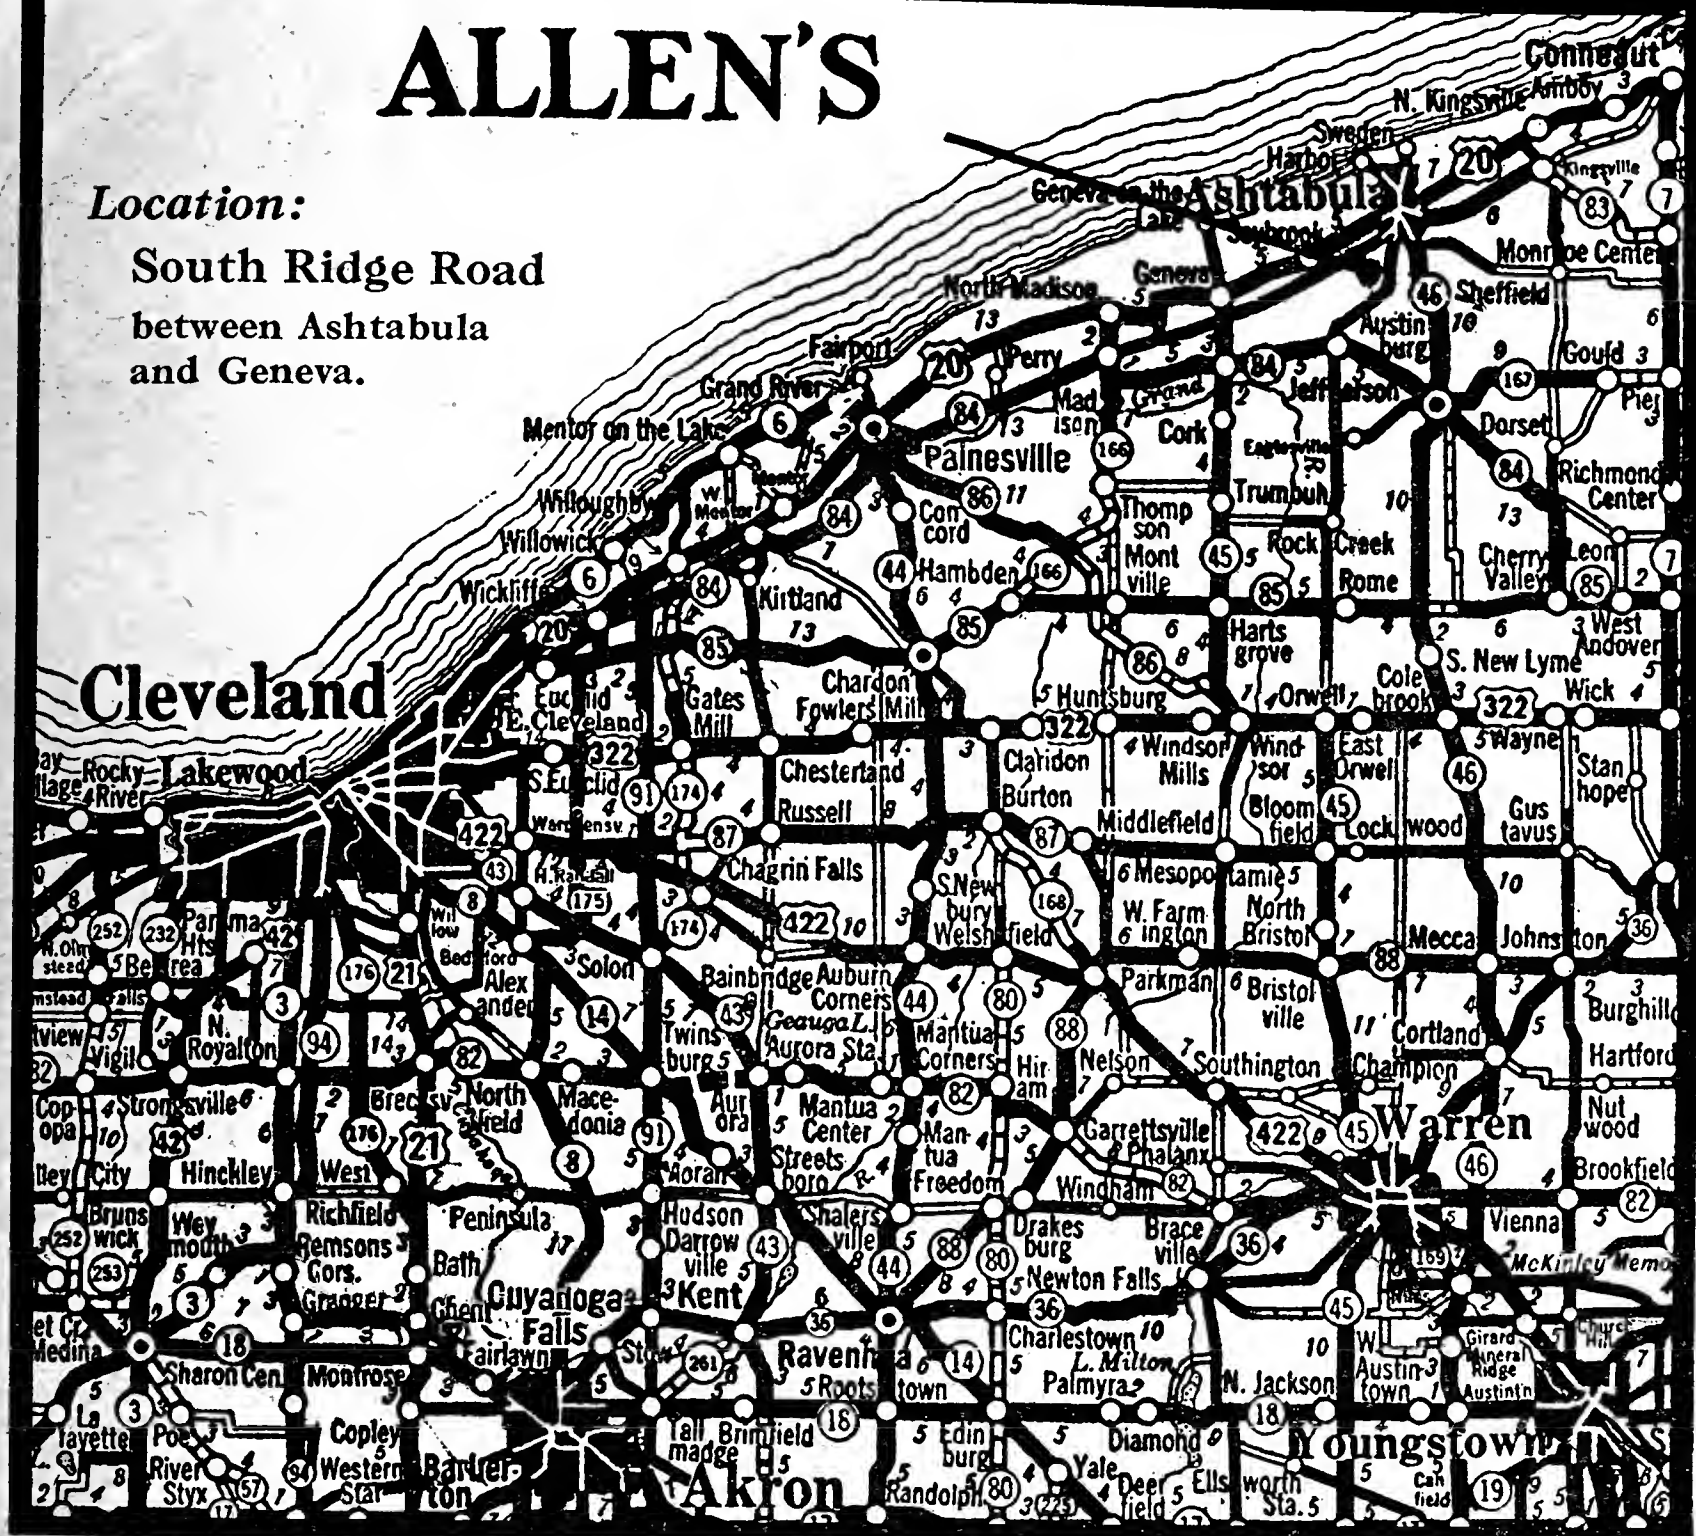

Lilliput or Pompon. Bearing small, button-like, double flowers. Very good for bedding. One outstanding new flower, has good long stems. Mixed. Pkt., 15c.

Sweet Peas Make Splendid Bouquets.

PLANTING AND PRUNING

On arrival of stock, plant at once if possible; if not, remove from packing, wet down well and heel in, in mellow soil, packing dirt firmly about roots; but plant as soon as possible. Do not expose roots to sun or wind as stock so exposed is not liable to grow. Soil for planting should be well drained. Prune all bruised or broken roots with a sharp knife. Trim all the trees up to four or five branches, suitable for forming a top. Cut these branches back to within four or five buds of the body or in other words about three-fourths of the growth. Peach trees, all branches should be cut off and cut back like a cane. This is important, do not fail to cut back your trees or shrubs for best results. In planting make holes large so as not to crowd roots. Use surface soil for filling in and plant as firmly as possible, pressing down soil well with the feet. Dynamiting the holes for planting is better than digging holes with a shovel. Never put manure in the hole about the roots.

AGE OF BEARING—DISTANCE TO PLANT

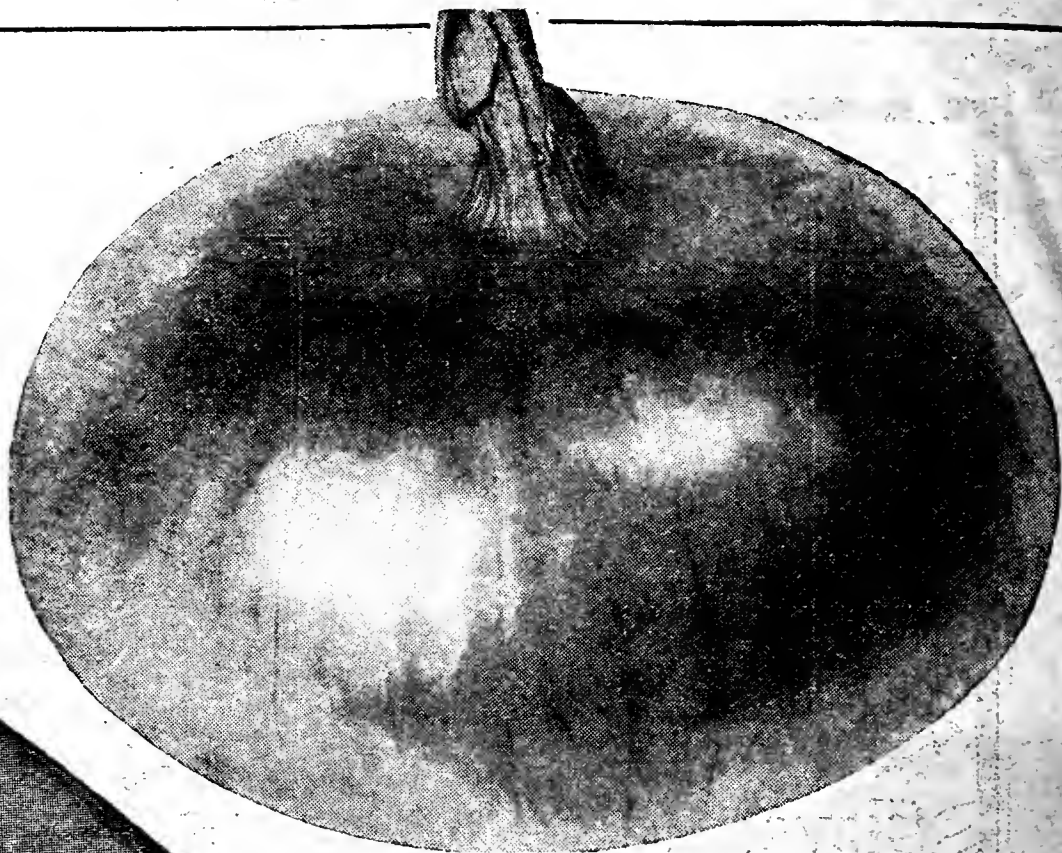

As the age of bearing depends so much upon variety, soil, climatic conditions and care given, this can only be an approximate table under average conditions. To ascertain the number of trees or plants required for any given space, multiply the length of the space by the breadth to ascertain the number of square feet contained therein. Then multiply the distance apart you intend to set your rows by the distance between each tree or plant in the row to get the number of square feet each tree or plant will take. Divide the number of square feet in the given space by the number of square feet each tree will require and the result is the quantity of trees or plants required for that given space.

	Age of Bearing	Distance Apart	Number per Acre
Apples—Standard	3-6 yr.	35x35 ft.	35
Apricots	3 yr.	15x15 ft.	193
Blackberries	1 yr.	8x6 ft.	907
Cherries—Sour	3-4 yr.	15x15 ft.	193
Cherries—Sweet	3-4 yr.	20x20 ft.	108
Currants	2 yr.	4x4 ft.	2722
Gooseberries	2 yr.	4x4 ft.	2722
Grapes	2 yr.	8x8 ft.	680
Peaches	2 yr.	15x15 ft.	193
Pears—Standard	3-4 yr.	20x20 ft.	108
Plums	3-4 yr.	20x20 ft.	108
Quinces	4-5 yr.	10x10 ft.	108
Raspberries	1 yr.	6x4 ft.	1815
Rhubarb	1 yr.	4x3 ft.	3630
Strawberries—Farm	1 yr.	4x1 ft.	10890
Strawberries—Garden	1 yr.	2x1 ft.	21780

Laxtonian Peas

Called the dwarf Gradus, needs no support. It produces immense quantities of pods of large size filled with sweet flavored peas of fine quality and very tender. (See page 45).

Prizetaker Onion

The largest onion grown, weighing up to 6 lbs., perfectly round, light yellow with pure white flesh, mild flavor, solid. It is a profitable sort to grow, selling better than any other. (See page 44).

Fordhook Bush Lima

An ideal bush growth with upright stem and branches. Enormous grower of thick, meaty beans of excellent quality. Early and the most productive of all the Limas. (See page 38).

Early Hackensack Muskmelon

Very early and of good size. Flesh green, sweet, juicy. Seed space small. A good market melon. (See page 43).
